A POINTED OBSTRUCTION.—While jumping from a hay loft one day last week Mr. Ed. Wright, son of B. Wright of Artemeria, came in contact with a pitch-fork which was standing with tines upward. One of the prongs went through the flesh part of his thigh and pierced his breast. With considerable difficulty he got the fork withdrawn, and he is not much the worse.

ON Saturday last Mrs. Moore, widow of the late E. W. Moore, of Holland, tripped on a loose plank in the sidewalk in Markdale and fell dislocating her shoulder. She was assisted into the house of Edward Rutledge close by, and Dr. Ego called in. The doctor, with considerable difficulty, succeeded in replacing the joint, and the patient is doing as well as could be expected.

WHILE milking on Sunday last Mrs. John Stephens of Artemesia, half a mile out of Markdale, received an injury which may prove fatal. A colt frightened the cow which was being milked and knocked the old lady over breaking her thigh bone. Dr. Ego attended the patient but owing to the age of the woman and the seriousness of the injury she is lying in a critical condition.

THE Owen Sound Advertiser says that "The Huron County Council lately met in Lucknow, and they were so banqueted and balled and excited that it is a marvel how the poor men found time for county business at all," and urges Owen Sound to entertain our county officials when they gather next week, in some way. By the way, how came the Huron County Council to meet in Lucknow, which is in Bruce County? Is the "Tisor not astray.

DEPARTED THIS LIFE.—Another of our respected citizens has gone over to the silent majority, in the person of Mr. Alexander Kay, shoemaker. Deceased has been in ill health for several months, and passed away on Monday last in the 56th year of his age. Mr. Kay was a worthy member of the Canadian Order of Oddfellows and also of the Ancient Order of United Workmen. The members of both lodges were most attentive and kind to their brother during his illness, and, when death claimed its victim, the Oddfellows furnished and superintended the obsequies, the Workmen joining them in the burial service. These Societies both conducted themselves in a most praiseworthy manner throughout in connection this, the first break, by death, in the ranks of either in this place, during their existence of ten years.

SIFTINGS.

ON Wednesday of last week the editor took the morning train for Berlin, there to attend conference.

THE country along the way was looking prosperous and beautiful.

AND appeared to enjoy the much needed showers which continued to fall during that day.

WE reached our destination at 3 p. m., having gone via Toronto.

BERLIN is on the G. T. R., 60 miles from Toronto.

AND has a population of 9,000.

IT is the capital of Waterloo county.

AND is one of the finest agricultural districts in Canada.

THE population is largely German, or Pennsylvania Dutch.

IT does not follow, however, that because of this, it is an inferior town.

ON the contrary, it is a handsome prosperous place, having doubled its population in five years.

WE were agreeably surprised, and even, delighted, with much of what we saw during our sojourn of nearly a week.

THE sociable spirit and hospitable manner by which the Germans, as well as others, billited and entertained over 200 delegates for a week.

WAS a practical test of the liberality and social status of the citizens.

A CHEERFUL, happy, industrious, and contented disposition was manifested, in the homes, on the street and in the factory or business place.

WHICH was very striking, and frequently remarked by observing delegates, who were strangers to the town.

THEN the general appearance of the place is pleasing.

THE streets are scrupulously clean and the sidewalks good.

THE vast number of private residences are so substantially built, and with such rare uniformity of design.

TOGETHER with handsome and well kept premises.

ALL go to impress the stranger favorably.

ABOUT a dozen extensive manufacturing industries are in full swing.

EMPLOYING over two thousand hands.

THESE are a source of large revenue.

AND of great stability to the town.

THERE are several breweries, and said to be considerable beer drinking done.

BUT a case of drunkenness or quarrelling was not seen by the writer in the five days stay in Berlin.

THE Conference was one of the best and most profitable annual gatherings which the Guelph Conference has had.

REV. J. W. Holmes, of Owen Sound was elected president and Rev. Wesley Casson secretary.

THE next conference will be held in Guelph next June.

OUTSIDE GLEANINGS.

THE population of London, Ont., is placed at 31,240.

MISS BERTHA WRIGHT and Mrs. Spalding, of Ottawa, Evangelists, are conducting meetings in Owen Sound.

MR. A. CALDER, of Normanby, has a field of rye which commenced heading out in May, a most unusual occurrence.

THE boldest band of thieves in New York city consists of three little girls, who operate in the large flats of the wealthy.

THE Barber & Ellis Co., of Toronto have been awarded a gold medal for book binding and stationery at the Jamaica Exhibition.

THE annual meeting of the Anglican Synod of the Diocese of Toronto was opened at Toronto on Tuesday, and that of Niagara Diocese at Hamilton on Monday.

A CAR load of children from New York, 40 in number, and ranging in age from three to seven years, passed through Buffalo recently for the west where homes have been secured for them.

AN engineer named Zalski, of Berlin, quarreled with his sweetheart two years ago and went to America. Last week he returned, found her married, and in a rage attacked the husband, who, in defending himself, shot Zalski dead.

HON. ALEX. Mackenzie will have been thirty years in Parliament on the 10th of July next. He is said to be the only member who has sat in the House that length of time without once meeting with defeat at the polls. The Reformers of Canada should not allow the occasion to pass without marking in some way their high esteem for the veteran Parliamentarian.

A heavy rain on Manitoulin Island has caused rejoicing among the people.

CHATSWORTH, Ont., June 5.—Mrs. Edward Coulter of Desboro was thrown from a buggy in consequence of her horse running away, and striking her head heavily on a stone her skull was fractured. She only lived two hours.

