MARKDALE, JANUARY 18, 1894.

COMMENDABLE PROGRESS.

Our respected and worthy citizen Mr. Mark Armstrong, senior member of the firm of Armstrong Bros., lumber merchants and manufacturers, has just completed a substantial brick residence on his park lot facing Wellington street, which for unique design, convenience of arrangement and excellence of workmanship is not equalled in Markdale. The location affords a commanding view east, west, north and south which adds much to the cheerful aspect of "Homewood." We had the pleasure one day last week, of visiting the premises and pronounce it a model of convenience and perfection from cellar to garret. The wood work of the first flat is red oak oil finish; the kitchen is ash and the second flat is pine, oak grained. The building is heated with hot air and particular attention given to thorough ventilation. The plumbing system is the modern. Water is elevated to a hydraulic tank in the garret by means of a force pump, from which the bath room is supplied, which latter is furnished with all modern conveniences. The parlor has a large plate glass window with stained fan light. We cannot stop to explain details further, but would advise any who anticipate building a residence and wishes to combine comfort convenience and economy to personally inspect this residence. Mr. Armstrong was his own designer and architect and has displayed superior taste in the plan and general arrangement of his house. He speaks in highest terms of the various contractors and mechanics, viz.: Mr. A. Fogarty, stone and plastering; Mr. Riddell of Orangeville, brick; Mr. R. G. Gregory, wood; Mr. J. J. Cherry, painting; Messrs. Christie & Agar, Owen Sound, plumbers and Haskett Bros., heating.

Mr. Armstrong is a native of Markdale and one of its most enterprising citizens, a active and valued member of the council, together with he has been re-elected at the head of the poll for two years, and by acclamation. He is also a member of the public school board, has been Chief Ranger of the I. O. F. lodge for two terms, is a member of the A. O. U. W. and for several years an official in the Methodist church, which position he still holds. Mr. A. is always to the front in any movement that has for its aim the prosperity of the town or welfare of its citizens.

The last and most important step which our genial townsman has taken was consummated on Tuesday last, Jan. 16, when he was united matrimonially with Miss Jessie Rorke, daughter of Mr. T. G. Rorke, a prosperous farmer of Collingwood township, and postmaster at Heathcote.

One of Mr. Armstrong's leading characteristics has been to secure the very best material available in building and furnishing his house as also in matters generally, and from what we can learn he has been eminently successful in the acquisition. The wedding took place at the residence of the bride's parents at 11:30 o'clock, on above date the Rev. J. Burton officiating. Miss Kate Rorke, sister of the bride and Mr. W. A. Armstrong, brother of the groom, supported the contracting parties through the sacred ordeal. A large number of relatives were in attendance among whom were seventeen brothers and sisters with the parents of the wedded pair. The bride was the recipient of a large and beautiful array of handsome and costly presents, among which was a cheque for $200 from her father. A sumptuous wedding breakfast was partaken of at 12 o'clock and a considerable hour or two was spent when the party drove to Flesherton where the happy couple took the 3:10 train for Toronto and other points east for a short honeymoon trip, and before another STANDARD is published it will be home in their beautiful house. We join their many well-wishers in congratulations and best wishes.

Although badly disappointed the parties are somewhat relieved as later reports say that Kimberley didn't have any concert that night. Hope they will give us due notice when they do have one.

Burdock Pills cure liver ills. They are small and elegantly coated, easy to effect and pleasant to use.

The Y. P. S. of Ebenezer church, Proton, held a concert in Ebenezer church on Tuesday evening, of the 9th inst., was quite a success both socially and financially. The young people who recited and dialogued performed their parts very creditably. The choir, under their efficient leader Mr. A. J. Erskine acquitted themselves in a very satisfactory manner. The Rev. a Perry, Rupert and pastor Waddell were on the platform and gave addresses which were appreciated by the audience. General good order prevailed with the exception of one or two "smarty's" to whom Mr. Waddell gave a very "*visible*" hint that they would have to keep quiet.

