Our Country

FROM MANITOBA'S STAND POINT.

Edito Standard.

It was something of a surprise to your sunny friends in this part of our fair Dominion to read in your issue of Nov. 16, Mr. Richardson's letter making the *provident sons* of the West responsible for the financial depression which has existed in Ontario for a number of years.

I am sure now that "the boys have come to themselves" as they do not have after reading Mr. R. L. Leifer they will arise in a body and go to their fathers. What a return of prosperity according to Mr. R.

I am sorry that this is not likely to happen right away. There are two reasons for this delay: 1st Mr. R. L. Leifer says he can't go, 2nd the boys say they don't want to go. Poor Ontario, that she should be deprived of a speedy return of her promised prosperity—and prodigals! Your correspondent wishes us to understand that they carried with them the wealth of Ontario. It has been my good fortune to meet many of the young men who left Grey Co. for Man. and N. W. T. and do not know one who carried with him \$100 from the parental treasury. On the contrary, very few had more than \$5 to \$25 on arriving at Winnipeg. Add to this \$25 for a first class ticket from Toronto to Winnipeg and \$10 for other expenses making in all a sum of about \$40 on the pockets of our fond parents! Does \$60 represent the difference between success and failure? If it does I am sure the boys from Markdale and surrounding districts would gladly return what they supposed a free gift. Think again Mr. R. L. Leifer and I believe you will admit that the boys did not get much money to start on.

Let me assure you that the boys will find that the boys would gladly spend more than that sum just to show him the country and enlarge his ideas.

When he says, thousands would gladly return what they supposed a free gift, I think again Mr. R. L. Leifer and I believe you will admit that the boys did not get much money to start on.

What they did get was a good education in hard work sound bodies and an ambition to earn money that they might spend without having to give an account for the same.

Let Mr. R. L. come west and he will find that the boys would gladly spend more than that sum just to show him the country and enlarge his ideas.

What he says, thousands would gladly return what they supposed a free gift.

Don't be taken in by the west Mr. A. If the boys come back, they could very easily return. You don't very little capital and little loss, but if you can scarcely expect the boys to work all their lives for you nothing.

If prosperity is indeed returning to Ontario I am glad of it, but I am quite sure the prodigals are not yet ready to return.

Thank you for your space, I remain

A FERDIE MARKDALE BOY.
