MARKDALE, APRIL 5,

#### INCONSISTENCY.

Some six months ago the Editor of the Advance devoted a large amount of editorial space reviewing the benefits to be derived from the incorporation of that village, and urging its citizens to united action towards that much coveted end. Dire disappointment however was the reward of his zeal, and now-having turned a complete somersault-he preters being a "part of a populous township." Furth. ermore, he seems to discard both logic courtesy to the wind, and pitches into his more favored and prosperous neighbors for their ambition. The exhibition of this kind of spirit does not, of course affect those whom it is intended to injure but it must be mortifying to the respectable citizens of Flesherton, for their luminary to thus persist in showing to the public "the green-eyed monster

#### BETTER ACCOMMODATION WANTED.

We have in the STANDARD, our post office directory, which we insert gratuitously from year to year for the convenience of the public, and in it there is, among other things, a notice to the effect that the office will be open from 9 to 9:30 o'clock a. m. on public holidays, yet we have more than once on such occasions waited for admittance the full space of time thus advertised and then had to leave without gaining admission. Now, we do not say that the office had not been open previous to or after the stated hour, but we do claim that when certain hours are appointed for the public on those occasions, the postmaster should have some consideration for their convenience.

We are not given to complaining, but in this matter patience has ceased to be a virtue, and we claim for the public better accommodation. Many have certain money refunded on acan efficient person would be glad to count of chattle property assessed to accept the position of Markdale P. M. who would conduct it independent of any other business (as it certainly should be in this place) and thus give by Mr. Galbraith, that F. Evers be the public that attention which they justly claim, but cannot have as it is.

Standard Correspondence.

The snow is nearly gone from this sheltered and otherwise favored district, and fall wheat is looking well. We have had a beautiful winter and good roads; in fact we have been enjoying ourselves to the full attending tea-meetings, concerts, socials and such like, with very little to trouble us except the harrowing tidings from our less fortunate neighbors across in the land of blizzards, flood and fire. Our mail carrier, Mr. Currie, has missed but one trip this winter and that was owing to sickness. Notwithstanding the many advantages of this favored clime a number of our young men are leaving for the States. A. T. Buchanan and wife have gone to Kansas, J. W. Smith to Iowa, one of Carruthers boys to Ohio, and John Carruthers to and common sense, while he throws Dakota, one of the Lawrence's to of following. We do not like to see I AKI so many of our stalwart and promising young men thus leaving our midst and I am sure it was not their desire, other things being equal, but the inducements held out across the lines are captivating. Our farms are already sufficiently cut up and will not admit of further divisions to make new homes. It does not pay to farm now adays with a smaller farm than 160 to 200 acres since the price of produce has so materially declined and laborsaving machines has become a necessity. Then the trades and professions are also being crowded to overflowing. We are told our men have no energy, this cannot be truthful of our young men, who, as a rule, take leading positions wherever they go.
