SAW MILL AND TIMBER LAND FOR SALE OR TO LET

In the Township of Artemesia, County of Grey, 4 miles from Flesherton Station, on the Canadian Pacific Railway. The mill is situated at Little Falls, in a block of about 400 acres timber land, with other timber land surrounding. The building is substantially built on stone foundation. The machinery is all good and driven with great power by a 23 inch Lefell wheel, under 36 ft. head of water. There are one large circular saw for cutting logs, 2 small circulars for sawing lath and broom handles, 1 guage lathe for turning broom handles, etc., 1 shingle machine with jointer and packer complete. The water power is excellent, the stream being very regular. There are several other good mill sites on the property. The land in the valley is considered the best in the country. The place would make an excellent stock farm when the timber is taken off.

This offers a good opportunity for a practical, energetic man to go into this kind of business, as the place will be sold or let on liberal terms.

The bush is so convenient to the mill logs can be trucked in summer time. Immediate possession given.
