CHAPTER XXVII GET INTO THE HERMIT GE.

It took me ton days to complete my prenations, and some of the nights as well.

First of all I made a journey to Tavistock, where I bought a pony, a bushel of flour, where I bought a pony, a bushel of flour, and a pain of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any of the failed to find what I wanted at any the failed to find what I wanted to fail wanted to fail when I wanted to fail wan

a pair of scissors, and a targe timine, a pair of scissors, and a targe timine. These things, with what I had from Tayes. These things, with what I had from Tayes took, seemed to be all I needed; but catching sight of a pair of rusty hamiteuils that hang up outside a curiosity shop in a back hang up outside a curiosity shop in a back hang up outside a curiosity shop in a back hang up outside a curiosity shop in a back hang up outside a curiosity shop in a back hang up to the stall hour fa.

Having god my materials home, I carried them into the upper room, where I thought it advisable to do my work, less by any activities and the sum of the upper room, where I thought his way, might discover the hut and copie in a might discover the hut and copie in the activities as nearly like those I had seen directly and the conduct man at Dartmoor as a fould made conduct man at Dartmoor as a found made conduct man at Dartmoor as a found made see. It was a long and treason j is, for I knew nothing about tailoring, and could it affect had have I had been a latic training a pair of breeches and a latic training fairly; one side black and the conduction on the other, and the square the conduction of the color had bought for the paper for head arrow, which I painted with the attist had left under his best and it was a slop jacket, decorating it freely with the attist had left under his best and the finishing touch I treat the latic training one day in order to pure the finishing touch I treat the latic and tettle my allatic way. Mic. It was a feeling one day in order to go and earth to defect of newness. When all was revery well satisfied.

I had been compelled to que in the first and conduction in managed to the first my distribution and tettle my allatic way. Mic. It was a feeling one day in order to go and earth to defect of newness. When all was reversed to an earth to defect of newness. When all was reversed to an earth to defect of newness. When all was reversed to an earth to defect of newness.

formerly. I even ventured; to a spellegy for my previous to a My dear sir, " said to, " w

pect you to behave like an or after such a long tetm of such only wonder is that, unlike to only wonder is that, on the formatice, and whong, you preserve on."

Having condinded that begonerity, and rejected the hardon account, with permission to Mr. Renshaw for any furthers require up to althousand pointed days," notice, I took the items. Torquey, where I paid Mrs. E-mainder of the purchase money. e.What name shall I quit, su

when she sat vlown to were "John Gregory," I unswere hesitation, having sectifed being From Forquey I walked to be a readside inn that her between and Totness, where I stand unt. to close, wishing to make sme the find my way become in the dark, ready made the journey feet to the but while it was yet held a ing in the semi-dakness of sight. Although the sky was night. Although the sky was a girt I freached my destinatione going acteay.

At last the day came to take great step. I was upnet daying all the shreds of clothes. that littered the floor. The ethe stove, leaving not, a morsel stuff that could be tray me. I the science and placing mystic glass, I set to work clipping in hair, which had grown to length, as close o my tace, and steel would go. It was k more than I expected and i give

than one jay in dupping my h. but in the end I had the grow of eccing my head deriver to look of an honest men into a of a grisly convict. I was lastill when I looked at my. oli .. ed in barred stockings and clothes I had plante. The I looked as chained up in prison baic. chained up in prison to it may had deserved my purishment, a pocket inside my to take to my clasp kinter and the two breaking the links that justed

Over this cost time I do pharacter of a ship per. myself in the gloss with long, thin face, seen unlied tied down under the claim was ored handkereluet, Louis to misery, like enough to one ate wretches, wathern. who gets a mengre rubsered the shores. There were and the snores. There were a my sunken eyes ased the hard lines of my the years passed in duft it is hopeloseness. I should purely a gave the pony energy

the basket slung on my see that there was too! studied archage shrimping not, closed and started off action to It must have been to when I got down to to beyond the Horman It was nev theen until supper time facte ber of small boat ne that a regatta was the present time would. any for getting into the had been brillian, and I

mylpleasare-lovi g v, it opportunity of atturbed him by ing by finery. My ining decided me to make the house of the boundary of the bou a point just op perte the private road, which e pen I the house and the it stood. A group of .

dresses and what courses and what the course was ledden of through a telegraphy. "When the p'ay," said I to ver el. There was not a menter the aside my not, at I can until I oached the iron each the side path to the holes, is a I Descent through way along the shrubbery. Preto where the path forked in two.
I had not noticed a recent dark; which should I hake dow

was standing in doubt I shot footstep, and before tempt to conceal copy for plantille and lie and learned indleaged woman stormers. I had decided wird I must a contract any one, as I to small my shoulders, and warmone apprexion. I matrixed sometic charity and a sick wire.

The woman looked thine, an hand in her no cket a true as mand in her no cket as the same and and in her no cket as the same and and in her no cket as the same and and in her no cket as the same and and in her no cket as the same and and in her no cket as the same and and in her no cket as the same and and in her no cket as the same as the same and and in her no cket as the same as the sa d in her pocket; after a monde Thaten't never a penny, my;

but the servants are up there to She pointed the way along the had descended by a movement of and went on while I mamble As son as she was out of se the path she had indicated set, perceiving that it led, in by, to the back of the boase, on would be situated. I was not mistaken; in a complete I was not mistaken; in a complete I was at the kitchen door;

I had reached the passage beyond it in the more I was half way up the bedre on ideal There I stopped short, hearing you and langhter. Locking over my should be always a couple of girls just category the half by the door opening mon the left way. They must see me if they booked up What should I do? The rustic my or skin trousers would attract them attention II moved quickly. his trousers would attract them if I moved quickly.

If Inoved quickly,

If h, my ou taxts; I quire forget them
clickone of the women, chapping by hunder
then the pair bo ted past the stains on their
way to the kutchen, one laughing an if the
other scolding.

ther scolding.
And now I had orcaped this danger, And now I had excaped this daulger, mow was I to escape the next? At any moment a servant night come upstairs, and I must find a secure hiding-place before that, or lose the game. How was I to daulguish my wife's room from
