STOWAWAYS.—A number of stowaways were discovered on the steamer Thane-more on leaving Liverpool recently for Quebec; seventeen more were found off the coast of Ireland and put ashore, and when the ship was well out to sea sixteen additional ones were found, all smart lads from 14 to 16 years of age. They were brought to Quebec; their board fare being biscuit and water.

OUR brass band is making decided progress under the leadership of Mr. Mason, and their efforts are deservedly appreciated by the citizens. The amount of patience, application and self denial which is required on the part of the band boys in their weekly practice is scarcely thought of by the public, and when we consider that it is gratuitous at that, we must say they have a strong claim on our support.

A remarkable woman died a few days ago at Villa Rica, Ga., aged 92 years. She was a midwife, and during her life she was at the birth of 519 white children and 347 colored, and she never lost one of these or its mother. She was the mother of 10 children, 100 grandchildren, 50 great grandchildren, 11 great, great grandchildren. For 80 years she was a constant member of the Methodist Church.

LAST Saturday evening while the band played on the market several roughs who were under the influence of liquor appeared among the crowd pouring forth obscene and profane language so that ladies who were present had to make a hasty retreat. We are requested to say that if such a disgraceful exhibition is repeated the guilty parties will be prosecuted.

SNEAKING VAGABONDISM.—In a certain locality in Genelg exists one of those human serpents known as the pest of the neighborhood. Cowards are proverbially treacherous; but it has been a wise provision of the Creator, that he has denied them ordinary prudence. The villain detects himself. So with the character in question—if human or other animal being should come to untimely and by pars green or other form of cowardly assassination or slaughter, the sounder has left on record, by his own threats, such testimony as would assure him "a short swift and a long rope."

THE cheap trip to Winnipeg, mentioned last week, is on the 30th June, not the 1st as stated. This will give those who would like to visit the prairie province an excellent opportunity of doing so at a small cost, \$25 being the fare from any station on the C. P. R. good to return in 40 days.

DR. JUG'S MEDICINE should be used by every one at this season of the year as it is the best blood purifier in the market and will reinvigorate the frame and prepare it to bear the heats of summer. The pills are justly called the "Little Gems" as they operate without causing either griping or pain and are a sure cure for nervousness, biliousness and other affections of the Liver and Kidneys. Buy them and try them and you won't regret your investment. Sold by Turner & Co., Markdale.

As the season is now opened for the sale of Bacon. Benson of the Belfast house is to the fore with a few cases; remember he will not be undersold by any one in the trade and if there is a cut to be given they are the boys that will give it to you, they are decent little chaps.
