Miss LAURA RORKE left this morning for Toronto where she intends remaining for an indefinite time.

Our esteemed friend, Silas Hill, has returned to Markdale, having accepted a sit. in McNea's planing factory.

Our correspondents will please remember to forward their budget so as to reach us on Tuesday for that week's paper.

Some of the Markdale House boarders complain of being awakened in the morning by the ring of Dan. McFarland's blacksmith anvil,—not before seven however.

REV. THOS. GRANDY left last week, being stationed at Bellwood, near Fergus. Rev. Robt. Hosking is his successor. The latter is a young man with an enviable reputation as a christian worker. Was married this week, we believe, and will be on hand next week.

We hope Holland and Glenelg township councils will see after that dangerous and notorious piece of road known as Allen's sink hole. Better spend something in the shape of making a permanent job than to have to pay heavy damages for life or property.

IT PAYS TO BUY THE BEST.—The Oshawa harvest tools are acknowledged by all to be the only reliable harvest tool in the market. Haskett Bros. say they can and will sell them at a less price than you can buy inferior articles, usually kept by other dealers. Call and see for yourselves.

TENDERS will be received for the erection of a dwelling house on a vacant lot in rear of Revere Hotel, Markdale, up to July the 20th. Plans and specifications can be seen by applying to the undersigned. The lowest or any tender not necessarily accepted. DANIEL BLANEY, Markdale.

We are gratified to be able to announce that Rev. Jas. Ward is so far recovered as to resume his work. He is a vigorous, systematic and efficient pastoral worker, and it is a great pleasure and satisfaction to his numerous friends to see him so soon on duty after his serious accident, and almost miraculous escape from death.

Quite a number have been enquiring if Rev. Geo. H. Cornish, successor to Rev. W. Casson, is not an aged man, being superannuated. This idea has doubtless arisen from the Mail's report of the stations, putting him down as superannuated instead of superintendant. Mr. Cornish is a vigorous man in the prime of life, a little over middle age.

Mr. G. S. Bowes has opened an office in Haskett's block, where he will do conveyancing in all its branches, also general fire and life insurance. He is commissioner in B. A. for Grey county; agent for the celebrated Doherty organ, and will do a general land agency business. We bespeak for Mr. Bowes a good share of public patronage, as he is well and favorable known.

ANOTHER Sunday will close the pastorate of Rev. W. Casson in Markdale, and it is with deep regret that his many friends and congregation give the farewell greeting. Mr. Casson's term has been one of peace and prosperity; his sermons far above the average; securing throughout large and appreciative audiences. His better half, whose cheerful self-sacrificing disposition and untiring energy and zeal for the church, rendering her a most valuable help-meet, will be greatly missed, while their family are justly respected and esteemed by all. We wish them every success in their new field of labor.

UNITED.—Mr. Robt Mercer of Artemesia and Miss Mary Stinson of Euphrasia, two of our most respected young people, entered into partnership "for better for worse" on Wednesday last. About 85 couple were present on the occasion. The evening was gorgeous, the moon full, and the whole party adjourned to the open air where the marriage ceremony was performed. We wish the happy couple a joyous and prosperous journey through life.

LAMP LIGHT.—We had the pleasure of visiting W. H. Harvey's lamp factory in Toronto last week, and was both surprised and delighted at the great success of the "Harvey Lamp." Mr. H. visited Chicago, Cleveland, Detroit, St. Louis, Louisville and Cincinnati recently, taking orders for 100,000 lamps for this season's manufacture. He has also a standing order for 500 dozen per month from a firm in New South Wales, and has sold the patent for England to Hinks & Son of Birmingham, the largest wholesale lamp firm in England. Mr. Harvey has facilities for the manufacture of a large quantity, and is taxed to its utmost capacity. The "Harvey Safety Lamp" is downing everything and is certainly meeting with the success it justly deserves. Factory and office, 169 Queen St. East, Toronto.

PROVIDENCE Church S. S., New England, held their 18th anniversary last Thursday. The weather was somewhat variable, but a very pleasant time was spent. The edibles were abundant and of a superior quality, and were served in the bush, where several swings were also up for the amusement of the young. Owing to a shower the company adjourned to the church where Mr. Hicks, the superintendent, took the chair, and a program was gone through consisting of music by the school, assisted by Messrs. W. A. Brown and G. S. Bowes of Markdale, dialogues and recitations by the children and short addresses by Messrs. C. W. Rutledge, W. A. Brown, G. S. Bowes and Geo. Steer of this village. The latter gave a very able and appropriate address which was listened to with great attention. Thus closed this pleasant anniversary.

THE GLORIOUS 12TH.—As far as we can learn, there is to be about thirty lodges of Orangemen celebrate the coming 12th in Markdale. This will mean at least 5,000 people in our town on that day. Now, it will be very desirable that the best possible accommodation be provided, and that the multitude are not allowed to "go hungry away." On a former occasion of a similar character there followed serious complaints owing to the inadequate provision made for visitors, in the proper supply of the wants of the inner man. We trust this will not be repeated, and from what we learn there will be no danger. The hotels are making immense preparations, Mrs. Caswell is preparing a gorgeous dinner; Mrs. Hollingshead will serve dinner in the Agricultural Hall, and will no doubt be largely patronized, and others will entertain guests, so that we think there need be no fear that all will be abundantly served.

THE TWELFTH IN MARKDALE.—This year the Twelfth will be celebrated in Markdale in royal manner. No doubt our hotel accommodation will be crowded to their utmost capacity. Mrs. Caswell has the reputation of getting up the most princely feasts on such occasions, and will be patronized accordingly. Her bounteous table saved the credit of our town on a similar occasion a few years ago, when the jest was made that Markdale was noted for its tough beef and lettuce as the principle articles on the Bill of Fare.—Adv.

NO PHYSIC IN MINE.—A good story comes from a boy's boarding school in Ipsalauta. The diet was monotonous and constipating and the learned principal decided to introduce some old style physic in the apple sauce and await the happy results. One bright lad, the smartest in school, discovered the secret mine in his sauce, and pushing back his plate shouted to the pedagogue "no physic, sir, in mine; my dad told me to use nothing but B. F.
