The rain having had its day we may look for some fine weather. It is reported, that one of the picuie party which went into Owen Sound to the fall assizes while driving home with his lady was overtaken by the darkness and rain and had to get out, and lead his horse. He arrived in the village in a rather delapidated condition.

The people who were away for the fair report a large crowd and a good exhibit.

Rich. Olmstead and Percy Brown started on Saturday for the North Shore for a few weeks shooting, Preparations are being actively push-

ed forward for the "Central's Greatest Fair" which takes place next Tuesday and Wednesday, 27th and 28th. This will be the fourth annual exhibition, and the present indications are that the display of live stock, Agricultural Horeicultural Products, Arts and Ladies Work will far exceed that of any former year. The Society has just issued a neatly printed publication containing the list good deal of complication was between

public generally. A glance over the accounts on both sides were between prize list shows increasing liberality on the parties, one note and account being the part of the Society in the encouragement of the different classes to be re- tiff wanted to apply the accounts of the ment of the different classes to be represented at the fair. ## Eugenia.

DEAR SIE.-I thought to have had done with your correspondent who calls himself "A Methodist" but please excuse me referring to his erratic promination, Arrogancy or Tyranny whichever you choose to call it, that I dislike. All I said about Corcoran can be attest-

that Salem did not belong to the body until some weeks after he had told the congregation at Salem that there was to be no more, preaching there, when he was told it by Mr. Latimor at a meeting in Kimberley. Methodists are like other men, they cling to the church of their fathers as long as they can, altho there may be much about it that they don't like, and I know many intelligent, God fearing men, who will take no part in church work, simply because they think the clergy are "running everything" with a high hand, and in all likelihood the next generation will abandon the church altogether if the clergy (more than Methodist) continue to "Lord it" as at present, these are not my sentiments alone, thousands more feel as I do that the plergymens place in the church is to give themselves "continually to prayer, and to the ministry of the good"

Act 6 and 4th, and leave outside or gravei, bo. in D. McDonald, expenses secular matters to Deacons. Stewards. or Managers, then and not till then will congregations prosper. A very small lectors rolls and advertising road deminority are carried about with "every wind of doctrine," they are Presbyterian | one day, Baptist the next, Methodist today and looking eagerly over the fence to see where to go next.

The wet weather is hindering farmers men, a lat of harvesting is still to do, and Fall wheat should he got in. Potatoes are suffering badly the ground i so wet, and on low heavy lands particularly. Disease is developing rapidly, thry bracing weather would help to stay its progress.

Harvest apples are so plentiful there is no market for them. Our store keepers are purchasing crab apples; last week Hogg and Cairns bought a few lots at 25 cents a bushel, this morning Duncan is offering as high as 50 cents for real obpice varieties, doubtless he will secure a large quantity

consus of our Dominion. But when a man's heart is wrong and his mind warped things take on shapes and forms that do not belong to them. Once upon a time a drunkon man was following a load of hay. To his fuddled brain the load was tumbling over, so he shoust to the man on the load, master, master, your load is going over, and just at that moment he himself fell into the ditch. The difficulty was not with the load of hay, but the man, and so in this case I fear the trouble is not with the church, but in the man. But to return, if your correspondent is a Methodist, he is certainly not loyal to his church, for if he were he not loyal to his church, for if he were h would agitate in a conscitutional man-ner, Om Quarterly Boards, District one renews and Connexional legap are all open for fair discussions and legal to the legal of the if heards right on his side he can always carry a following, but if a crank he can-not, and hence he resorts to the secular

Then, again, this professed friend of Methodism knows little about our ethods of work as is evident fro tters, and yet this is the man who sits n judgement upon her doings and pro-nounces her ministers tyrants and her nothods tyrannical. As another Layman nd one who has had the opportunity of seeing her works in the different courts of Quarterly Board, District Meeting and annual Conference, having mingled with our ministers in the above namedigatherings, having marked their spirit, I must pronounce the statement of your correspondent regarding them a base fabrication. The facts are these.

it is on the side of the faity, and yet such is the nutual confidence of minist-ers and laity in each other, that our ministers go to their soveral charges without even a stipulation as to what their sidary shall be. This is just as it should be, confidence and brotherly love prevailing on both sides, and surely anyone who would try to disturb that harmony and create suspicion must be in-fluenced by the wicked one himself. And now in conclusion I would like to know what this layman is doing in his own locality for Christ and His cause. My experience is that when a man is full of ault-finding, grunting and grumbling he s not doing much useful work. I would benevolent objects. Sam Jones tell's a
