MASTER FRED STEVENS, deputy Postmaster, had his foot jamed between two box cars yesterday while passing across between two cars of a train which stood across the street at the elevators. He will be laid off work a week or more. Collar Bone Broken.
Mr. Thos. Wiggins, of Glenelg, took his gun out to shoot an Owl last Friday and put in a good heavy charge—not knowing that it was already loaded; the double charge proved too powerful and the backward concussion fractured Mr. Wiggins's collar bone. We haven't learned any further particulars of the Owl.

The Right of Way.
An exchange says:—Many who drive do not seem to understand that the law gives the right of way to the pedestrian. A man or woman who is crossing the street at a regular crossing is not obliged to look out for the person who is driving the team, but the person driving is to take care not to jostle or incommode a person walking. That is law and common courtesy as well. How frequently do we see teams draw up at a crossing and pedestrians made to pass around them.

A Beat Beaten.
About two and a half years ago the STANDARD sued one Dr. Washington, a travelling specialist or "quack," for an advertising account, which, his "humility," after relieving himself of a tirade of the grossest insolence, refused to pay. We got judgment at court but the prospects for further satisfaction appeared slim for a long time. We determined, however, to push him, even to prison if necessary, and ordered a transcript and had him served with a judgment summons in Toronto when he, with great chagrin, paid the bill with costs, amounting to more than double the account. We give the above for the benefit of other publishers who were treated in like manner by this "dandy."
