MARKDALE

Household
 persons in a jar of water to be
 over few days.
 prevent a door from creaking apply a
 soap to the hinges.
 thick or small dusting brush is the best
 sweeping stair carpets.
 ammonia in the water is prefer-
 for cleaning windows or paint,
 soap should be kept in a dry place
 before using. It will last
 longer.
 the greatest enemy of the piano,
 cannot be too carefully guarded against.
 there are any very nice articles in the
 cover with a cloth until you are
 sweeping; it is far easier than re-
 moving them.
 whenever you can find an oppor-
 Many stand, even when preparing
 for dinner, a work that is much
 better performed sitting.
 All cooking utensils, including iron pots,
 should be rinsed after washing, and carefully
 on the outside with a clean, dry cloth.
 soap or greasy dishcloth should never
 used for the purpose.
 cannot sleep too long, and it is a
 reasonable symptom when they enjoy a long
 and calm rest. They should never
 awakened, and thus deprived of the
 support nature has given them.
 The best way of checking bleeding from
 the nose is to apply cold water to the neck
 and water to the nostrils, or if this does not
 succeed, dissolve a little alum in a basin of
 water, and inject or sniff this up the nostrils.
 the head back and do not attempt to
 blow the nose.
 To save stair carpets nail several thicknesses
 of carpet or canvas over the edge of each
 step. It is a good plan to buy more carpet-
 than is needed to cover the stairs, and
 replace it each season, so that the whole will
 wear evenly. If stair carpets cannot be
 changed in this way they will not wear
 nearly so long.
 Says a learned authority in reference to
 diphtheria, sulphur kills every species of
 fungus in man, beast and plant in a few
 minutes. Continuing, the doctor directs as
 follows for diphtheria: "Put a teaspoonful
 of sulphur in a wine-glassful of water, and
 stir it with the finger instead of a spoon, as
 the sulphur does not readily amalgamate with
 water. When the sulphur is well mixed,
 then it is to be given to the patient to gargle,
 and after gargling to swallow it, and the
 patient will be out of danger in a few minutes.
 When the fungus is too advanced—that is,
 nearly closing to the gurgling—the sulphur
 in that case, should be blown through a
 syringe into the throat, and after the fungus
 has sunk to allow of it, then the gargling.
 If the patient cannot gargle, take a live coal,
 heat it on a shovel, and sprinkle a spoonful
 of flowers of brimstone upon it. Let the
 patient inhale by holding the head over it,
 and the fungus will die.

