CHURCH OPENING.

Last Sunday was a red-letter day in the history of Harkaway Methodists, being the officion of the dedication of their new church. It is located six miles from Morkdale and the same distance from Walters Falls-in the heart of a splendid agricultural district, settled with an intelligent progressive people-and is built on the opposite corner from the old place of worship, on a half-aere donated by the late Adam · Halbert.

The building is next, compact, comfortable and well finished and will hold pleat 4:0 people. The basement is a fine piece of come masonry while the hadin body is solid briefs. The cutsido presents a pleasing appearance, while the interior combines beauty with comfort and isaltogether a credit to the him on the mend. congregation as well as an ornament to the heighborhood.

The weather on Sunday was all that could be desired and the attendance at the isservice was more than the building weekly contain, especially the 2:30 service when a veral limited were unable to mila beloutence. Rev. A. Cumingham, product of the Conference, preached air able and interest, practical sermon at 1950 from the words: "Now unto hird titat is able to do exceeding shout only above all that we can ask or think, recording to the power that walleth in ma after which the dedien-Tory service was held, the president and Rev. Casson, a former popular pastor, openiated the public and delivered an pide discourse from Matt. 16-18. The spenker's old parisheners were delighted to see his fundiar form and listen to his effection attachness. In the evening the district chairman preached an appropriate and powerful sermon from

The program consisted of music by the choir which was fall; rendered and, much appreciated, a short address from Mr. D. B. Keelyl a stirring and humorous speech by Key. Mr Casson, a recitation by Mi . Lizzie Hawken, "The Old Chareit," and an appeal for the balance of the cost of the church by the district chairmen, R v. Mr. Rupert, assisted, by Rev . Cauningham and Casson. The t and cost was #2500 and of this amount shot was yet required, and before the meeting cheed the whole amount was raised and post over, leaving the church debt entirely provided for. At this juncture the audience rose and sang "Plaise God from Whom all Blessings Flow." After some, announcements were made the auspicious and successful dedicatory occasion was concluded by the singing of the National Anthem and the benedletion by, the president

A Place for Talent.

In nearly all regulated lines of indus ry at present the advertising man is one of the most important adjuncts of a business. And on the other hand the advertising department of a first class newspaper is not what it used to be, but is instead fast becoming an interesting feature of all enterprising journals. Formerly the prevailing idea among the uninitiated was that the talented, the best, most versatile and most meenious writers and artists were all employed in the news department. How nearly correct this idea may have been need not be stated, but that such is not the case now may be seen by a perusal of the "ads" of any flourishing paper. The competition between the merchants and between the papers' agents have become so great that the great wholesale and retail houses of the large cities employ talented men at big salaries to attend to their advertising alone, and the men who want the best positions in the counting rooms of newspapers must combine fine business qualities with the talent that wins success in the editorial

That one is Dodd's kidney pills. Their sales never fall off. I get them in five-gross lots, and it takes no time to get rid of that quantity. Last year, three ousand dollars were netted in this vay to assist the poor corps, and there s every prospect of a far larger sum than that being raised on this occasion

The Toronto Exhibition promises to be a most attractive affair. Gifts of all kinds will be forwarded and tastefully exhibited there! The Salvationists of the far west propose to contribute wheat, cattle, and canned goods; whereas Newfoundland is being asked to contribute tinned and dried fish. Wood. oil, and coal are also solicited, and manufacturers are being asked to give

Commandant Booth hopes, by this acans, to replenish the store houses of the Social Institutions and Homes for sick officers, so that it will be unnecessary to spend money on liousehold goods.
