News scarce, but as we have not written lately, and don't like to be behind, we have concluded to send in a few lines. Phiz has often noticed that when his correspondence failed to appear, that correspondents of other places have been the same, so he thinks he will try and write oftner, and see if others will follow his example,

Mr. A. Sharpe has returned from Ottawa, where he has been spending several weeks. He is looking well and as fresh as a daisy, and for the past few days has been visiting in Singhampton.

A number of residents enjoyed themselves at the Toronto Exhibition, and returned home right side up with care. But Mr. Allison complains of having greatly suffered while undergoing a painful operation on his eye; but is getting around again all right. Mr. Robert Gordon lost a fine horse lately, valued at about \$150.

One evening this week as we were returning home after a long journey, and having to pass through a long swamp, what should cross our path about ten feet ahead of us, but asomething, and as the clouds shaded the moon at that hour, we could no discern what it was; at first took for a man, but as it jumped a high fence close by without touching, we knew it was nt that. On catching a glimpse of it as we were trying to draw near to it crossing a field, w took it for a black dog, but on hearing the brush crack so loudly in the woods we came to the conclusion that it was a big bear, and that we had better make tracks, and we lost no time in making our way home.