Pleasant little town one cannot help admiring the progressive spirit of the people.
 On every hand we see pleasant and beautiful homes as well as places of business in mercantile, manufacturing and trade lines, and magnificent churches that would do credit to larger places. No less can one admire the genial, social and kindly spirit of its worthy citizens. On every hand we meet them full of kindness encouragement and sympathy, the young bright and happy, evidently enjoying life spring-time and looking forward with bright hope to the yet untrodden path of life, which for them we trust will not have many rough places.
 But into the fairest spot earth ever owned or man enjoyed, a serpent glided, noiselessly and unnoticed almost till his deadly work was done, and we all know the terrible consequences. Sometimes I fancy the same scene is enacted over and over again, away down even in the present history of our world, into our quiet, happy, peaceful little hamlets, a serpent glides, one that stingeth like an adder and brings a moral blight upon the unsuspecting inhabitants. Such thoughts as these arise when we witness with sadness the effect of intemperance upon our fellowmen when we see men, whom God made upright, reeling, tottering and grovelling in the dust, or when our ears are shocked by the profane and obscene language that so repeatedly ring out upon the evening air. But to my mind the saddest sight of all is the easy familiarity and interest which our growing boys evidence in those drunken brawls. The time was when they would fly from such sights and sounds, but gradually they have become accustomed to it until the time has come when they can look on as coolly as those of mature years. A good deal less than a century back, the execution or hanging of men was done publicly, and crowds of men, and must we say women and children, flocked together to witness the revolting, sickening spectacle of a human being swung out into eternity, and the impression became general that murder was on the increase and that those public executions were having a hardening effect upon the people, and hence we have them to-day conducted in a quiet way with only a few admitted. Now on the same principle are not our children suffering every day from the hardening influence of those street scenes. The question arises then, what are we going to do about it? We would gladly remove the cause, but we must try as far as possible, and undo its effect.
 As Christian parents we give our boys lots of training and teaching, and we keep them as far as possible away from the streets, and we send them to church and Sunday School, and use all the means in our power to save them from the evils of the day. We do this for our boys, but what about the poor orphans and worse than orphans that have no watchful eye, no restraining hand to direct them? How are we to reach them? Some one say, what are our Sabbath Schools for? Sabbath schools are doing a grand work, but supposing we could gather up all the children into our schools and give them general "scripture lessons, with perhaps a temperance lesson once a quarter, it seems to me that our teaching would need to be potent indeed to undo in one short hour on Sunday, the effects of a weeks' looking upon such scenes. It seems to me that here is a special evil for which we need a special remedy. Let us gather our young people together say once a week; call ourselves independent or connect with some temperance body, let us get over our little hobbies and all our imaginary objections to this and that, and for the sake of our growing boys let us make temperance a specialty among them, while the cultivation of mind that can accompany it in a literary way, will help to lift them up to such a higher plane of moral strength and worth that upon them the evils of intemperance as seen on the street will have no effect.
 A lover of boys.
I WONDER
 If Markdale is going to have a civic holiday this year.
 If the citizens are not amazingly stupid in not securing incorporation.
 If anyone has a reasonable objection to it.
 Or even an unreasonable one.
 If nine-tenths out of one hundred are not anxious for it.
 If some of the smartest will consent to anything.
 What the papers would like to talk about this morning and it is not known.

Pleasant little town one cannot help admiring the progressive spirit of the people.

ROYAL BAKING POWDER
 Absolutely Pure.

This powder never varies. A marvel for purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low cost, short weight alums or phosphate powders sold only in cans, ROYAL BAKING POWDER CO. 106 Wall St., N. Y.

HEAD QUARTERS
 FOR
Books, Stationery, Fancy Goods, Toys, Wall Paper, &c.
 Toronto St. next Door to the Mansion House, Markdale.

A. Dinsmore returns his sincere thanks for the very liberal support accorded him since commencing as above, and hopes by strict attention to business and moderate prices to merit a continuance of public appreciation and patronage. Those requiring

WALL PAPERS
 would consult their own interest by examining his stock, consisting of over Three Thousand pieces at from 5 to 75c per Roll. Sunday Schools requiring Library Books will find Hundreds to select from and at such FAVORABLE TERMS as are sure to satisfy.

Note the fact.—That until I commenced business there was no such thing as a special discount allowed to Sunday Schools, or if you wanted Books could not get them unless by sending to Toronto or elsewhere, now your wants can be supplied at your Door and at lower prices than Toronto. I therefore with confidence appeal for public support. A full line of School Books, Stationery, &c., always on hand, also agent for the DOMESTIC PAPER PATTERNS. Agent also for The Hardening Star Hand Grenade for Extinguishing Fires. **NOTE THE ADDRESS, A. Dinsmore.**

OWEN SOUND Collegiate Institute.

Will open on Monday, 29th August 1887. Excellent Staff of Teachers. Inspector officially reports it the **Best Equipped School in the Province.** Classes for First, Second and Third Class Certificates, Junior and Senior Matriculation with honors, and Law and Medical Examinations. At the Examination in July last, all the Matriculation Candidates and a large percentage of Second and Third Class were successful. Fees, \$3.00 for the Term—payable at entrance.

Apply to
 F. W. MERCHANT, M. A., Principal,
 or to D. R. DOBIE, Sec. Board of Education,
 Owen Sound, Aug. 15th, 1887.

STRAYED.
