

Markdale Standard.

C. W. Rutledge, Proprietor.
MARKDALE, MAR. 15, 1888.

NOTE AND COMMENT.

Emperor William, of Germany, died on Friday morning last, aged 91 years.

Steps are being taken to unite Newfoundland with the Dominion.

Mr. Chamberlain says that the best proof that the fishery treaty is a fair one is afforded by the fact that both parties to it grumble.

Mr. Jones, Provincial Treasurer in Mr. Greenaway's Cabinet, was elected for Shoal Lake on Saturday by about two hundred majority.

A vote for the repeal Act will take place on the 19th April in Bruce, Dufferin, Simcoe, Stormont, Dundas and Glengary.

The elections for the house of Commons on Saturday in West Middlesex and Prince Edward County resulted in the return of Dr. Rome and Dr. Platt.

Gen. Neal Dow, "Father of Prohibition," was beaten in the contest for the Mayorality of Portland by the Republican candidate, Charles J. Chapman, by a majority of 1,600.

The Canadian Government, having undertaken to spend a million dollars in building a canal to compete with the Grand American Canal at Sault Ste. Marie, an American Congressman wants his Government to spend the same amount in beginning a canal to compete with the Canadian Welland.

Hereafter the registration fee on letters to the United States will be two cents instead of five. The parcel post system came into vogue on the first of the present month. The end of the parcel must be left open for inspection and all parcels sent across the line will be subject to custom regulations. The rate of postage will be one cent for every four ounces.

There was a time, not so very long ago, when certain estimable people fiercely denounced the proposal to reduce the Canadian broad gauge railway to the American standard gauge on the ground that it would lead to annexation. These people, or their legitimate successors, are now opposing the abolition of the Customs' duties that hamper trade between the two countries in almost the same way as they did the difference in the gauges of the railways. Some people must think that Canadian loyalty and patriotism are very brittle.

The report of the Postmaster-General shows that 289 new post offices were established during the year, making a total in operation of 7584; and 1920 miles were added to the post route. The number of letters through the mails is estimated at 74,800,000; and of postal cards 16,356,000; registered letters, 3,560,000; free letters, 3,160,000; newspapers and periodicals 10,840,000; books and miscellaneous matter, 20,000; parcel 720,000. The revenue amounted to \$2,603,255 and the expenditure to \$3,458,000.

A greater nuisance in a small way than the encore at concerts and other public entertainments could not well be imagined. Every sensible and self-respecting man and woman ought to set their faces against it. Singers and players are simply bullied by such impudent and unreasonable demands. In fact it would seem as if many calculated on this in advance so that if a prima donna is advertised for three appearances they calculate upon six if not nine. Now this is harsh, unmannerly and unjust. It is trying to get money or money's worth under false pretences. Approbation can be easily expressed and acknowledged without any of this unseemly or coring. The most of it, to be sure, is done by bad, unmannerly boys, but some too often are found taking part who ought to know better.

A measure of great importance to property-owners all over Ontario has been passed by the Municipal Committee of the Ontario Legislature. It is a bill which transfers the power of selling lands for taxes from the county treasurer to the treasurers of townships and villages. The great benefit of the bill is that it brings the sale as near as possible to the land and the owner, so as to give him every opportunity of paying his taxes and rescuing his property, from the hands of land speculators. Under the present law a sale sometimes takes place fouts miles from the land.

Dr. Talmage has lately been coming out strongly in defence of the young woman of the present day and in protest against the continued cry over the "good old times" and the wonderful graces and virtues of the grandmothers. He says the girls of to-day are as far ahead of those much belauded ancestors when they were girls as the railroads and Pullman car are ahead of the mud road and the old stages of other times. This perhaps is putting the thing rather too strongly. Truth would be more guarded in its phrases and less exaggerated in its contrasts. The girls of to-day are quite as pretty, modest and well informed as any of those who have gone before, and quite as womanly and helpful in spite of all that has been said and done about Woman's Rights, and feminine emancipation. The grand-mothers were and are first-rate. Woe to the man that says a word against them. But the grand daughters are not a whit behind them and will in due time make as good "grannies" as ever figured in childhood's dreams or at an old man's fireside.—Truth.

Walter's Falls.

The citizens of this favored locality have aroused from their winter torpor. Revival meetings have been held, and other signs of activity prevail, denoting a release from the dormant state in which we have been bound for months back. As the proverbial bruin came out on the proverbial day saw not his shadow, and returned not to his lair, so we animated by hopes of an early spring are becoming lively and cheerful, in anticipation of the time when we can say with Lannahill "Gloomy winter's now awa."

