Markdale Standard.

C. W. Rutledge, Proprietor.

MARKDALE, AUGUST 6, 1891.

IRISH LAKE.

Haying is pretty well advanced and crops are looking very fair. The heavy showers made quite an improvement in them.

Mrs. M. Byrnes who has been visiting with her parents and friends here, left for her former home in New York last week.

Messrs. M. Ryan and Thos. Martin left for Toronto Gore last Wednesday.

Mr. Hugh McGrogan left for Toronto last week where he intends to remain for some time.

Miss Bella McLellan of New York who has been visiting with old acquaintances left for Owen Sound recently.

HARKAWAY.

RECENT VISITORS.—A tramp hailing from Illinois bound for Cornwall gave us a breakfast call this week. Master Johnnie Varey is spending his holidays with his uncles, H. and L. Sewell, Blantyre. Miss Logan O. S. Mr. and Miss Stinson, Toronto. Miss Smith, Walter's Falls. Messrs. Torrie, Strathaven. Mr. A. C. Patterson accompanied by his brother. Mrs. M. Paton, Euphrasia.

After years of prayers and petitions the Postal Department have granted us a semi-weekly mail which is to come from Berkeley by way of Lily Oak to Harkaway.

Mr. Robt. Millson of seventh line Euphrasia formerly of this place takes the bun for berry picking having filled no less than sixteen pails in one day. (I's a usler aint e.)

Our energetic book-agent Ed. Steer has received a valuable present from his employers which is a gold watch.

Mr. A. Scott, contractor, has about completed Mr. Lougheed's barn.

ROCKLYN.

A large crowd witnessed the return match between Collingwood and Rocklyn base ball teams on Saturday last. The home team was victorious, the score standing: Rocklyn 12, Collingwood 11, Rocklyn having one innings to spare.

Rev. Mr. Stevenson, formerly pastor of 9th line St. Vincent Presbyterian church, is visiting in this vicinity accompanied by his daughter Miss Stevenson. He occupied the pulpit of Temple Hill church on Sabbath last.

Mr. Noble Paterson and wife returned to their home in Toronto on Tuesday after a few days visit with relatives at Blantyre.

Work was commenced on the new hotel building on Wednesday. It will be much larger than the old one and will be a credit to the town.

Mr. Alex. Paterson of Mobile, Alabama, was the guest of his father Squire Paterson of Blantyre recently. His wife and daughter who accompanied him will remain at Blantyre until his Mr. Paterson's return from Europe in the autumn.

Berries are very plentiful this season, J.E. Richards bought over 1000 lbs. on Monday.

Miss Alice Dodson, of Toronto, is visiting here.

Mr. Frank Hutchinson, formerly teacher of Rocklyn school, is visiting relatives here. He is accompanied by Mrs. Hutchinson.

Mrs. Wm. McConnell is visiting in Toronto.

DUNDALK.

The hot weather and absence of any rush in business circles have led some of our townsmen to don their "biled" shirts and lie themselves away to shady nooks and cool groves, or, wafted by pleasant breezes, sail the waters of the Georgian and other bays. Among them, Dr. Greenlaw, J. R. Macintyre, the editor of the Herald, and others.

W. T. Rundle and Messrs. Calhoun have returned from the Mackinac trip and report a pleasant tour.

Bears have been committing havoc among the sheep in Proton recently.

An immense excursion at a normal rate for three days to Niagara Falls is being arranged for by the fraternal societies of Shelburne and Dundalk. The date is fixed for the 18th, which will be Dundalk's civic holiday.

About four tons of milk were received one day recently at our cheese factory.

Rev. G. H. Cobbledick has been unwell lately, partly from incessant work. He has leave of absence for a few weeks, during which time, his pulpit will be supplied by Rev. T. Hall, at the request of the Quarterly Board.

Mrs. Cobbledick is in Toronto undergoing a system of treatment known as the "Massage." The physician has some hopes of her recovery. For about twenty months she has been a patient, uncomplaining sufferer.

Building operations are brisk. The R. C. Church will not be completed this fall; the foundation only will be built. An eligible lot on Main Street has been secured.

Arrangements have been made to place an electric light plant in our village this fall: we expect to have it by September 1st.

Thos. E. Cornett and D. B. Arrowsmith, formerly of Markdale left for Manitoba on Tuesday last. As they went in company with some officials of the Salvation Army, we hope they will give a good account of themselves.

Extensive Improvements.

