The weather has been very unsteady and poor for harvesting the past ten days, which has hindered harvesting operations materially.

The term "Abroad" until recently was understood to be, in a distant land, but now, if people visit friends in a neighboring county they are said to be abroad.

JOHNSTON'S new dwelling and bakery is being pushed forward rapidly and will be ready to occupy in a few weeks. Thos. Watson is the builder and is hustling things.

MR. J. S. RODMAN and family left Markdale on Tuesday last for Chicago there to make their home. The STANDARD wishes them success in their American home.

ON Thursday last while working in Armstrong's mill, George Munshaw got the first two joints out of the first finger on his left hand with an edging saw with which he was working.

REAL estate is looking up in this district and a growing demand manifested for farms both to purchase and rent. John Whitby, the land agent and money loaner is doing a thriving business.

READ the advertisement of Wm. Lucas & Co., bankers, Markdale, in another column. Mr. Lucas stands high in the estimation of the public as a man of integrity, after ten years business in the place.

EUPHRASIA Agricultural Society has got out handsome posters announcing its annual fall exhibition to be held at Rocklyn, October 7. The prize list will be in the hands of the secretary, Mr. J. L. Wilson, in a few days.

EVERY column in a newspaper contains from 12,000 to 20,000 distinct pieces of metal, the displacement of any of which causes a blunder or typographical error. And yet some people lay claim to a phenomenally brilliant mind if they can discover an error in a newspaper.

We are pleased to learn that Mr. Henry Hamilton and family have decided to remain in Markdale, until next spring at least. They were about to remove to Toronto, but have made other arrangements for the present. We can ill afford to lose such desirable citizens.

The advertisements are an important feature of every paper. The women, who are the financiers of every household, recognize this so thoroughly that they never think in these days of making any purchases without looking at the newspaper, to see where they can purchase the most cheaply.—Ex.

This prize list of the Central Agricultural Society of Walter's Falls is just out and is, we believe, ahead of any in the county, not only in mechanical get-up but in value of prizes offered. Every intending exhibitor should secure one at once from Mr. Holmes, the obliging and energetic secretary, Walter's Falls.

On Tuesday evening, 19th. after Bible Class at Presbyterian Manse, Mr. A. C. McFarland was presented with an address and six volumes of Geekies "Hours with the Bible," expression of the high esteem in which he was held and in recognition of the deep interest he took in all branches of congregational and Sabbath School work.

Mrs. Wm. HANBURY is down from Owen Sound visiting her mother-in-law, Mrs. John Stephens. She is in very poor health and her recovery rather doubtful. Mrs. Stephens is experiencing a heavy share of trouble, having been only two weeks since, bereft of her son, Mr. Jesse Hanbury, who died suddenly of heart disease in Toronto.

The Canadian Live Stock and Farm Journal is unexcelled to-day as a farmers' paper. It is handsomely gotten up, beautifully printed, and well illustrated. Its articles and agricultural notes are pointed and practical making it altogether a general favorite among agricultural classes. Price \$1 per year. Published by the J. E. Briant Co., Toronto.

MESSRS. Young & McCullough both live business men, and well known in Markdale have decided to open a Bank in McFarland's block in the course of a week where a general banking business will be done. Mr. Young's long experience at Banking ought to give the institution the solidity which such an institution requires and we have no doubt they will secure a fair share of business.

Who hasn't been delayed and annoyed while driving, by overtaking another vehicle whose driver tries to exhibit his smartness (stupidity and ignorance rather) by jockeying and hindering you from getting past? The law provides that "Any person so overtaking another vehicle or horseman shall turn out to the left so far as may be necessary to avoid a collision with the vehicle or horseman so overtaken, and the person so overtaken is required to leave half the road free."

Hiring Teachers.—The customary time for hiring teachers for the coming year is drawing near. Would it not be a good idea to go about this important work earlier than usual? We think it would be an advantage to both trustees and teacher to have the matter settled several months before the end of the year. If a teacher should have a class studying for third class certificates for which the examination takes place next July, the teacher will work with more energy when certain to be with his class right up to date of exam., than if kept in doubt until about Christmas.

WHAT is there more aggravating than, after spending every spare moment all summer cultivating a vegetable garden, on rising some morning to find that the neighbors cows had broken in during the night and completely destroyed the whole business? This is what happened to a Markdale citizen one morning this week, and he ran out and picking up a hoe struck a cow making such a wound that it was thought advisable to butcher the animal as she was in fine condition. The cow belonged to Mr. W. J. McFarland, Reeve of Markdale. This cow was among the ones which broke the iron gate at the Methodist church this summer.

ACCIDENT.—One evening last week while Will Armstrong and T. Clayton, Jr., were driving down McKenzie's hill on the back line the breeching strap broke, letting the buggy on the horse's heels. The animal was rolled down the embankment, and the buggy badly demolished, but the young men themselves sustained no injury. The accident occurred after dark, and it was not until next morning that the discovery was made that the horse had received in some manner a terrible cut on the front leg eight inches long. Dr. Otwell was immediately called. He placed a number of stitches in the cut, but fears that the leg will always remain somewhat stiff.—Flesherton Advance.
