Markdale Standard.

C. W. Rutledge, Proprietor.

MARKDALE, OCTOBER 23, 1890.

A BONUS.

A public meeting was held last week in Meaford to consider the following offer made by Moffat & Sons, stove manufacturers, of Markdale, viz: A bonus of $10,000, for which the firm agrees to carry out the following conditions:

"To construct a building of brick of the following dimensions: Fitting shop, 100 feet frontage on one side 85 ft. on the other, 45 ft. deep, two stories high; attached to the fitting shop, a mill room and polishing room 50 x 25 feet and an engine and boiler room 25 x 25 feet; the moulding shop to be 130 x 40 ft., with cupola room attached 15 x 20; also iron, cake and sand buildings 90 x 20, and stables and pattern shop; the whole to be constructed same as the accompanying plans, and to cost with the plant $20,000 to $25,000. They agree to employ not less than 25 workmen the first year, also to endeavor to procure as many married men as possible with a view to their settling in the town. They also agree to give security to carry on the business for not less than 15 years."

The above meeting was a large and thoroughly representative one and was almost unanimously in favor of granting the bonus. Now the question for Markdale is, what are we going to do about it? Moffat & Sons have been operating a foundry here for nine years. About two years ago they decided to go into the manufacture of stoves, and their venture is proving a success. Now when the concern is beginning to be some benefit to the place, and developing rapidly into a manufacturing establishment of large dimensions, would it not be a paying investment to give a bonus or loan to this firm in order to retain it in our midst. Markdale has advantages over Meaford, such as shipping facilities, low taxes, &c. The firm admits that the water communication at Meaford would not be of much benefit for some time, and everybody knows that our railway facilities are head and shoulders ahead of that at Meaford, so that the half of above bonus would soon be eaten up.

While we are not in favor of the bonus business as a rule, still in this case the question of granting a small bonus orght at least to receive serious consideration at the hands of our property holders.

We suggest that a public meeting be held.

LET ME IN.

Hundreds of homes are made happy by the weekly visits of the STANDARD.

That's a fact.

There are yet scores of families where its benign influence is not felt.

Why is this?

Well, there are various reasons.

Some are carless and indifferent as to the degree of happiness and pleasure they enjoy so long as they are making money.

Some would like very much to have the cheering company of the STANDARD from week to week but can't find it in their heart to spare the dollar.

Then there are those who havn't the dollar.

Others are perhaps strangers to the fact that such a bright, newsy, cheery, helpful visitor can be had 52 times a year for the small sum of $1.

It's a benefit to any home to have a good local paper.

It helps the children and interests the young folks and does the old people good.

The more generally a local paper is read, the more intelligent, enterprising, contented and prosperous is that community.

One more fact.

The more liberal the patronage given the more valuable will the paper become.

Then let me into your home and I will do you good, says the STANDARD.

THAT SUGGESTION.

In reference to our suggestion of two weeks ago, viz: that the Secretaries of all the Agricultural Societies in the county meet in Markdale on Thanksgiving day to arrange the dates for their several fall exhibitions for 1891, we had a number of favorable replies, but such action should be unanimous, and seeing that quite a number are either opposed to such a meeting or lack interest in the fall show business, we do not feel justified in going on with said meeting.

NOTE AND COMMENT.

—Regular trains are now running on the Montreal and Ottawa railway between Vandreuil and Rigand.

—Another suit has been taken in the court at Winnipeg to test the constitutionality of the Manitoba school law.

—Commodore Folger has returned to Washington from an inspection of the Sudbury nickel mines. It is understood his report is favorable both as to the quality and available quantity of the Canadian metal.

—By means of a decoy letter sent by Police Superintendent Sherwood, of Ottawa, to Thomas McCormick, of Russell county, Ont., that young man, who was negotiating with an agent in New York for the purchase of counterfeit money, was cleverly captured.

—The propeller Annie Young, of the Lake Superior Transit Company, was burned to the water's edge off Lexington, Mich., Monday morning. The steamer Ed Smith took off seventeen of the crew, but nine men took to the yawl boat and were drowned.

—The Board of Regents and Senate of Victoria University met at Cobourg last week, and by a large majority decided in favor of federation with the University of Toronto. Committees, commissioned by the Board of Regents, were appointed to take steps towards the erection of new buildings at Toronto.

—A steamship race across the Atlantic from New York to Liverpool is quite a common occurance but a race took place recently between the French steamship *Salazie* and the English steamship *Orizaba* from Melbourne to Marseilles, by way of Suez canal, a distance of eleven thousand miles. The French vessel won the race.

—Mr. Alexander Kennedy, of Kennedy & Sons, Owen Sound, who have the contract for putting in the new water works at Niagara Falls, lost his arm on Wednesday of last week. He was in charge of the work, and while lubricating the machinery got his arm caught between the connecting rod and the wheel, cutting it off at the wrist.

