Dr. Sproule gives notice of a motion praying that the Governor-General re-MASTER ROBT. DINSMORE left for To- cognize the jubilee year by extending the clemency of the Crown to criminals now incarcerated in the penitentiaries of the country under the following conditions:-(1) Life sentences to be commuted to a reasonable term of years; (2) that all those who have served ten years be set at liberty; (3) that all convicts with a record of good conduct since their incarceration be allowed a remission of ten days for every month's imprisonment since the 1st January, Syrup cannot be too widely known .Askyour 1887; the whole, as the Doctor politically puts it, in order that this may be a year of rejoicing to those poor unfortunates confined in living tombs.

REMEMBER the meeting of Centre Grey Farmers' Institute at Rocklyn tomorrow (Friday 10th) at 1 o'clock. A large attendance is desired, and will doubtless be in attendance. There is an intimation in some papers that this discussion on Commercial Union may lead to Annexation to the United States. Of course there is no reason why it should. yet it is well tolget posted, and then take an unbiased view which will result in an intelliggent decision.

THE UNINERSALLY ROBBED -- . The following bit of condensed wisdom is from the New York Sun :- If country newspaper proprietors were to publish the names of the subscribers who take, read, enjoy and are gratified by, yet refuse to pay for their home papers the reputation of the most communities for moral honesty would depreciate 20 per cent. An editor's labors are seldom esteemed or compensated. A lawyer will give you five minutes' advice on a topic and charge you \$5 for it. An editor will give advice on hundred topics and chrage youfive cents a copy for his paper. And very often 5 cents given to an editor would save \$5 given to a lawyer. In fact no other business men are so universally robbed opened at Davis' which will be sold at and swindled out of their labor and capital as the country newspaper pub- not be undersold.

The first thing that strangers note in coming into a town is the condition of the streets. If they are straight, clean and have good walks, the stranger is line the streets are neat and well kept, though they may not be expensively decorated, the impression of the thrift of the people and the beauty of the town helps him to decide the question and say, "I will settle down in this town." The officials of the town have their work to do in ordering the streets kept neat and | hardware. clean and the sidewalk kept in repair. The citizens have their part to do in keeping their door yards clear. Every person has a work to to in making the town presentable, and they should not fail in their duty. This is the way to attract strangers to our midst, and make citizens of them, We wonder if all of our citizens think of this.

Spellin.—The editor of the Thornbury News now admits that we were correct in spelling Calcimine, but says he prefers spelling it Kalsomine, which is also proper: He however asks us if Sault is spelled "Soo" in Webster? We think not. "Soo" is not correct but is used especially in American papers use. In reference to this criticism we feel like encourageing it in a friendly spirit with a view to improvement, there are many words in the English Language that are spelled differently to what they once were, or rather, a shorter way of spelling has become proper and have been introduced into the Standard dictionaries,, and a friendly criticism may be profitable to the publisher as well as our subrcribers. For instance "cheque" -an order for money-is now proper by leaving out "que" and adding "ck" thus "check," also "draught"—an order for money, or "heavy draught" is properly spelled "draft". We may in future give WE regret to learn, that W. J. a list of words which have been "corrupt-

ASTONISHING SUCCESS.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German druggists about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers. in the United States and Canada.