Mr. W. J. McFarland, our respected reeve and enterprising townsman, has been making commendable alterations in his commodious store and private residence this summer all of which are nearing completion. When Mac. undertakes anything he never does it by halves, and when it comes to designing and superintending Mrs. McFarland is, we believe, the better man of the two. Their residence has undergone a general transformation (under the supervision of the better half) consisting of re-painting, re-papering, re-carpeting and re-furnishing in the interior, and re-painting outside, all of which presents a unique and pleasing appearance and reflects credit on Mr. Cherry the painter and paper-hanger as well as Mrs. W. J. the designer. The elaborate new front in the commodious store is the admiration of all who visit Markdale. $400 worth of plate-glass now adorns the main entrance of this bee-hive establishment. The new sidewalk in front also adds to the imposing appearance of the premises. Contractor Richards deserves credit for the management and safe placing of these ponderous plates. May continued prosperity follow our energetic merchant and his estimable wife.

Agricultural Items.

The popular hog has a long body.

Wire netting pea brush is a success.

Test your milk and thin out the dead-head cows.

A good garden saves grocery bills and doctor's bills.

Sweeten the colt's disposition with an occasional lump of sugar.

The flies get a large slice of the pasturing cow's rations during July and August.

Dip the lambs now, and get rid of the ticks. It's the only way to have them thrive.

Are you compelling your cows to drink stagnant pond water? Pure milk is not made of such material.

Teach the colts not to be easily startled by getting them used to all sorts of common or uncommon objects.

Drive the implements under a roof every night, for there is no telling what the weather may be next day.

Carbolated vaseline is a capital hot weather remedy for galls and all raw sores. Keep it always in the stable.

When you are offered all a horse is worth, if you are going to sell him at all, don't sleep over the offer. Accept it quick.

The greater part of the losses in transplanting trees and shrubs comes of not forming the earth sufficiently around the roots.

Saddle horses continue to grow in popularity. Why don't the farm boys practise this manly art of equitation more than they do?

It pays to be liberal with oil in running a mowing machine or reaper. Better use too much than too little. And don't neglect to examine every nut daily, to see that it is snugly in its place.

Don't spend ten cents' worth of time picking up five cents' worth of hay. It is neither necessary nor profitable to have the mowed lot looking as though it had been lathered and shaved.

The change in public taste from heavy fat bacon to lean marbleized, thick and tender strips has driven the 700-pounder from the market. The Berkshire or Yorkshires are the best little fellows to grow for hams and bacon.

One of the best ferilizers and the cheapest is lime. When lime is freely used and applied every year the soil becomes easily worked, the available proportion of plant like is increased and the manure more quickly decomposed.

Tardiness in maturity has been in the past a leading element in lessening the profit in hog raising. The modern hog is notable chiefly for his early maturity, and growers are pretty well cured of the folly of feeding until two years old.

Do not neglect to have a good pea patch growing for young hogs. Pea vines may be cut green while the pea is in the pod and fed to hogs to good advantage. The ripe pea fed in the autumn will do better service than corn and make better and firmer pork.

What's the use of ploughing up the middle of the road or filling it up with fresh soil from the sides? You cannot pack earth any firmer than the natural soil. Drain the sides and leave the road bed alone would often be much better than the way roads are often worked.

We have noticed that the man who leaves his implements out in the snow an dsun when there is plenty of straw with which he might make a shelter, usually has no trees about his house. Sunshine is good, so is fresh air, but shade and winds breaks are often handy to have around.

The T. S. Council at Buenos Ayers states that for many years to come the Argentine Republic must continue to be the raising of sheep and the production of wool. In numbers, relatively, that Republic has 70,000,000 sheep, Australia 60,000,000, and the United States 50,000,000.

If wheat is to follow wheat, it is best to leave but a short stubble on the ground. If clover is to follow the wheat it is best to leave the stubble as long as is convenient, making less straw to haul and move away, and after a week or two run the mower over the field, set so that it will clip the clover tops, and let the shorn stubble be as a mulch for the young clover. It will help it through August and September.

When grass is allowed to produce seed it exhausts the soil more than when a crop of hay is cut before the seeds are permitted to appear. When seed heads from the plant has fulfilled its mission, and has stored in the seeds a larger proportion of the mineral elements than remains in the stalk of the plants, in many cases, as the green plants, when cut down early, consists largely of water. A grain crop and a crop of seed from grass deprive the soil of a proportion of all the fertilizing substances exhisting therein.

