# Autumn Jackets

It is still rather early to predict what yle of garment will be most popular for Attumn year.

The difference between autumn and summer jackets is to be seen both in color and in cut. Irobably the most popular garment this summer has been a jacket with open revers rolling from top to bottom, with not the smallest indication of a button or other rolling from top to button or other means of fastening. A girl wearing one of these jackets has a jaunty air, but as it leaves the throat and the chest exposed it cannot be worn late in the season. Sum-ner jackets have been made of white cloth, or of light and medium colors. Black and dark shades will reappear as the cooler

"Scarcely, such vast sums as are talked of are not carried in one's vest pocket, nor expended by one member of a concern without consulting his associates. The owners of the Louisiana Lottery are now scattered over the globe seeking peace or pleasure actfuling to their condition or taste. Mr. Mori ris, withfriends, have been for weeks, cruising about on his yacht, and I doubt if any one has communicated with him on business of any description. Certainly he is not giving himself any concern about lottery business, and I repeatthere is simply nothing in this alle ged San Francisco, story oxcept idle gossip, so far as I know, and I think I know all the facts. The Louisiana Ecttery Company will live out its dilotted time as fixed by its vested rights, say a couplo of years longer, doing its business here as it always has, and abiding by the popular decision in the recent contest."