—The vigorous policy pursued by the United States authorities against those Mormons who practice polygamy is having its effect. Five years ago when the Mormon Church met in Conference, their President declared that "celestial marriages" were a part of the Mormon revelation from which they could not withdraw. Within the last few weeks Wilford Woodruff, a man about 80 years of age, chosen at their last general conference to be "prophet, seer, revelator, and President" of the church, has announced in a manner most explicit that "we are not teaching polygamy or plural marriages, nor permitting any person to enter into its practice." That this change of sentiment is in some measure due to the recent decision of the Supreme Court of the United States which held that polygamy is a crime and not a lawful part of religion is perhaps a fact. As to the cause of the change the public are not particularly concerned. Nor is it any concern of the public whether the Mormons still believe in this peculiar institution; provided they do not continue to teach their doctrines or carry them into practice. Many people, at the close of the civil war, believed in slavery and many more in the right of concession. The Government never called upon them to renounce their opinions, but only to obey the laws. It did not expect or require a public renunciation of sentiments or beliefs to which they had sealed their devotion in battle through four years. So the Mormons cannot be expected to instantly discard views in which some of them have been nurtured since childhood. They are simply bound to obey the law. And this, according to President Woodruff, the Mormons purpose to do. Saying in his manifesto, "Inasmuch as laws have been enacted by Congress forbidding plural marriages, which laws have been pronounced constitutional by the court of last resort, I do hereby declare my intention to submit to those laws, and use all my influence with the members of the Church over which I preside to have them do likewise." This proclamation may be regarded as sounding the death-knell of the institution of polygamy, that festering sore which for so many years has disfigured and disgraced the American body politic. Let our rulers see to it that a like evil does not find a place within our young institutions. Prevention is better than cure, though it would seem that cure is not absolutely impossible.

Artemesia Fall Show.

Artemesia Agricultural Society is laboring under the disadvantage of having no Agricultural grounds and consequently no gate receipts, which is a serious drawback financially to the society. The exhibition this year was held at Priceville on Tuesday and Wednesday of last week and was in every respect successful. The weather was favorable and the exhibit very creditable indeed, while the attendance was above the average. We are indebted to the Secretary, Mr. Brodie, for a copy of the prize list as follows:

28 Years in Business

IN MARKDALE,

And a Successful Business Constantly Increasing.

EVER CLIMBING UP.

Have you ever stopped to think what brain worry thinking and planning. Thinking sometimes away into the early morning hours while you are asleep, how, when and where we shall buy qualities, quantities and prices to please you.

DRESS GOODS,

Our first consideration. They must be of all qualities and prices. We have them in Plain Meltons, Checks, Fonle Serges, Amazon Cloths, Cashmeres, Henriettas, Black and Colored Silks, Satins, Velvets and Plushes. You have the largest stock to select from by coming direct to McFARLAND'S. We have taken great pains to select our Dress Goods and Trimmings. Ladies Cloakings and Walking Jacket Cloths are mostly worn this season in plain cloths. We have the correct goods and extremely moderate prices, from 50 cents per yard up to the finest Sealettes.

Miss Moffat, who so successfully pleased our lady friends two seasons ago, will have charge of our MILLINERY SHOW ROOM this season. It is a guarantee of an elegant assortment, correct in style, and prices moderate.

Hosiery, Shawls, Gloves, Laces and Wool Wraps. A special line of Ladies' Tweed Water proof Garments, $2.50 each, sold in the big Toronto stores for $3. We now come to the warmer goods, you will want them, and soon.

FLANNELS.

Our special All-Wool Greys from 18 cents are selling fast. Ladies' and Men's Woollen Underwear; never had such value to offer. Our Men's 50 cent All-Wool Shirts and Drawers will keep out the keenest blasts of winter. 75 dozen in Fine Ties, Fine Sox, Fine Gloves and Fine Silk and Wool Mufflers, imported direct from the makers.

Did you ever stop to think that McFarland buys the bulk of his goods direct from the manufacturers and for spot cash? What does that mean? It means a saving of the wholesalers' profits, and cash means the closest bed-rock prices.

BOOTS & SHOES.

Some leather is mean. Some workmen are mean. Some boot-sellers are mean. That's how mean boots get made and sold. Six out of every ten pairs of boots are shams, pasted stock, shoddy pancakes. Never was a time when shoes looked so well and wore so badly until the shoeing of a whole family has come to be a serious task. A poor pair of boots is a bad investment. If you want good, honest, solid foot-wear just drop into McFarland's. His stock is fully complete from the finest to the coarsest. Women's, Men's, Girls' and Boys'.

READY-MADE CLOTHING.

Isn't it a comfort to have your Coat, Pants, Vest, and Overcoat ready-made to your hand? No worry of measuring and waiting for the making and fitting. Just a little looking in a light, roomy department upstairs filled with choice, new goods from the best manufacturers. A perfect fit guaranteed and about half less to pay than if you had gone to a tailor.

A FEW CRACKERS.

Men's Overcoats, $4.00 up. Boys' Overcoats, $3.00 up. Men's suits, $4.50, $6.00, $7.00, $8.00, $9.00, and the finest, $14.00, equal to any tailor-made. Boys' from $1.50 up. We need scarcely recommend our teas, they are so well known for excellency of flavor, strength, and cheapness. We should like to have said a word about our carpets, Fur goods, English and Scotch suitings, and a host of other goods, but the printer says my space is filled. Come in and see us when in town. We will take your cash or produce and give you rattling good value in exchange. Come in anyway and look around and see one of the busiest stores north of Toronto.