There was so many cakes, pies, &c., remaining that a social was announced for the Thursday evening following, when a goodly number of young people turned out notwithstanding the blustery weather. After all had partaken of the excellent provisions, which were in abundance, Mr. W. J. Richardson was voted to the chair. A speech by J. C. Buchanan on the management and teaching in S. S. was followed by J. M. Davis and Mr. W. Shiel both of whose remarks was appreciated. Nellie Carson gave a recitation. Miss Bertie Whitaker of Flesherton is visiting her grandparents and relatives—the Edwards family.

Mrs. Thos. Jack has been bedsick for over two months, but is slowly recovering.

Another one of our winsome ones has left us. Miss Mary Delany took the train for Hamilton last week, there to resume her studies.

Mrs. R. Jack's frying-pan scarce gets time to cool these days as they have seven mob on, getting out barn timber.

Jim Quillinan is looking especially happy these days. It is suspected that ere February's frosty nights come, Jim will put into practice the truth contained in Ecclesiastes, 4th chapter and 11th verse.

Ike Elder is very fond of headcheese. He boiled two fine porkers last week and left the heads soaking in water outside over night. In the morning Ike's countenance was both woful and wrathful. The porkers heads were gone. However, diligent search revealed one covered under a pile of snow, but the other was domino. Ike is loaded for dogs. Headcheese has gone up two cents locally.

Truly it was a surprise party that flocked into the home of Mr. Thos. Edwards on Tuesday evening last, and before he was conscious of what was likely to happen, he was presented with a warm hearted address, accompanied by an elegant easy chair. It was given by the pupils, teachers and supporters of Zion Sunday school over which he has been superintendent for many years, being a token of appreciation for his devotion and earnestness in the work. His heart carries more gratitude than his lips were able to express. A few hours of mirth and taffy-toasting followed.

Miss Armstrong left on Monday to wait on her brother Mr. Wes Armstrong, jeweller of Lucknow, who is very ill having been prostrated for some weeks with brain fever.

Miss Lou Armstrong returned home on Saturday from a prolonged visit with her sister Mrs. J. D. Clark, in London.

Artemesia township fathers met for the transaction of business in the town hall on Monday last. Messrs Kells and McMillan were elected deputy-reeves for the current year.

The annual congregational business meeting of the Presbyterian church here, was held on Thursday afternoon last. All of the officers and a fairly good attendance of members were present. The pastor Rev. J. Wells, M. A., occupied the chair. After devotional exercises, the reports of Board of Managers (on stipend account), Sabbath School, Ladies Aid Society and Y. P. S. C. E., were read and the various financial statements presented. They were found of a very interesting character, showing that a new organ had been purchased and paid for, the liabilities for current expenses all met, and quite a handsome sum left on hand.

Dr. Wood's Norway Pine Syrup is unsurpassed for coughs, colds and all throat and lung troubles. Sold everywhere, and recommended by all druggists.

Those having cash to loan with a guarantee of the various deeds in Artemesia, a special collection is asked for the next two Sabbaths and the committee have resolved to put forth an effort to reduce this indebtedness on the church building.

Mr. W. Elder, who is sojourning in California, has been for some weeks in a critical condition, having suffered from grippe malady and hemorrage of the lungs, so that his physician despaired of his life. His many friends will be pleased to learn that his condition is more favorable, and there are hopes of his recovery from this prostration. Mr. A. Monshaw of this place, will leave in a few days to spend some weeks holidays with Mr. Elder in the sunny south.

Mr. W. Irwin, principal of the Flesherton P. S., is in Toronto with Mrs. Irwin, who is very ill at St. James Hospital, having undergone an operation there on the 1st Jan., for the removal of a tumor. She was making appreciable improvement until Thursday last, local inflamation set in, her symptoms became alarming and Mr. Irwin was telegraphed for, at the time of writing (Tuesday) she is reported as not much improvement in her condition.

Mr. F. A. Leitch, son of Mr. and Mrs. T. Leitch of this place, who is at present a student in the Wesleyan College, Montreal, received, and has accepted a call to the pastorate of the First Congregational church, in the city of Ottawa. An offer of $1000 a year stipend accompanied the call.

Many are sick, the grim reaper is at work and the ranks of the aged are being thinned. During last week, Mr. David Jameson, Sr., 9th con; Mr. Francis Thompson, Sr., 3rd line and Mrs. James Little, Sr., for many years a resident on the West back line, were gathered to their father's at a ripe old age. All three were Artemesia pioneers, respected and industrious tillers of the soil, who by their frugality had acquired a competency for ease and comfort in their declining years.

