

EDITORIAL NOTES.

Hon. John Beverly Robinson, Lieut. Gov. of Ontario, is to be succeeded by Sir Alexander Campbell. The new L. G. enters upon his duties next June.

—Mr. N. McColman ex-M. P. for East Grey has received the appointment of Light House keeper in Collingwood at a salary of \$600 per annum, with summer residence on the Island and winter residence on the shore.

—It is estimated that 20,000 persons viewed the remains of Rev. Henry Ward Beecher, the great American Divine in his Plymouth Church, Brooklyn, prior to his interment. In accordance with the oft expressed wish of Mr. Beecher, there was no emblem of mourning worn by the family, or draperies for the residence, but everything in connection with the obsequies was made as cheerful and brilliant as possible.

—It has cost Montreal \$20,000 to remove the snow from the streets of that city, and they expect to expend other \$15,000 to complete the work for this winter.

—The Dominion Parliament has been summoned to meet for despatch of business on Wednesday, 13th April. It is generally believed that the session will be very short—and that it is possible Parliament may adjourn by the Queen's birthday.

—Mr. Wragge, of the Grand Trunk Railway Company, was in Owen Sound recently, interviewing the town officials about railway connection with that town.

—Montreal experienced a heavy snow storm on Monday which greatly impeded railway and other traffic.

—A railway accident similar to and nearly equalling the White River disaster took place near Boston last Monday, over 30 were killed and over 50 wounded.

—At a recent meeting of the Dundalk Village Council the price of liquor licenses within the municipality was placed at \$170 per annum instead of \$90 as formerly. It was also voted that a liquor store and grocery store could not be run in connection with each other.

—An attempt to take the life of the Czar (The Emperor of Russia) was made last Sunday. While going to Church a bomb was thrown at him but it failed to explode. The services he was going to attend were the anniversary services in commemoration of the death of his father who was assassinated. Several arrests have been made.

—Buffalo had a \$300,000 fire on Tuesday morning.

Meatard Road.

There has been a great deal of sickness in this neighborhood this winter, nearly every family has been attacked with the mumps and measles, which has spared neither old or young all who have not previously had them being served alike. The school attendance at one time was almost nil but it is recruiting again.

The changeable weather has been very productive of bad colds and other kindred ailments but it is to be hoped that the advent of spring and fine weather we will bring a more healthy regime.

Mrs Richardson of Chatsworth has been here last week on a visit to her friends.

Why Men Fail.

Few men come up to their highest measure of success. Some fail through timidity, or lack of nerve. They are unwilling to take the risks incident to life and fail through fear in venturing on ordinary duties. They lack pluck. Others fail through imprudence, lack of discretion, care, or sound judgement. They over-estimate the future, build air castles and venture beyond their depths, and fail.

Others, again, fail through lack of application and perseverance. They begin with good resolves, but soon get tired of that and want a change, thinking they can do much better at something else. Thus they fritter life away, and succeed at nothing. Others waste time and money, and fail for want of economy. Many fail through ruinous habits—tobacco, whiskey, and beer spoil them for business, drive their best customers from them, and scatter their prospects of success. Some fail for want of brains, education and fitness for their calling. They lack a knowledge of human nature and of the motives that actuate men. They have not qualified themselves for their occupation by practical education.

Our Wealthy Men.

Much has been said in newspapers of men who have made large fortunes in comparatively a few years in various business industries. Many of these articles are written by correspondents of prominent newspapers, and copied into others of lesser note. Correspondents generally are seldom men of business qualifications and wrongfully picture these men and their business as a thing of accident: this is not the case with those we have met. We find that where men have made large fortunes by their own business talent and industry they chose with sagacity and forethought such businesses as would lead to success when handled with business judgement. No man has been brought before the public as an example of success, both in wealth and magnitude of his business (outside of stock and railroad men) more prominently than Dr. G. G. Green of Woodbury, N. J. He is at the head of many large business industries, and yet comparatively a young man. When the fact that August Flower, for dyspepsia and liver complaint and Boschee's German Syrup, for coughs and lung troubles, has grown to a wonderful sale in all parts of the world, it proves that it was not an accident or spontaneous strike at wealth. His medicines are recognized as valuable and established remedies and the business has grown gradually and permanently during the last eighteen years on account not only of Dr. Green's abilities as a business man or his "good luck," but on the actual merits of the two preparations.—Copied from the N. Y. Weekly Sun, of Dec. 22, 1883
