**Physician Heal Thyself.**  
Toronto, June 5th.—A physician of the County of Leeds has written to a friend in this city about his complete cure of an aggravated form of diabetes by Dood's kidney pills. The doctor in question would not for the world have his learned brethren know that he had given commencement to a patent medicine. He humbly admits that some of them would deem it professional conduct for him to take the pills; and to be cured by them—why that is the greatest triumph of professional etiquette. But cured he has been, and he is prescribing them to his patients. Modern physicians admit that diabetes, neuralgia, rheumatism, neuralgia, kidney troubles and kindred blood troubles are caused by the deranged action of the kidneys, and that these diseases are only to be cured by an agent that acts directly on the seat of disorder. This is why Dood's kidney pills have proved a certain cure to all who have tried them.

**Presbytery of Owen Sound.**  
(From O. S. Advertiser.)
