MARKDALE, SEPTEMBER 8, 1891.

**A LIVE INDUSTRY.**  
Armstrong Bros. steam saw mill and factories are located about twenty rods west of the Canadian Pacific Railway station, and a visit to this thriving establishment cannot but prove interesting and gratifying to any citizen who desires an evidence of the progress of our town.

The premises comprise 350 frontage with six buildings all connected by steam piping for steaming purposes and wire rope for the transmission of power, also a complete system of tramways and drying racks, and a large pond of water at the west end for preserving the logs during summer.

Here the gigantic trees of the forest are being transformed into Lumber, Cheese Boxes, Cheese Box Stock, Fruit Baskets, Egg Cases and Sewing Machine Tables in a manner surprising to the uninitiated.

The saw mill, which is thoroughly equipped, does its portion of the work chiefly during the winter and early spring months while the other departments begin the first of May and are continued through the summer in full swing.

The growth and development of this industry has been healthy and vigorous and is now a source of material revenue to the place.

In the first place thousands of dollars are paid out annually for the raw material, chiefly soft coal, a timber which until recently was considered of little or no value. This money goes directly into the pockets of farmers in the community.

Then there is the wage bill through the season paid to employees in working on the rough logs, amounting to from \$125.00 to \$150.00 per week.

The mode of paying wages is very systematic and deserving of a passing notice. An office having been erected on the premises the employees—ranging from twenty to twenty-five in number—repair thither at 6 o'clock on Saturday p. m. and each is handed a sealed envelope containing a name of his time and his wages for that week, thus a very important matter is disposed of all in about five minutes.

The various kinds of material produced is of a uniform superior quality, and there are no reasons for this.

In the first place the timber of this district is a 1

Then the plant and machinery is of the most modern and latest improved class.

And lastly, the members of the firm are experts with machinery and are by nature eminently qualified to manipulate the most intricate parts of the business with singular ingenuity and ability.

**DUNDALK.**  
Farmers are longing for dry warm weather. At time of writing, the prospects for good harvest weather are improving.

The Rev. of your village was in Dundalk one day last week.

Our junior football club went on Friday to play the youths of Plover, and were defeated, score 2-0.

The trial growing on of the recent riot still continues. Two more were committed for trial on Monday. There is an idea abroad that the cases might have been tried summarily, and disposed of here, and the one side expect the Grand Jury to throw the case out.

The result of the recent census was made known to Parliament last night. Of the figures it must be said that they are extremely disappointing. The total population in 1891 is placed at 4,823,344; in 1881 the total was 4,234,000. The increase in the decade has therefore been 589,344, or at the rate of eleven and a half per cent.

The result of this influx ought to have been shown in the returns. Had it this appeared, our population today would be 5,210,981 instead of only 4,823,344.

The result of this influx ought to have been shown in the returns. Had it this appeared, our population today would be 5,210,981 instead of only 4,823,344.

**HASKETT BROS.**  
MARKDALE  
We are now offering a choice line of PARLOR, COOK and BOX stoves purchased for spot cash from old and reliable factories; this enables us to offer the best at the very lowest prices.

Our leading stove the prince of all cooks, "BRIGHT IDEA" is entirely new and original. It embraces every necessary convenience and improvement some of which are patented and cannot be had in any other stove.

From our long experience in handling stoves we have no hesitation in saying that we are offering better stoves for less money than can be had elsewhere in the Province. We want all to inspect these stoves. It is a golden opportunity and may not occur again in a lifetime.

**HASKETT BROS.**
