A CIRCUMSTANCE happened in a certain school section recently which nearly ended fatally. The teacher while teach ing a tablet lesson to a small class came to the word "husband" which they spelled out but could not pronounce and to assist them the teacher asked what she would have if she got married. The answer came so unexpectedly that she sat down and asked the scholars to fetch her a drink of cold water.

No Full Moon.-The moon made unends for getting full twice in January by not getting full at all during Feb. That is perhaps the humorous aspect but there is a more inferesting one in the fact that a month without a full moon only happens once in about 20 years. The irregularity is not in the moon's habits, for they are of the great. est regularity. It is the irregularities of the calender that places Luna in this alse position. The interval between the moon is always twenty-nine and all days, so that Feb. is the only nouth that possibly can be without a
