After the spanish occupation of the Grand Canary a certain enormous stone was for a long time pointed out as the one of the instruments of the Gaunche athletic courses. The natives had been able to lift it, set it The natives had been able to lift it, set it on their shoulders, and even throw it over their heads. Their degenerate posterity and the Spaniards could not raise it from the ground. Tradition has immortalized one Adargoma of. Grand Canary, who, could wrestle for two consecutive hours, and having been thrown undermost in a certain contest set his automated between his legs and ing been thrown undermost in a certain contest got his antagonist between his legs and arms and squeezed him so that his bones began to crack. The native was subsequently sent as a prisoner to Spain where he astounded the people by his performances. One day, in Selville, he was visited by a brawny youth of La Maucha, who was anxious to try a bout with him. "My good friend," said Adargoma, "As we are going to wrestle together it is only reasonable that we should begin by drinking something." A to wreatle together it is only reasonable that we should begin by drinking something." A large bowl of wine having been brought, he took this in one hand and continued to address the challenger: "If with both your drois the chainenger: At with more your arms you can overpower one of mine, so as to hinder me from drinking every drop of this wine we will try our strength together.

If not you may return to your home." The this wine we will try our strength together. If not you may return to your home." The struggle took place, and Adargoma by degrees drained the bowl in the coolest manner without spilling a drop of the wine. His one hand was more than a match, for the

two. It was reckoned nothing out of the com mon for a man to take an untethered ox by the horn with one hand and slay it with the other, A native born priest of Grand Can-

the ship for fear that she might wreck other vossels, so as they shoved off the torch was applied, and soon afterwards she blew up, as there were explosives on board. "After staying together two days," said Sullivan, "I decided to push on, as my boat was the lowance, half condensed milk and water and three biscuits a day; canned meat at morning meal, and in the evening one tin of fruit was used. On the teath day our water and lowance of wine. On the 14th signs of weakness were noticeable in several of the men. Twenty days out and all our liquids exhausted. The men behaved well, with the exception of three Chilians sailors. The mon noticed that the Chilians seemed to than themselves, and it was decided to asset creain the way they did it. Watch was asset eating from the rations of the sleeping sail."

In the same of the seemed to the seemed to the same allowance of rations better than themselves, and it was decided to asset creain the way they did it. Watch was sail I could do to save the lives of these Chilians, as seeveral of the men drew their knives and swore to kill the thieves."

In the same that low and soon afterwards she blew up, as a thick and in that or day in the torch was had."

Was the likeliest hustler that old man McCray could get.
