BEAR CHASE—One day last week while Messrs A. Bowles and G. Hill of the 11th line Euphrasia were chopping in the bush, a large bear put in an appearance, (looking for nuts) which started them at first, but as they had their axes, two dogs, and a little salt in their pocket, they gave chase hoping to tree the black monster, but bruin didn't tree worth a cent and was better on a foot race than any of them and consequently made his escape.

THOS. MATHEWS moves this week into his new brick shop. Mr. Mathews is one of the first business men of the place, and by close attention to business, good workmanship and honorable dealing, has built up a trade which is a credit and pleasure to himself as well as the village. He now takes a step forward, his new premises being large, substantial, comfortable and handsome, besides being in a first class business part of the town; it is perhaps the finest harness establishment in the county; has a plate glass front, which adds much to its appearance. We wish Mr. M. the success which he deserves.

NEWSPAPER LAW.—There are three points in the law regarding newspapers which every reader ought to be conversant with. First—if a person orders his paper discontinued, he must pay all arrears, or the publisher may continue to send it until payment is made, and collect the whole amount whether it is taken from the office or not. Second—Any person who takes a paper from the post-office, whether directed to his name or another, or whether he has subscribed or not, is responsible for the pay. Third—If one orders a paper to be stopped of a certain time, and the publisher continues to send it, the subscriber is bound to pay for it if he takes it out of the post-office.

TEACHERS MEETING.—On Tuesday evening last a teachers meeting of the Methodist S. School was held in the lecture room for the election of officers and other business. The following officers were elected for the ensuing year, viz.—G. S. Bowes, Superintendent, R. W. Ennis, assistant, Fred. Stevens, Secretary, W. J. Boyd, Librarian and R. W. Ennis, Treasurer. Mr. Bowes was elected by one of a majority and that was W. A. Brown's vote. The teachers some twelve in number were all re-elected. It was also decided to have no eatables at the coming Anniversary, and to have the admission 15 cents, not hindering any from giving more however.

FAREWELL SUPPER.—It haying come to the knowledge of the young men of Markdale that Mr. A. Hill the popular cutter at W. J. McFarland's store was going to leave town to enter the employment of Chisholm, of Meaford, they determined to show their appreciation of him by tendering him a farewell supper at the popular Markdale House. Mr. Marsh made his best efforts and the viands were all that could be desired. After attending to the inner man the chair was taken by Mr. P. McCullough, Barrister, and the usual toasts proposed and responded to in the happiest manner. Everyone referred to Mr. Hill's extraordinary Business and social qualities and regretted very much that he saw it in his interest to leave the town, and wished that Mr. H. would meet with the success his genial and business qualities deserved.—Com.

OWEN SOUND, Oct. 27.—During Sunday night's gale the schooner Lady Dufferin broke loose from her tow, the steam barge Wm. Hall, near Cabot's Head and sank. The vessel and cargo are a total loss. No lives were lost.

OTTAWA, Oct. 26.—The Canadian Atlantic railway company has made arrangements for 500 American cars to be used in the transport of foreign grain from Chicago to Owen Sound, thence to Boston via Ottawa and the Canadian Atlantic Railway. This is 80 miles shorter than any other route. The first shipment passed through a few weeks ago.—[Mail.

A CURIOSITY.—Our townsman, Mr. R. Trotter, is an enthusiast in fruit culture, and brought to our office the other day the greatest curiosity we have ever seen in the apple line. It was an apple one half of which was of the Snow variety and the other half Pomme Gris, the division running exactly through the stem, and being as distinctly marked as if they had been the halves of two apples glued together. He obtained this result by removing at the proper time the pollen from a blossom on one tree and bringing to it carefully pollen from another blossom. He intends to preserve the seed, and see what kind of a hybrid he can raise from it.—[O. S. Times.

WORTH REMEMBERING.—There is probably no better relaxing remedy for stiff joints, contracted cords, and painful congestion, than Hagyard's Yellow Oil. It cured Mrs. John Siddell, of Orton, Ont., who was afflicted for some years with contraction of the bronchial pipes and tightness of the chest. It is the great remedy for internal and external pains.

## Accurate Little Girl.

"What pretty children you have," said the new minister to a proud mother of three little ones. "Ah, my little dear," said he as he took a girl of five on his lap, "are you the oldest of the family?" "No ma'am," responded the little miss, with the usual accuracy of childhood "my pa's older'n me."

A WIDE RANGE.—A wide range of painful affections may be met with Hagyard's Yellow Oil. James M. Lawrence, of Woodville, Ont., speaks of it in high terms for rheumatism, lame back, sprains and many painful complaints too numerous to mention. It is used internally and externally.

## A Hint to Marry.

He was seated across the room. "Harry," she said, "if a fire broke out suddenly in the house, what would be your first impulse, do you think?" "Well, my first thought would be for you, of course. I would get you to a place of safety, and then do what I could to extinguish the flames." "That would be very nice of you, Harry, to think of me first; but if a fire were to break out now, for instance, wouldn't you lose valuable time reaching me from way across the room?"

THE SOURCE OF AMERICA.—The one terrible blight of our country is scrofula—from impure blood—it causes consumption and many wasting, lingering and fatal diseases. Burdock Blood Bitters cures scrofula if taken in time.

## THINGS TO TEACH YOUR BOY.

Teach him that 100 honest cents make an honorable dollar.

Teach him the proper use of the first personal pronoun.

Teach him that debt is a dirt that soap and water won't wash away.

Teach him that no honest business was ever despoiled by religion.

Teach him whenever he gets into hot water to always come out with his hands clean.

Teach him, that the young fool, dandy and dandy very often makes the old vagrant and beggar.

Teach him that a boy with an over-supply of pocket money, is the tadpole of the future splendor.

Teach him that the best employment for his capital and intelligence is to mind his own business.

Teach him that an empty-headed conceited boy, assuming the place of a man of position, is the most abominable thing in the world.

Teach him that the best earthly repository for all his joys and sorrows, is the heart of a true woman. There the one is magnified the other destroyed.

Teach him that an idle heart is a stronghold that will demand the reddition of every manly virtue.

Teach him that a life of honest industry and close economy, will yield more real happiness, than the idler or spendthrift ever know.

Teach him that an injudicious and improvident marriage, may crush out his spirit and energy, and leave him an over-wrought half-starved animal all his days.

Teach him that God will be found at the end of all, and that the permeating influence of such a knowledge, will enable his life and sweeten his heart, and make him a blessing to many of his race.
