MR. ANDREW FOGERTY is moving into his new house this week. This is one of the most substantial, commodious and costly brick residences of our town. Mr. F. is an enterprising industrious mechanic and a first-class citizen and neighbor, and we wish him and his lady all the comforts of a happy home.

RAILROAD SMASH UP.—On Friday evening last a freight train going north was thrown from the track three miles south of Markdale by the breaking of an axle. Six cars loaded with merchandise were wrecked causing a blockade which took 24 hours to clear so that trains could pass over.

WATER is very low and many springs almost dry. The spring that fed the R. R. tank at this station has become so delicate that the supply is exhausted: Freight trains from Owen Sound to Toronto are obliged to switch at Dundalk while the engine runs back to Chatsworth for water to take it to next watering place—Crombies tank.

ENCOURAGING.—The universal word is "I don't want you to stop my paper even I should not renew promptly at the end of the year." We are always pleased to know that our patrons appreciate the weekly visits of the Standard, and the numerous kind words, and expressions of satisfaction received daily from all sides, are indeed encouraging.

OUR attention was drawn this week, to a paragraph at the close of our remarks anent school matters of two weeks ago, which might convey an impression not intended, viz:—"The amount of salaries for next year is \$5 more than the present." Of course that means for the whole school, not for the two departments in which a change was made.

STEPS are being taken to organize a Mechanics' Institute in our town, and about 75 members are already enrolled representing \$75 in cash. A committee has been appointed to draft the necessary papers for incorporation, and the officers of "Markdale Mechanics' Institute" will be elected forthwith of which further notice will be given. The next meeting will be held in the school house on Friday night the 19th.

ANY subscriber has a perfect right to discontinue his paper when he feels disposed so to do, provided all arrears are paid. If any wish the Standard discontinued at the end of the year, they will oblige by notifying us between the 15th and 30th of December to that effect. If you should give such directions earlier than that we would most likely forget it before the time came for marking off.

FOR the issue of November 12th The Illustrated London News (American Edition) furnish their many readers, in connection with a wide variety of reading, the following timely illustrations: A very spirited picture of the unemployed in London, entitled "The Police and the Mob;" three pictures upon the State of Ireland; one of How Some of the London Poor Spend the Night, and another of the Poor Helping the Poor, as well as the meeting of the unemployed in London.
