## The Doctor's Letter.

AN IMPORTANT COMMUNICATION FROM PROMINENT PHYSICIAN THAT EXCITES
WIDESPREAD INTEREST: 118 CON-TENTS WILL BE GOOD NEWS TO SUFFERERS FROM KIDNEY DI-

TORONTO, Dec. 4th, 1893 .- The letter rom Dr. E. Rose, a fac-simile of which appeared lately in the leading Canadion p pers, is well worthy of consideration. The doctor lives in Portland. Out., where he has a large practice. He stated in his letter that he had been cured of diabetes and blood-poisoning by Dodd's kidney pills. As he is well known throughout the province as a reliable man, his statement stamps tho remedy as one of remarkable value. Kidney diseases are more prevalent today than any other, and Dr. Rose's experionce will prove of use to many other victins of kidney disorder, by directing them to a reliable remedy.

### Our Country

I was somewhat amused on readin a last week's STANDARD the commun cation from "A Former Markdale Bo ful patent bobsleigh, manufactured and He selects a minor point in my letter o patented by Jackson of Kendy. Be sure a former issue and devotes a half column of space in trying to thresh it out. He Parties having timber to dispose of would have your readers believe that few will find it to their advantage to call on if any left this county for the prairie propsas we want a larger quantity than | vince with more capital than from \$60 to \$100 white we all know that scores oft rain loads of farm implements, stock, household effects we, were taken to the west It's a satisfaction, however, to know that ome of the emigrants are prospering and am sure it will be a gratification to learn from time to time of their con tinued success, but the fact remains that The Saturday Edition of the Toronto | the present, and contentment now pre-Daily Mail is a beautiful paper full of vails in Ontario resulting in Indoubted the news of the world and special articles evidences of prosperity. I could name several who have returned to Grey, and others who intend to as soon as they can, and should "A Former Markdale

> Yours truly, W. RICHARDSON.

### After the Fair.

The great Columbian Fair has gone will hardly be a vestage of the White Its success was recorded from day to day if pictures around each bar. Ainmonia, in the numbers attending and the beauty and extent of the display. Butthere were other features of the slow, little noticed by the people, but which helped materially to make the exhibition the success it has been generally voted They were the wheels within wheels without which the machinery of so vast and intricate an enterprise would not have moved as smoothly as itdid. The great attendance of 21,469, 161, exclusive of the 6,052,188 who went in on passes making a total attendance of 17,539,041, has been recorded. It has also been told that the total receipts will be almost \$14,000,000, as compared with \$8, 300,000 at Paris m 1889, the only fair which offers an adequate comparison with Chicago. But the success would not have been reached had not the facilities for getting to the Fair grounds been ample. . The great work done by the Chicago street railroads can be estimated from the fact that one, company transported 78,000,000 passengers from May 1 to October 31. Another company carried 22,500,000 passengers his neighborhood a short visit last week during the same time, and the total number of passenger carried by the city MEAFORD MONITOR .- Mr. N. and Miss lines while the Fair was open undoubtelly reached 150,000,000. And yet notwithstanding this enormous increase, the number of casualities was much less in proportion to the business done than last year. Safety in street car travelling has approached near to perfection when only 26 passengers out of 78,000,the Flesherton cheese factory was held | 000 met with accidents. But even this in the town hall last Saturday for the good record is beaten by the work done purpose of winding up the past season's by the steamboats on Lake Michigan and the pleasure boats inside the grounds. The total number of passengers carried by the lake steamers

was 1,758,665 and not one was lost or

injured. The electric launches were the

favorite boats inside the Fair grounds

and had a total patronage of 889,757.

The steam launches came next with

catering company, and judging from

baskets. The record also shows that

degrees and the average temperature of each month was veny near the average of some years past. The season was exceptional, there being no excess of heat or cold. Another feature of the Fair showing how thoroughly all departments were organized was the emergency hospital, where 13,500 cases were treated, or an average of 120 a day, most of them being trivial. The total deaths were twenty-three, or less than an average of one a week. The fireworks were a feature that attracted a good deal of attention. There were 105,000 rockets were fired off and 15,000 shells and a great number of wheels and devices, and twenty-five tons of red fire were burned. When to these are added the model post office that handled over 15,000,000 pieces of mail matter and an
