BREAD FOR EUROPE.

It is one thing to raise crops and another to harvest them, and still another to find a market for them at prices which will yield a profit on the cost of raising

An abundant harvest has not always proven the most profitable to the farmer. A small crop sold at high prices often nets more real profit than one number ing double as many bushels, but with such similarly abundant crops all over the world, every one becomes a seller, and there are no buyers.

The situation this year is phenomally advantageous to this country. Such a promise, spow almost realized, of an abundant Parvest, this country has never

It is now thought that over and above the amount needed for her own use Canada will have 22,000,000 bushels of ill afford to lose. The hotel was a credit to wheat for export. Similarly good crops are reported in the States and the exportable wheat from that country, it is, estimated will reach 200.000,000 bushels. India. Australia and South America willeach contribute some over their own consumption, but with all this, comprient authorities estimate that Europe will be short of bread for the comingyear, and some go as far as to state that a world wide famine is close at hand tions. Were it advice that was wanted, a with greater suffering and distress than letter to be written or business more intricate has ever been known since the dawn of to be transacted, his services were at their

The London News comm enting on the Situation says alt is not many years The neighbors are making their sympathy since Europe was practically independent of American supplies. This season new building, not that Mr. Dodson's financial it is clear that without America's help Europe would be on the verge of starvation before next harvest." Great Britain is short at least 160,000,000 ent of help, but they are doing it as a recogbushels, France nearly as much, and there is a large deficiency in Germany, it. The new building will be larger than the while the other countries of Western old. It is to be hoped that its erection will Europe it is thought will require about 100,000,000 bushels over their production to meet their demailds. Russia is in very bad shape, the loss of crops being so general that the government has just prohibited the export the grove grain this year, and it is said to fissing of the provinces of that could famine abready exists.

The London papers declare that "The impressol America are masters of the itastion and it is to be hoped that they will use their strength mercifully."

i he situation looks grave for the bread says of Europe, althought we do not contemplate such wide spread suffering some predict. With her corn as well wheat, America can do much towords satisfying the hungry mouths of Europe and still keep well fed herself; but the law of supply and demand redates the question of prices as well. in breadstuffs as in everything else. i aroje has money, and is short of food we have food and are short of money.

We will be more than glad to give her hungry people bread, and hope that she all be more than glad to give us the With such a situation as thus presents

in their is fair to assume, that this is oing to be a red letter year for Canada Muxlow on Sunday last. hat only is she going to have abundant ops but she is going to have an activ market for them at liberal prices.

Beaverdale.

The weather is not very favorable for harvest which is just ripe and is, on the whole, a good crop. Mrs. Turner of Cataract, Ont., is visit-

ing her daughter Mrs. A. Ormsby at The Beaverdale mill is in fall blast

and Mr." Martin intends keeping her days. Our little hamlet is hohored by whistle of a celebrated Morris & Watts

threshing machine purchased by Fother will Brose & Co. Mr. Frank Graham the noted Mark dale implement man passed through town vesterday on his way to the Fair view-farm to start one of his far. famed Massey binders for Mr. Alex. Ersking.

There has been great rejoicing on the Ormsby estate over the arrival of a prices which were rather lower than We met a gentleman of this place the other day with a bundle of crotched sticks on his arm and could not think what he was going to do with them but. Maxwell.

Harvesting is now the order of day, weather is dull, roads rather winter is coming and news is scarce. Mr. Fields shop is being shingled a we expect soon to see C. M, working in his new shop. The school house I been shingled also and has been repaird

pleted and the brick work of Dr. Scott's house is being built.

Mr. Scutt has completed the buil of the bridge over the river and has made an excellent job of it.

Chas. Heron and George Long have returned from Parry Sound from the camp meeting.

Mr. Strachan from Wareham is going fort. to move to Wm's. old stand where he intends doing business.

Our teacher Mr. J. L. Wood is at work so that we can now hear from the school bell at times.

A foot-ball match was played between Maxwell and outsiders a short time ago, which resulted 2 to 0 in favor of the Maxwell boys. Good play [was made on both sides so that all were fairly well

At the time of writing we are glad to know that Mrs. Kinner's health is improving and hope such may be the case

until you hear from us again. Mrs. McCallum moved to the Walter's Falls.

Very wet and disagreeble.

A great deal of the grain in the shoc beginning to grow.

The few farmers who have sown fall-

vheat, are rejoiced to see it up green he same week as sown. Rev. Mr. Moyer preached to a very large audience last Sabbath evening, taking as his text "What will it profit a man if he gain the whole world and lose his own soul or what will a man give in exchange for his soul." The Rev. gentleman handled his subject in very able manner. Our Methodist friends are to be congratulated on their uccess of obtaining the service of such

Priceville.

The crops in this part are better this year than they have been for many years. The grain is filled up well, and if nothing happens it, the farmers wil all rejoice at a bountiful harvest. The last fair held here was much larger than former ones. Quite number of cattle exchanged hands a

Never in the history of this place sere seen more agents flitting about from place to place than this season study for the ministry. They would

evidently make efficient preachers.

Mr. Donald McArthur of the town line north of the village has been ill for some time past. He is considerably aged and naturally getting frail.

The Roy. Mr. McLeod was out t Flesherton last Tuesday attending special meeting of Presbytery at the induction of Rev. Mr. Wells.

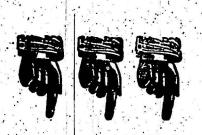

Mr. Walter McAuley who was home on a visit to his family during the last two months returned to Algoma last Friday. He intends some time in the near future moving his family up there. We are losing some of our citizens in the persons of Messra James and Robert Watson. The former left at the be ginning of this week for the village of Bognor, and the latter will leave short,

ly for Walter's Falls. It is to be hoped they will lio much better there. The culler was up to Mr. McGowan's umber yard last week. Mr. McG. shipped two dar loads. BRIGHT IDEA

In a few more weeks there will be a general shifting of stoves to their winter quarters, while many new ones will be required to replace those which have done duty these many years. The

now being reaped will gladden the hearts of the people both in town and country, and revive trade in every direction while the certainty of

HIGH PRICES

for grain produce will also have an exhilirating effect. Put these two important facts together and then think of the great fall in the price of stoves recently and you connot but conclude that it is a bright indea to embrace the present opportunity of securing one of those

CHEAP STOVES

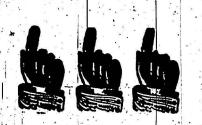

from Haskett Bros.

If you have any intention of purchasing a stove you should first examine the boss of all stoves appropriately named "Bright Idea" which is universally admitted to be the best cook stove in the market to-day.

We want the ladies especially to call and see this superior article. It is just the stove you have been wanting for many a day. Notwithstanding its many excellencies and superiority over all others the price will be found as low if not lower than that of the average stove.

COMBULT YOUR MEIGHBOR A NY one may find out just what Burdock
Blood Bitters is and does by asking a
neighbor who has tried it. It rarely falls in
making a complete cure of dyspepsia, constipation, sickheadache,
diseases of the stomach, liver, bowels and
blood.

An old physician, retired from practice having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for Consumption. Bronchitis, Catarrh, Asthina and all throat and Lung Affections, also a positive and radical cure for Norvous Ilebility and all Nervous Complaints, after having tested, its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering.
