Flesherton.

From our own correspondent.

Mr. J. Linton of Eugenia was summoned to appear before our J. P. on Saturday last to atone for assault made on Mr. Down on the Flesherton skating rink a few evenings ago. We understand John had to pay to the tune of something over $6.00. This was an unfortunate occurrence for Mr. Linton as he is generally known as a quiet, respectable young man.

Miss Watt, who has been prostrated with a lingering illness, passed peacefully away a few days ago. Her remains were interred in Flesherton cemetery on Saturday afternoon.

A. G. Campbell, Esq., an old resident of our village, and who has just returned from the North-West, paid a brief visit to some of his friends here this week.

Mr. A. Rowe, who lives about a mile from this village, while out in the woods a few days ago, met with a painful accident by being crushed under a log while loading his sleigh, one of his knees being badly crushed.

Monday last was monthly fair day here. A few cattle changed hands, but there was not as many offered as usual, we suppose owing to the bad state of the roads to drive cattle on.

Mr. Joseph Hind, who has been prostrated for some time, is slowly recovering again.

Re-Opening.

The re-opening services of the Markdale Presbyterian church were very successfully conducted by the Rev. Mr. Scott of Owen Sound on Sabbath last. The church which has during the last two weeks undergone extensive repairs and comfortably re-seated, was filled at both morning and evening services. Mr. Scott selected for his text in the morning the 6th verse of the 87th Psalm, and in the evening 9th verse of the 19th chapter of Revelation. Both services were characterized by the marked attention of the hearers to the preacher, which was due to Mr. Scott's plain, earnest, distinct delivery which is free from all the old fashioned excited gestures.

The meeting on Monday evening, as announced, was sparsely attended, owing to the inclemency of the weather. Mr. Scott's account of his holiday rambles through England, Ireland and Scotland was both instructive and interesting, occupying the greater part of the evening. Rev. W. Casson spoke at some length on the great necessity of congregations seeing that their minister get at least one month in the year for a breathing time. He testified to the amount of good Mr. Scott derived from his holiday trip, by saying he looked twenty years younger from its effects. Rev. McLeod, Priceville, congratulated Rev. Mr. Wilson and the congregation on the handsomely furnished and comfortable interior of their church.

After a vote of thanks to the Rev. Mr. Scott, which was moved by Mr. Wm. Brown, and seconded by Mr. Anderson, the proceedings was brought to a close by Rev. W. Casson pronouncing the benediction.—COM.

The annual meeting of the County of Bruce Printers and Publishers Association was held in the Town Hall, Walkerton on Friday and Saturday last. There were present Messrs. Wintlock, of the Tara *Leader*; Dick, Kincardine *Reporter*; Johnson, Port Elgin *Busy Times*; Stevens, Walkerton *Telescope*; Rittinger, Walkerton *Glocke*; Wesley and Lawton, Walkerton *Herald*; Denholm, Kincardine *Standard*; Pollard, Tiverton *Watchman*; Campbell, Wiarton *Echo*; Ashley, Hanover *Post*; Fairbairn, Teeswater *News*; Kay, Chesley ENTERPRISE. The officers elected for the ensuing year are :—President, J. A. Rittinger; 1st Vice Pres., W. M. Dick; 2nd Vice pres., W. S. Johnson; Secretary, J. Stevens; Treasurer, A. Denholm. The reports of officers showed the Association to be in a flourishing condition and firmly established on a durable basis. When the Association was formed the the general public had the idea that it was a combination to raise prices, but the experience of the past year has proven that the Bruce printers had no such object in view. It has been found that the prices have not been increased while there has been a great improvement in the quality of work turned out. Hence the Printers and Publishers Association is not only [illegible]

Grange closed in due form.

Your Committee on Temperance beg leave to report as follows: Your Committee recognize with the greatest of pleasure, the fact that prominent men and women in all moral reforms, are putting forth great exertions at the present time, to prohibit the evils arising from the use and abuse of spirituous liquors in our houses of public entertainment throughout the Dominion; and, although we may differ in our opinions in regard to the best means to be used to accomplish this great and necessary moral reform we believe it to be the duty of all good patrons to use every exertion in endeavoring to bring about some good measure for the suppression of intemperance, as well as to uphold the hands of those who are spending their time and means to bring about so beneficial a reform. As the Scott Act is now the only measure at present calculated to be beneficial in this respect, we, as a Grange and as individuals, pledge ourselves to give it our cordial support

All of which is respectfully submitted.

Moved by Sister E W Moore, seconded by Sister E Harris, that this report be adopted.—Carried.

Your Committee on Seed Grain beg leave to report as follows: The white Russian Spring Wheat still seems to be the general favorite, whilst other varieties are doing well in some localities. Such as the Flemming, Defiance and the White Fife are popular in some of the townships bordering on the Georgian Bay, but your committee would not recommend the latter varieties of seed for the Southern portions of the County as they have not so far proved a success. Barley, which is now very extensively sown, seems to be decreasing in weight and yield. Your committee believe the greatest cause of the deficiency in this kind of grain is that farmers are not as careful as they should be in procuring a change of seed. Oats have, generally speaking, not done well the past year, and it is generally admitted that the great cause of this failure can be attributed to the sowing of unsound seed. Your committee would therefore strongly recommend to the farmers the importance of changing their seed grain frequently, and to select the same from suitable locality, always taking into consideration the climate and the nature of the various soils, as for instance from heavy clay to sandy loam and *vice versa* is a good change and when changing from a distance, the climate from the part of the country the seed is procured should be as near in temperature as possible to that of our own; and your committee would further recommend that the members of the Grange unite with the various Agricultural Societies for the purpose of holding seed fairs, as seed grain could be conveniently changed this way.

THOS. KELLS,
A. BOND,
D. ARMSTRONG } Committee.