What is called the Horning's Mills Fishing Company entered suit against the neighboring young men for fishing in the Horning's Mills lake, which heretofore was open to all local fishers. A young man named Hous was arrested for the offence. On the morning of his trial the boat house and boats of the company were destroyed by fire. The case was given against the company, which serves them right as no one should try to shut others out of nature's reserves for rural pleasures of that kind. —Monitor.

Although mushrooms do not grow at this season of the year, a Tilsonburg family seem to be ignorant of the fact. On Friday the family of John Cope of that place, were poisoned by eating toadstools. The poisonous fungus, which had been gathered as mushrooms, were cooked and served. Shortly after eating them every member of the family was taken ill with symptoms of poisoning. Physicians were summoned, but notwithstanding their efforts, Maggie, the six-year-old daughter of Mr. Cope, died from the effects.

BADLY HURT.—Last Thursday as Mr. Wm. Collins, painter, of Shelburne, was working in the Presbyterian Church, Hornings, Mills, papering the ceiling, &c., he met with a painful accident, by which both bones of his left arm were broken just above the wrist, and his left eye severely bruised. He does not know how it happened, but supposes that while with a strip of pasted paper, he was ascending a step-ladder to a temporary scaffold his weight caused it to slip. A piece of scantling struck him on the side of the head, knocking him down and rendering him insensible, and the whole thing falling on him with above results, besides bruising his leg considerable.—Shelburne Free Press.

Euphrasia Council.

The Council met as a Court of Revision at 10 o'clock a. m. on May 30th, 1891.

Members all present.

Scaled the Jail Wall.

BARRIE, June 8.—Robert Campbell, hailing from Collingwood, who has served a term for rape and who was awaiting trial on a similar charge, unbolted the massive hinges leading to the jail yard and thus gained an entrance to the yard. Tearing boards from the wood-box he tied them together with a sheet and laying them against the wall he was enabled to get away. For some time past he had been quite sick and one of the other prisoners was acting as nurse, and it is supposed that he rendered him assistance.

Horse Breeding.

I have just had given me the report of a sale of Canadian bred horses in London. Surely the prices, ranging from $210 to $675 for Canadian bred colts, mean a profit to somebody; and if the markets are of such an extent as the figures show, them to be—and I believe they are—then by breeding to meet this market, and sending our surplus horse stock to it, we shall in a large measure have qualified the desired effect of W. McKimley, Esq., when he got in such a heavy import on agricultural products, possibly, that with the American market taken away from us, we should have to shut up shop; but the European market is a good one, and, if we trim our breeding sails to take advantage of it, the McKinley Bill will have been a blessing to the mutual of an injury. The class of horses that seem to catch the English taste are such as stand from 15.3 to 16.1, of good form and finish, bay, brown, and black in colour, with good, free, open action, and of the kind that can make good use of their knees; and good trotting-bred mares, mated to large-boned Standard-bred stallions that have the properties of transmitting size and finish, as well as speed, are suitable ones to breed the kind that will sell, and sell at figures that will pay the farmer for cost of production.

Hackney stallions could also make a desirable cross when bred to our trotting mares, in the production of a class of horses that will sell anywhere at a good round, paying figure. One thing is sure, there does not seem to be much market for horses under 15 hands, and that weighing less than 900 lbs., unless they are carried away above the average, while there is a full market for horses over 15.3 and 16.1, that weight from 1150 to 1250 lbs., and can move along promptly at a good 2.40 minute pull, if they are sound and good workers. It should be no great conundrum for the Canadian breeder to produce horses of this stamp every time, if they use the good judgment possessed by the average Canadian farmer, and there never was a time, at least so it is my impression, than just now, when the Canadian breeder required more than ever before to study out how best to breed to meet the change of market; and I cannot help thinking that the Canadian farmer, from Ontario to Prince Edward Island, could afford to breed anything but the very best of the tribe he selects as his choice. The sire of breeding a class of horses which we expect to sell for $300 is gone, and, to be in the swim, we can only breed now the kind that the world's market is ready to pay us 1200 or over for, and they are not the kind many of us have been breeding in the past, for will the haphazard methods of mating, many of us have practiced heretofore stay long enough to meet the demand of the day.—Farmer's Advocate in The Canadian Live Stock and Farm Journal for June.

Brigands Successfully Demand Ransom.

CONSTANTINOPLE, June 7.—A party of brigands near Tcherek on yesterday placed obstructions across the railroad track and derailed the express. The brigands made captives of several German and English tourists who were among the passengers. One of them was a banker of Berlin. The brigands have demanded $40,000 as ransom for the captives and Chancellor Von Caprivi has telegraphed to the German ambassador here authorizing him to advance the amount. The remaining passengers were despoiled of their belongings.

The place where the act of brigandage occurred lies between this city and Adrianople. The band which made the attack numbered 30 and was led by a noted robber Anastasius. The brigands seized the watchman on duty at the railway station and then tore up the rails for some distance and allowed the cars to dash on to possible destruction. When the eastern express reached the spot the engine tumbled over, dragging over with it the tender, a baggage car and all the third-class passengers. The first-class passenger cars remained on the track. When the train was thus disabled the brigands rushed forward uttering loud yells and brandishing their guns threateningly, boarded the cars. Several passengers resisted the attack of the brigands who replied with a volley from their guns and dangerously wounded one man. The outlaws finally overcame the occupants of the cars and then stripped the travellers of all their valuables and loaded their baggages. When the plunderers ended their work they seized four passengers in the first-class cars and also the engineer of the train and started with their captives for their rendezvous in the mountains. The men carried away were Count Grelot, Herr Israel a banker of Berlin, Herr Borgue, a land owner. Upon learning the retreat the bandits sent Herr Israel to get the ransom of $40,000 which they demanded for the release of the prisoners. Herr Von Radowitz the German consul informs that the Porte will refuse this money.
