**IMPORTANT IMPROVEMENT**—Messrs. James and Samuel Wiley, of the 7th line Euphrasia, have purchased from Kennedy & Sons, of Owen Sound, new machinery throughout for their saw mill. The water wheel, one of Kennedy's celebrated Turbin's, passed through Markdale last Saturday; it weighs 2,800 lbs. They are building new flume, bulk-head and waste-gate and expect to have the new mill running by the 1st Sept. This mill has done an extensive business, and very satisfactory to the public; and its proprietors, being men of sterling worth and commendable push, will now be in a position to greatly excel all former efforts. They have sold the old machinery, which has been shipped via Meaford to Manitoulin Island.

Reasons why you should purchase Fluid Lightning in preference to all other remedies are Rapid result—cures instantly. It is easily applied—no trouble—no lost time. Sold at 25c. a bottle by R. L. Stephen, Druggist, Markdale. 3

**AN EXTRA PASSENGER**—The *Athabasca* on her last trip down had the honor of an interesting event which does not often happen on lake steamers. Mrs. Yellowlegs, formerly of Bowmanville, but lately residing with her husband in Manitoba, was on her way to visit her friends at Bomaniville, but on Sunday night gave birth to a fine boy. Though the interesting event was unexpected, the officers of the *Athabasca* were equal to the occasion. Capt. Foote as the father of a family felt quite at home, while Purser Chapman promptly decided not to collect fair from the extra passenger, and Steward Fleck made every provision for the comfort of the mother and son. The young mariner and his mother are both doing well, and on Tuesday Rev. Mr. Somerville baptized the new arrival by the name of "Herbert Athabasca."—[Owen Sound News.]

**ONTARIO INSTITUTION FOR THE BLIND**—The Institution for the Blind at Brantford re-opens for its next session on the first of Sept., and as there are always a number of pupils graduating at each vacation, applications to the Principal for the admission of new comers are now doubtless in order. Considering the almost utter helplessness and dependence of an uneducated blind person in after life, no arguments should be needed to induce all who have blind children under their care to avail of this opportunity of obtaining for them a thorough education with instruction according to the pupil's capacity, in music, in industrial work, and, in fact, in everything by which the blind may be made useful and happy. When, too, it is remembered that board and education are provided for by a legislative grant and so cost the friend of pupils *Not one cent*, the last shadow of an excuse is removed for keeping a blind child at home in idleness and thus losing a golden opportunity for acquiring inestimable permanent benefits. We strongly advise all who are interested in this matter to communicate at once with Principal Dymond who is always ready to give full information to inquirers. It may be as well to mention that the Institution is not for those who are totally blind only, but for all young persons residing in Ontario between seven and twenty-one years of age who, by reason of impaired or defective vision are unable to be educated at the public schools.

Thousands of lives saved annually by the use of West's Pain King, the household remedy for chills, colds, flux, summer complaint, dysentery, colic and cholera. Only 25 cents. Sold by A. Turner & Co., Druggists.

MR. JENKINS of the *Chronicle* appears lost for a weapon with which to assail, and drawing on his imagination, (his native element) writes thusly in last week's paper, "Rutledge is the only editor who ever squealed about us getting subscribers in his own village or town." We have indeed heard some "squealing," but it had been those who had been misled into subscribing for the *Chronicle*. They say, when Jenkins tackles a man for a subscription it is worth a dollar to get rid of him, and thus they are led against their will to take the unpalatable and unwholesome sheet; and yet its editor is so reckless as to affirm under oath (that he does not use any special means to increase its circulation (he probably serves all alike, and thus it is not special). It's a deplorable misfortune for the community that the management of a newspaper should fall into such hands; and after all, he is a subject of pity, owing to mental deficiencies and constitutional weakness, over which he seems to have no control, bringing upon himself the ill-will of the community in general and his superiors in particular. For our own part, we have no reason whatever to "squeal," and if we had a respectable rival at the helm of the *Chronicle*, or even in our own village, we would be the last to whine; we are not that kind by any means.
