The home should not be considered merely an eating and sleeping place; but as a place where self-respect may be preserved, comfort secured, self-denial practiced and domestic pleasures enjoyed; indeed, home should be the happiest spot on earth.

On Friday last a junior game of base ball was played between Priceville and Durham on the grounds of the former. The score stood, Priceville 58 runs, Durham 31 runs, and not 11 to nothing as reported in the Globe of Monday last.

We had a friendly call on Saturday last from Mr. W. W. Perry, son of Rey. Mr. Perry, formerly of Holland Centre. Mr. P. is in the short hand business in Toronto and is spending part of his holidays with his wife's friends at Walter's Falls, accompanied by his better half.

We had a friendly call from Mr. John Clinton, son of John Clinton, Esq., Osprey township. John has been a resident of Manitoba for seven years and returned last week to visit his parents and friends for a few weeks, when he will return to Winnipeg, his home. He speaks in glowing terms of the west, and also of the present prospects for a bountiful harvest.

WENT TO TORONTO.—Charlie Lawrence, of W. J. McFarland's mercantile establishment, has accepted a situation in Toronto and left town on Monday last to enter upon his new occupation (book-keeper for his brother). Charlie was one of our most popular young men, as well as esteemed and courteous salesmen, and his departure is one of general regret. We wish him success.

The large frame bank barn of Wm. Galbraith, two and a half miles southeast of here on the gravel road was burned on Sunday night last together with a quantity of old hay. The loss is from five to six hundred dollars. Insurance \$900. Mr. Galbraith is on a trip to British Columbia and the place was closed up for the present. It must have been the work of an incendiary.

CAMPING QUARTETTE.—On Monday last Wes. Armstrong, E. K. Richardson and Charlie Sarjeant, of Flesherton, and Willie McFarland, of Markdale, four respectable youths, armed to the teeth with shooting irons, fully equipped with fishing tackle and their wagon so heavily laden with camp paraphernalia and provisions that two of the party had to walk, started for the famous Bell's Lake there to spend a week scalping Indians, hunting bears, netting fish, spearing frogs, bagging fowl and mashing mosquitoes. We hope their expectations may be fully realized and patiently wait for particulars of their exploits.

THE OUTLOOK.—The country is suffering severely for want of rain. Hay is well up to, if not altogether, an average crop in this part, but roots and late grain is almost past recovery. We had a brief trip last week through Orangeville, Mt. Forest, Palmerston, Drayton, Fergus and Elora and found the crops in much the same state as in the vicinity of Markdale; viz., fairly promising for an average crop, but in bad need of rain. North of here, however, the state of affairs are not so promising as some of our most copious showers failed to reach the northern portion of this county, and even a few miles north of Markdale the outlook is very discouraging.

SENT UP.—J. W. Potter alias Robert Bruce alias Robt. Moffat was up before Justice R. Myles in this village on Saturday evening last to answer a charge of horse stealing. It appears said Potter had been working as moulder in Moffat & Sons' foundry some six days previous to the 12th July, when he got on a drunk and left town the following night. On the 18th morning Moffat & Sons discovered that their horse and harness were gone. A search warrant being issued, Alf. Moffat and Constable Noble started in search of the stolen property and thief. They found the horse, which had been sold for \$10 some two miles east of Flesherton, continuing their search they arrived in Dundalk before daylight on Saturday morning and captured their supposed man in the Queen's Hotel. On their arrival in Markdale a trial was held and the prisoner committed to Owen Sound there to stand his trial at the Assizes. He is an exceedingly seditious man.

We had an interview this week with a preacher and a lawyer as to the chances of their securing the much needed rain; the lawyer said he didn't think the parson seemed to have much influence in the upper courts, while he in turn intimated that the lawyer's influence was confined to the lower regions.

EVERY CARE should be taken during the dry season in handling fire or even in smoking as serious loss may easily result from a little carelessness. Only a few days ago a person casually strolled into Armstrong's mill yard while smoking and shortly after he left, a blaze was seen by one of the employes who promptly quenched it with water. A coal had evidently dropped from his pipe which would have destroyed the whole mill and cheese box factory had it got a few minutes start.

THE celebration of the "Battle of the Boyne" was more enthusiastic throughout the Dominion this year than usual, while, according to reports, all passed off peacefully and in order: The Empire says "The celebration of the bi-centenary yesterday was the greatest revival of Orangism ever witnessed in Toronto or Canada.

The procession yesterday was the largest and finest Orange parade that ever walked the streets of a Canadian city.

The lodges were strong, the order preserved was perfect, the speeches were tolerant and eloquent, the amusements provided excellent. This applies to nearly every place in Ontario heard from.

In Toronto the day broke dull and cloudy, but before the procession was organized the sun was out strong and clear. A finer day could not have been desired, not only in Toronto, but in the greater portion of Ontario. And there was seen all over Ontario parades of Orangemen in numbers that told of a re-awakening of interest in the Order.
