Mr. Rorke. M. P. P., then arose and order was at once restored, I clearly showing the respect which his constituents have for him. He highly culogised the Dr. as a reliable man and an honest and efficient representaitive in parliament but strongly opposed his course in reference to the vote on the Jesuit question. Mr. Me-Colman was called, and spoke for a few minutes in a yery tair and intelligent strain on the burning question. He pointed out the necessity of having the State entirely free from the signee, on Thursday last in Hamilton. Church; this he claimed is not the case even in Ontario as is supposed and intended, and held that all Church property should struck off the exempt list and taxed the same as other property. This view is fast gaining strength and we hope to see the day when it will be the law of the entire Dominion.

Euphrasia town hall at Rocklyn is a credit to the township, and so are the roads; the road from Markdale to the "capital" is simply excellent, while the country by way of 11th line is a superior section of country and looks, just now, very promising.

Mr. John McCollum of the 11th line Euphrasia is deserving of more than a passing notice for a very neat stone fence in front of his farm. We have seen many stone fences but this takes the "cake,"
