HAVE you ever stood at a store on the corner and witness how many will drive their team up, stop them right over the crossing; and even hitch them there, when there is a post convenient? They don't appear to think of how many ladies are thus obliged to step out into the mud and wade around some other way. There is generally plenty of room without obstructing our crossings.

Next week we will commence a New Story "Rift and Spray." It is of extraordinary interest, and we would intimate, that those who expect to become subscribers to the STANDARD, at the end of this year who do not now take it, will do well to commence at once, thus securing this excellent serial, and also the balance of this year free: only \$1 to the end of next year.

### CLIPPINGS.

#### Newspapers.

To write for a paper is one thing; to edit is another. There are some excellent writers who "make a fool of a paper," if they had the conducting of it for a few weeks. A good editor seldom writes much for his paper; he reads, judges, selects, dictates, alters, combines and to do all this well he has little time to compose. Those people who have most to say about the way a newspaper should be conducted are those who know the least of what they are talking.—[Pioneer Press.

Hog shipments from the Northwest are becoming daily occurrence. Meinther Von-piggie-de-hoggie-de-porky-de-sausage is constantly making a big noise in our little world on the shores of Lake Superior, and like the tramp, he don't disdain taking up quarters for the night in the old Neebing hotel stables.—[Fort William Echo.

Mr. Jas. Noble, of the Royal, with his racing stock carried away \$285 from the Industrial exhibition, Toronto, last week. That is a good record, and Jim feels highly elated in consequence.—[Mesford Mirror.

GLENELG PICNIC.—The picnic held last Thursday in McMillian's Grove Glenelg was a pronounced success. Rev. Father Feeney excelled himself as a general host and made every one feel "at home." The repast was a most sumptuous one, and the music by McDonald the Highland piper was particularly excellent. An exciting contest took place, between two lady nominees, for a gold chain and locket, which were won by Miss Mary McMillan. The proceeds would have been greater had not a drenching rain descended just before the allotted time expired. No one gives a heartier welcome to visitors than the Glenelg Highlandmen and next year, if their annual picnic is held earlier in the season, large numbers will attend it. Markdale especially was well represented.—[Durham Chronicle.

A young daughter of Mrs. Anderson of this village, aged about 13 got dangerously burned a few days ago. She sat down on the damper of the stove, fell asleep, and was awakened by her dress being on fire. She attempted to brush it out with her arm, which had only the effect of setting her sleeve on fire. She then got frightened and ran out, when an elder sister ran after her, but before they could get out the flames the young girl's back and one arm was terribly burned, while the sisters hands were badly blistered in trying to put the flame out. Dr. McCullough has been attending the sufferer since and considers the case a serious one.—[Chatsworth cor. in O. S. Advertiser.

SCREW WORRIED.—Mr. Thos. Scar, of G. R. Glenelg, had six sheep worried by dogs on Monday night last, five killed outright. The sheep killed were the pick of the flock, as they were the fattest and easiest caught. The dogs is known and the owner we understand will be requested to settle the damages.—[Grey Review.

OF GREAT IMPORTANCE.—It is just as essential that the human body should have pure blood, as that a tree or plant should have sap to nourish and invigorate its growth. Nearly all our bodily illnesses from unhealthy blood. Bunker's Blood Bitters purifies this fountain in life, and regulates all the vital organs to a healthy action.
