### DR. MOFFAT'S MEETING AND LECTURE— CHURCH SACRILEGE—DWELLING BURNED.

A public meeting in the interests of the "Upper Canada Religious Tract and Book Society" was held in the Presbyterian church here on Wednesday evening last. A threatening thunder storm at the hour of meeting prevented some from turning out, but there was a fair representation from all the churches. The chair was taken by the pastor, Rev. A. Wilson. After devotional exercises, Rev. Dr. Moffat gave a brief summary of the work done and an explanation of the working of the society, after which a short but interesting address was delivered by Rev. J. W. Shilton, B. A. Dr. Moffat then delivered his lecture on President Garfield which was listened to with much interest and close attention. The collection which was taken up in aid of the society was very good. Before the close of the meeting, in order that the society's work might be helped and good done, a branch was formed here with the following names: Rev. J. W. Shilton, B. A., President; Revs. A. Wilson and T. Watson, Vice Presidents; M. Richardson, Esq., J. E. Moore, Esq., and Jos. Blackburn, Esq., Sec.-Treas.; Misses. Damude, Armstrong, VanDusen and Richardson, Collectors.

**ATTEMPTED SACRILEGE.**—On Thursday night last burglars forced an entrance into the Presbyterian church here by breaking one of the windows in the basement. After getting in left their marks several places in the church. In search of booty broke the lock on the library, scattering books and papers, securing about \$2.00 in silver, collection that happened to be left in. It is not probable that it was cash the plunderers were after in entering a church but that they were in search of a communion service. The Presbyterians here have a valuable silver service but fortunately they were not in reach of the plunderers hands that night.

**DWELLING BURNED.**—Between four and five o'clock on Thursday morning last the dwelling of R. J. Carson, of Tyrone, was destroyed by fire and all its contents. The family was aroused from their slumbers by the crackling of the fire and had barely time to escape from the burning building, having to make their escape through a small window in the rear of the building, the door and front of the house being in a sheet of flames. Mr. Carson has the sympathy of the entire community in his sad misfortune. The origin of the fire is yet a mystery as there had been no fire in stoves nor in any other way known of from the evening before. No insurance.

Mr. and Mrs. James Beecroft arrived home here from the old country on Monday evening last. Both enjoyed their visit to the old land and Mr. Beecroft, although weak in body, stood the sea voyage well and is much improved in health.

### Editor Standard.

Sir,—It was with much surprise I read the account of the accident in this neighborhood as in STANDARD, and as so many friends were not allowed to see Mrs. Heighs I think it only justice to send a correction.

The accident happened as reported, but in regard to injuries the account is mis-represented. Mrs. Heighs' head only was crushed; her body had not a mark or bruise let alone tearfully mangled. Mr. Heighs' injuries are—1 ft thigh broken about four inches above knee, a bruise on left wrist, a cut 2 1/2 inches on left temple, cut one

inch on right eyelid and a small scratch on each knee. It requires considerable ingenuity to make a flesh wound where we have no flesh as on forehead, and as for his leg being shattered below the break there is no truth in it as it is not even bruised.

Excuse me for troubling you, but Mr. Heighs wished the report corrected and I agreed to do it to give distant friends the proper account of the accident.

J. S. McCULLOUGH.

P. S.—Mr. Heighs is doing as well as can be expected.

[We regret that above was incorrectly reported last week, and gladly make the above correction.—ED. STANDARD.]

### Editor Standard:

DEAR SIR,—Re Lord Derby challenge I have placed \$100.00 in Mr. W. L. Young's hands and will agree to have it decided by the Clydesdale S. Book's certificates of registration and an inspection of the horse if required, Mr. Wright choosing one man and me another, they to publish their reasons for their decision. Mr. Wade is not supposed to know every horse that is registered and I don't know why we should take his word in preference to his books. I do not dispute him being the highest authority under them, but they are published by him for our use and by them is certainly the proper way of deciding questions of this kind. Mr. J. I. Graham, of Vandeleur, has kindly consented to act for me and will furnish the S. B.'s, and meet Mr. Wright's man at the office of Wm. Lucas & Co., Markdale, any time in business hours, say inside of fifteen days from date of this paper. I think Mr. Wright ought to subscribe for the STANDARD; his B. M. might have missed a cheap trip or something when he was down lately asking Mr. Wade whether he had a registered horse or not.

A. BEATTIE.

**An Eye Knocked Out.**  
 TARA, Ont., July 20.—A serious accident happened this afternoon at the saw mill of S. Cummer, two miles from this place. A young man by the name of George Whitley was running an emery wheel, which burst and struck him on the side of the head near the eye, putting it out and laying the skull bare. His recovery is doubtful.

**A New Steamer.**  
 MEAFORD, July 20.—For sometime past one or more gentlemen in town have had under consideration the idea of building a steamer to put on one of the many practicable passenger and tourist routes on the Georgian Bay, and it has been decided to proceed with the work. She will be built at Meaford if the town will provide the necessary ground, and her dimensions will be 120 feet keel, 24 feet beam and 9 feet depth of hold. She will be fitted with cabins and all modern appliances for the comfort of the travelling public. Her engines will be of the compound order, and she will be supplied with power sufficient to drive the boat at the rate of fourteen miles per hour. The contracts are now being let for timber and machinery, and as it is probable the town will grant the ground for the yard, the work will be proceeded with at once. It will mean an expenditure of from \$12,000 to \$15,000 in Meaford alone, besides a large amount for machinery and appliances that will have to be procured outside. The boat is to be ready for traffic on the opening of navigation in 1889. The route is not yet decided, but it will be a local one, with Meaford as headquarters. Mr. Charles Farrar is the promoter of the scheme, and he will be joined by Mr. George Sutherland in carrying it to completion.

THE Presbyterian congregations of Charleston and Alton have decided to extend a call to Rev. A. Wilson, of Markdale. The late Rev. A. McFaul was their former pastor.
