THE building committee of the new Methodist Church in this village anticipated a first class job when Mr. Richards secured the contract, but their most sanguine expectations have been more than realized. BURGLARY.—On the night of Nov. 8th, some parties broke into Mr. Bliss, mill at Traverston, and stole about eight hundred of chopped feed. A number of farmers in that vicinity have also had grain in small quantities taken from their barns, and one night recently, Mr. Cook's new house was entered by some parties who either maliciously burned some window sashes, or used them to keep on a fire and slept there. There must be something bad in the neighborhood.—*Grey Review*.

Fluid Lightning is simply a marvellous Rheumatic Remedy. I was for two months a cripple, unable to get out of the house for

THE stained glass windows were put in the new Methodist church last week, and the plastering was completed this week. The furnaces were also put up this week, and all the carpenter work will be complete next week. The whole edifice is pronounced "a model" by its numerous foreign as well as local visitors.

CONVENIENCE.—If you wish to subscribe for or renew your subscription for any of the following papers, you can do so at this office and thus save the trouble and risk of mailing:—*Globe, Mail, News, Daily World, Montreal Star, Farmers' Advocate, or American Agriculturist*. The balance of this year free to all new subscribers for 1886 for any of the above weeklies or monthlies.

THE great majority of subscriptions expire at the end of the year; there is but one month until that time, and during that month (December) is the best time to renew for next year. Those who have not yet paid for the present year will require to bring along an extra 25 cents, unless they pay for next year at the same time and that time must be before New-years in order to secure this discount.

I had for years been a miserable sufferer from Dyspepsia, and tried all known remedies and the best medical skill of my acquaintance, but still grew worse, until unable to eat any thing without great suffering, or do any kind of work. I began to think there was no hope for me, and that I must surely die; when, like a drowning man catching at a straw, I determined to give McGregor's Speedy Cure a trial, I at once began to improve so rapidly that in two months I was as well as I had ever been in my life.—Wm. EVERS LEAMINGTON. Sold by Hill Bro's. Free trial bottles.

IMPROVEMENTS STILL GO ON.—During the long winters with their attendant long evenings, it is well and highly proper to have some harmless and beneficial amusement for our young people, and this want is; we are glad to learn, to be supplied in the form of a roller skating rink which is to be built at once by J. E. Marsh and others. We have seen a plan of the rink and it appears to be such as will combine all the comforts and conveniences that the lovers of this commendable sport could desire. The contract is let and work already commenced.

STRANGE BUT TRUE.—On Friday last about one o'clock, a man from the vicinity of Markdale was driving along the road in Sullivan township, near Desboro, when his attention was suddenly attracted by an object by the wayside, and on coming forward it proved to be a German girl just after giving birth to a child. The man hastened to the nearest dwelling and secured the services of the woman of the house. The girl picked up her offspring and walked to said house where she was cared for. It appears she had been stopping with relations at Desboro who, on learning her state, forced her to leave on the above day. The names of the parties we withhold.

THE wisdom of inflicting capital punishment upon persons convicted of the grave political offences of inciting to rebellion and occasioning loss of life being conceded, the Federal Government acted wisely in not arresting the action of the law in the case of Louis Riel. The misguided man had a fair trial, and after the sentence his council and friends were allowed to exhaust every legitimate means of showing why the death penalty should not be inflicted. The highest courts in the realm found no reason for interfering with the death sentence. In his death justice has been vindicated, and the inherent ill-desert of crime has met with its just reward. The action of a portion of the French speaking population of this country in stirring race-hatred over Riel's punishment is greatly to be deplored. It is to be hoped that they will see in the execution of Riel both a lesson and a warning. The action also of such party newspapers as have made the execution of Riel a lever for party purposes seem to us

THE right place to procure a good chopping axe is at Haskett Bro's, Markdale.

CONCERT.—A concert in aid of Mrs. Gill, whose husband was lost on the ill-fated *Algoma*, was held in Haskett hall on Wednesday evening and was a grand success. The house was crowded and the programme was excellent, and very impressive, the selections being chiefly appropriate for the occasion. Receipts \$100.

If you are after a cross cut saw that will beat anything in the country, go straight to Haskett Bro's, Markdale.

HARVEY SAFETY LAMP.—We have been favored with a view of this new petroleum light, and we are strongly convinced of its superiority as a coal oil burner over any lamp yet placed on the market. The air chamber in which the wick-case is suspended has openings at the collar permitting a constant circulation of air downward around the wick-case, thence upward through the wick-case, thus giving a direct central draught. By this arrangement the wick-case is isolated from the oil, a small tube conveying sufficient oil through to the wick. This lamp is constructed upon thoroughly practical and scientific principles, and the result attained is a beautiful, soft white light, which for economy, brilliancy and steadiness is not surpassed by either gas or electricity. J. H. Hull, agent. See adv. in another column.

CHURCH OPENING.—The new Markdale Methodist church dedicatory services will be held on the 20th and 27th December. The Rev. Dr. Williams, Chief Superintendent of the Methodist Church of Canada, will conduct the morning and evening services on the 20th, and Warring Kennedy, Esq., of Toronto, the 2:30 p.m. service of the same day. Rev. Dr. Griffin of Guelph, the morning and evening services on the 27th, and Rev. J. E. Howell, M. A., Superintendent of Owen Sound District, at 2:30. A grand tea-meeting will also be held on Christmas Day. This church is a very handsome red brick edifice with basement, heated with hot air, has seating capacity for about 700. The design of the exterior is very imposing, while the interior is a perfect gem, and reflects great credit, not only on the architect, M. B. Aylsworth, Esq., of Toronto, but also the contractor, Mr. W. G. Richards of Markdale. The church complete will cost \$8,000. [If our neighboring exchanges will give the above one insertion, we shall esteem it a favor, and will reciprocate when an opportunity presents itself.—Ed.]

EIGHTH WONDER OF THE WORLD.