Salt the western breezes blow; Trees will bud and birds will sing. Flowers will bloom and verdure spring. Had our condition of semi-somnolency during the winter months happened at first, to deepen into slumber profound as bruin's, an immense saving might have been effected in food, fuel, and other concomitants, and had such accumulated savings been devoted to the furtherance of missionary enterprise, which is thought to be a duty incumbent on us, what an impetus might have been given to the good cause, and what a boon to the poor benighted heathen our protracted snooze might have proved. But whether fortunately or unfortunately, we are not so constituted, and although there are numbers of Hibernians amongst us, not one of them seemed to hibernated.

To drop the nonsensical and proceed to the relation of actual occurrences that may be of some interest, just after new year's, Mr. Frank Olmstead left to enter on a Collegiate business course at Hamilton, and takes with him the kind regards of everyone. He is a young man of exceptionally bright promise and amiable disposition and is highly esteemed by all who know him.

Doctor McCulloch's handsome and spacious new brick residence, hardly surpassed in either town or country, forms a conspicuous feature of our village, and reflects great credit on the architectural designer, Mr. C. O. Fox who merits the title, of a county celebrity in his line.

The roller flour mill, (Mr. R. Clark, Proprietor,) has for some time now been furnished and equipped with the most improved machinery, is turning out excellent work and giving general satisfaction.

Mr. R. Olmstead's saw and planing mills are at present in full blast. The woolen factory of Mr. D. Brown has been renovated from top to bottom a spinning jack has lately been added to the other machinery, he intends to supply the country around with genuine manufactured goods, of every description at moderate prices.

Building operations, it is expected, when the season arrives, will be resumed with redoubled vigor, take all together our prospects for the ensuing spring and summer, are very encouraging.

A NEW PARTY.

A New Party is being organized and the following platform was decided on at a meeting in Toronto last Thursday, viz:

1 Righteousness and truth in public affairs as well as in private business, and no compromise with wrong.

2 Equal rights for all creeds, classes and nationalities, but exclusive privileges to none.

3 National sentiment, national literature and in all matters of public policy our country first.

4 Prompt and absolute prohibition of liquor traffic, as the objective point of temperance legislation, in the meantime honest and vigorous enforcement of the Scott Act and all other laws for the repression of vice and intemperance.

5 Retrenchment and economy in public expenditure, with a view of reducing our enormous national debt.

6 Manhood suffrage, with educational qualification; that is, a vote to every free man of legal age who can read and write.

7 An extension of the franchise to women.

8 An elective senate.

9 Civil service reform.

A grand convention will be held in Toronto next Wednesday the 21st to complete the organization.

EXCHANGE CLIPPINGS.

Mr. Samuel McNab has a cow that recently gave birth to a calf, complete in all details except the tail, of which caudal appendage there is not the slightest sign. Mr. McNab is on the lookout for a good smart boy who will undertake the job of keeping the flies off of that calf next summer.—Chatsworth News.

Messrs. Joseph and James Clark—sons of our esteemed citizen, Mr. W. M. Clark—have purchased the Pickering News printing plant and will publish that journal in future under the firm name of Clark Bros. Both young men are well and favorably known around here. We wish them undoubted success.—Flesherton Advance.

The estate of C. F. Cliff & Son, Durham, has been wound up by the assignee Mr. Thos. A. Harris, and pays the disgruntled creditors a dividend of 1 1/2 cents on \$4,435.65 liabilities. The receipts of the estate amounted to \$862.04, and the expenses of winding up \$767.47, leaving a balance of \$64.47 to be divided among the creditors. Among the items of disbursements are: Legal expenses, \$50.00; assignee, \$90; Insurance premiums, \$94; wage claims, \$311.70; arrears of interest, \$197. The largest amount paid to a creditor was \$4.42, and the lowest 6 cents.—Hanover Post.

Last Friday forenoon Mr. Geo. McNab's team of horses ran away from J. Taylor's hardware store. For a moment it looked as though they would rush into the store window, but veering off a little they escaped the shop front, but struck a hitching post and snapped it off like a pipe stem. That did not stop them and in a second they ran foul of a telegraph pole in front of J. W. Elliott's snap it off at the ground and breaking the wires, which brought them to a stand still, none the worse of their little spree, excepting the nervous shock produced by the falling of the telegraph pole.—Chatsworth News.

CAUGHT AT LAST.—Dundalk has been visited with a series of thefts. First a pig, then a halter, following which was a thermometer, afterwards a pair of over shoes now the editors wood. It has so happened that one of the party while straggling around a hotel came across a very suspicious looking bottle in the overcoat of one of the guests. The smell at once revealed to him that it was gin. Transferring the bottle to his pocket, he proceeded to the house of his numerous friends where the bottle was passed around until all hands had taken copiously of the draught. It was not long however before the party began to feel a slightly warm sensation at the pit of the stomach, for he it known that the gin was a compound of Gin and Jalap which had been put up for a horse that was seriously ill. The owner is now looking for his Gin and Jalap and several of our citizens are on the sick list whilst the horse is getting on better than the invalids who took its medicine.—Dundalk Herald.