Potatoes, with good cultivation, pay uniformly a better profit than any other crop that can be grown at the same expense and with the same cultivation. Dairy cows, of the best class, pay better than any other stock which demands no more capital; and fowls pay better, than any other small or minor industry of the farm. Taking in combination they are just the thing for an industrious man of small means who has a few acres of good ground. Upon this much land, with this combination, such a man would be sure, not only of a good living but of saving a snug sum every year.

Weeds are easiest to kill out when young, and the plants will make a thriftier growth and better yield if the soil is kept thoroughly stirred at this time. The more frequent cultivation the easier the work will be both to man and teams, and the more thoroughly the weeds are kept down the better the growth. While it is possible to cultivate too much ordinary there is very little risk in an average soil. It is not necessary to stir the soil deep; in fact, with the majority of crops better results can be secured by shallow and reasonably level cultivation.

As a healing, soothing application for cuts, wounds, bruises and sores, there is nothing better than Victoria Carbolic Salve.

MARRIAGES.

HAMILTON—STOWELL.—On the 29th July, at the residence of the bride's parents, 9 Gibbs street, St. Johns, Mich., by the Rev. W. C. Allen of that city, Mr. A. B. Hamilton of Brantford, Ont., to Miss Lora M. Stowell.

A school teacher asked an Irish boy to describe an island. "Sure, ma'm," said Pat, "it's a place you can't lave widout a boat."

BABY WAS SICK.

"My baby was very sick with diarrhœa and after everything else has failed I tried Dr. Fowler's Extract of Wild Strawberry; the first dose gave relief, and a perfect cure soon resulted."—Mrs. John Clark, Bloomfield, Ont.

CAN NOT COMPETE.

Miss Maud Grant, of Mountain, Ont., writes: "I can recommend Dr. Fowler's Extract of Wild Strawberry for summer complaints and diarhœa. There is nothing to compete with it as it succeeds even in the severest cases."

An impecunious Irishman said he liked being asked out to dinner because it was flattering and nourishing.

CONSULT YOUR NEIGHBOR.

ANY one may find out just what Burdock Blood Bitters is and does, by asking a neighbor who has tried it. It rarely fails in making a complete cure of dyspepsia, constipation, sickheadache, biliousness and diseases of the stomach, liver, bowels and blood.

A FAIR QUESTION.—Stranger: What are your rates? Hotel clerk: Seven dollars a day, sir. Stranger: If I come, I shall want a room on the parlor floor. Clerk: That will be a dollar extra. Stranger: I shall also want a fire in my room. Clerk: One dollar more. Stranger: And a bath. Clerk: A dollar additional, sir. Stranger (thoughtfully): How much will you charge to let me leave the hotel just as I am.

The above cut represents the interest taken by a large proportion of our readers in Canada's Favorite Exhibition. This the Directors deserve for their untiring efforts to keep it at the front of Live Stock and Agricultural Fairs. Its growing popularity is due greatly to the attention given in revising the prize list, making such alterations as are required; to the improvement of Live Stock; encouraging the better classes of Grains and Seeds for cultivation, and bringing out and fostering new inventions of all kinds. A large number of Special Prizes are offered for Cheese and Butter as the manufacture of these articles is considered two very important industries of this Province. Special Prizes are also offered for the cow making the most butter on the grounds the test to be under the supervision of an expert from the Agricultural College. The Machinery in motion in the Main Building was of such an interesting and instructive character that special efforts are being made to eclipse former years. In the Art Department there is a new departure and one which has already proved exceedingly successful; artists are allowed the privilege of disposing of their productions by private sale and public auction; by adopting this course and efforts of Secretary Browne the have secured a magnificent collection of Works of Art by British Masters, containing paintings valued at £1000 sterling. A sight of these alone would well repay a visit to the Western Fair, but when they add such special attractions as the Wild West Show, Trapeze Performances Fancy Rifle Shooting, Fire Engine Contest, Cross-cut Sawing Matches, elaborate Fire-works Displays, Baloon races by lady and gent, Bands of Music, etc., where can we go that we will receive so much solid instruction and enjoyment at such little expense as to the Western Fair in London, next September 17th to 26th?

CITIZENS.

We keep
in stock
a superior
quality of
Letter paper

THE OLD RELIABLE

Sydenham Mutual Fire Insurance Co.,

22 years before the people. Is 50 per cent. cheaper than the next cheapest, and as safe as the safest. The only purely Farmers' Company doing business in the County of Grey. 37½ cents on the $100 for 3 years is the highest the Policy Holders has ever paid. The Sydenham insures at two-thirds the actual value, and in case of loss pays the full amount of the risk.

WM. A. DAYMAN, Agent, Walter's Falls.

NOTICE to CREDITORS.

Pursuant to an order of the chancery Division of the High Court of Justice, made in a cause, Hugh Lougheed, etal against Elizabeth Lougheed etal, the Creditors of Daniel Lougheed, late of the Township of Euphrasia, in the County of Grey, who died in or about the month of September 1890 or on or about the 29th day of July, 1891, to send by post prepaid to Messrs. Creasor, Smith & Notter of Owen Sound, Solicitors for the Plaintiffs, their christian and surnames, addresses and descriptions, the full particulars of their claims, a statement of their accounts and the nature of the securities (if any) held by them, or in default thereof, they will be peremptorily excluded from the benefit of the said order; and all persons holding any specific or general lien or incumbrance upon the South half of the west half of Lot number 12 in the fifth concession of the township of Euphrasia, containing fifty acres, or upon any part or undivided share thereof, are to produce the same before me, together with full particulars thereof and satisfactory evidence of the amount due thereon, at my chambers in the town of Owen Sound, on the 31st day of July, 1891, at 10 o'clock in the forenoon, being the time appointed for adjudication of the claims.

Dated 30th June, 1891.

(sgd.) ALFRED ROBT. Local Master.

The New Canadian Magazine.

Canadian literary Monthlies have been short-lived; but CANADA, the new one dolla magazine, has evidently come to stay. Since it was started in January, it has been enlarged and improved with almost every issue. Being broadly national and thoroughly patriotic, it draws its subscribers from all over the Dominion. Its articles are short and bright and all by Canadians writers or on Canadian themes. To those who remit one dollar before Sept. 1st, the publisher will send CANADA for EIGHTEEN MONTHS—from July, 1891, to Dec., 1892. Address: "CANADA," Boston, New Brunswick.

THE BEST FAMILY PILL IN USE

FOR SALE BY ALL DEALERS

Keep the Works in good order.

W.-H. COMSTOCK, Brockville, Ont.
DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time pieces: frail and delicate are many of its works. A little particle of foreign substance adheres to the smallest wheel in the works, and what the result?—at first, only a slight difference in its time-keeping, but wait you; as greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleaning the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. P. ATWELL.

The Travellers' Safe-Guard.

AMAGANDUS POND, N.S., Jan. 27, '90.
W. H. COMSTOCK, Brockville, Ont.
DEAR SIR,—For many years, I have been a firm believer in your "Dr. Morse's Indian Root Pills." Not with a blind faith, but a confidence wrought by an actual personal experience of their value and merit. My business is such that I spend much of my time away from home, and I would not consider my travelling outfit complete without a box of Morse's Pills.

Yours, &c.,
M. R. MCINNIS.

A valuable Article sells well.

BOSCAWEN HARBOR, N.S., Jan. 12, '90.
DEAR SIR,—I desire to certify that I deal in Patent Medicines, including various kinds of Pills. I sell more of the Dr. Morse's Indian Root Pills than of all others combined. Their sales I find to be increasing.

Yours, &c.,
S. L. NICHOLSON.

NICOLET NOTES.

"I suffered continual pain from rising of the stomach and my breast and back was almost covered with pimples. I tried Burdock Blood Bitters, the first dose ceased slight pain, but I soon found relief, and by taking 5 bottles I became completely cured. I think B. B. B. the most powerful remedy known to science."—Stephen Edge, Nicolet, P. Q.

Meaford, June 12, 1891.

Dear Sir,—In answer to your enquiry as to how I was treated by the Sydenham Mutual Fire Insurance Company, I must say our Company acted most honorably with me all through. I was paid the full amount of the insurance $1150, within 30 days of the fire.

Yours very truly,
DAVID McCAINS.

SINCE CHILDHOOD'S DAYS,

"I have been bothered with neuralgic pains in the head and face since childhood and have tried all possible remedies. A friend persuaded me to try Burdock Blood Bitters, and after having used it I obtained instant relief, and thoroughly recommend B. B. B." —Tim Inglis, Brockebury, Assa.

"Freeman's Worm Powders destroy and remove worms without injury to the most delicate.