The symptoms are most encouraging and hopes are now entertained for the recovery of Mr. Charles Wyce, who met with a most terrible accident about ten days ago. Mr. Wyce lives on the T. & S. R. about a mile and a half from this place, was assisting at Mr. Jas. Dover's threshing, and was descending from the mow when he missed his hold and came down on the end of the upright fork handle which he had let down before him. The handle which had a jagged end penetrated the lower part of the body and upward nearly twelve inches along the spine. Dr. Carter was immediately called and did his utmost to relieve the sufferer and save his life. For several days slight hopes for his recovery were entertained, but at the present, cause for alarm is subsiding.

War Imminent.

The London correspondent of the Sun cables as follows: "The authorities were quite recently warned through their most trustworthy sources of information that a war might be thrust upon England at any moment." This startling announcement was spread before the country on Thursday morning with all the emphasis that could be given to the words by the London Telegraph, a most conservative journal, which enjoys the largest circulation of any newspaper in great Britain. Yesterday the same newspaper in a remarkable leader practically declared its belief that war was imminent and unavoidable. It even went so far as to urge the Government to require subsidized steamships, such as the Lucania and Teutonic, to take aboard an armament at once. It argued that war will break out among the nations like lightning from a clear sky and it was necessary to save the valuable time required for mounting guns. At no time in this generation has the English press used such extraordinary language on the subject of threatened war as has filled their columns this week. I have practical assurance that the panic is genuine. In newspaper offices elaborate preparations are being pushed forward, so for covering the campaign. Not only are war correspondents being engaged but certain London journals are arranging for press steamers under the red cross or American flags in the English channel and Mediterranean, and for correspondents on battleships. It is strongly believed in Fleet street that Lord Rosebery shares the darkest forebodings. In fact the war panic in certain circles has reached a more acute stage than at any time since England last sheathed her sword. England at large, however does not share this alarm. The financial barometer, the most sensitive of all to genuine danger show no sign of disturbance. The leaders in monetary affairs from Rothschild down, say that they do not believe the peace of Europe is seriously threatened. The cry of wolf has been so many times repeated that it has no longer any terrors when coming from an unofficial source, however prominent. The Telegraph concludes a denunciation of the Government's hesitation with this strong language:—"Once more, for the sake of the Empire, which is being betrayed by pounds, shillings and pence, and for the sake of a Ministry who is letting slip the last chance of honest popularity, we council the Government to be wise in time. If another Cabinet Council fails to redeem the purblind and unpatriotic hesitation of the last the next naval programme will be drawn up by the hand of people as d amid the national execrations of those Britains who were faithful to their trust.

Frank Brown, druggist, of Shelburne, Ont., writes under a recent date: "Please ship me another gross of Dodd's kidney pills. Sold eight box boxes this afternoon. They are giving grand satisfaction." The funeral will be from the residence to Greenwood cemetery on Friday at 2:30 p. m.—Plaindealer.

The Poor and Rich Meet.

Toronto, Ont., Jan. 6—There is a great sensation in fashionable society over the secret marriage of a beautiful young heiress and a poor but handsome private in the infantry school corps here. The marriage took place six weeks ago at a secluded little Anglican church at the west end, and the fact did not become known to her parents and the public until yesterday. The bride, Miss Mary Helen Cook, is the daughter of the vice-president of the Cook Brothers' Lumber Company, and a millionaire. The groom is Walter Henry Cooper, whose income is 30 cents a day. His father is an Anglican clergyman at Calgary, North-west Territory. Immediately after the marriage the young soldier returned to his military duties and the bride to her father's home so that nothing was suspected. The bride is heiress to $1,000,000 and her parents were naturally greatly exercised over the affair, but it is said will make the best of it by sending the young couple to England, where Cooper, who has taken to studying medicine, will be educated at Oxford University.

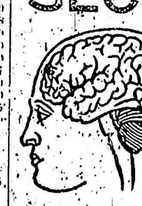
NATURE YIELDS ANOTHER SECRET



Scientific men have discovered that the nerves are not good conductors of electricity, and that the velocity of a nervous impulse is but 100 feet per second—which is very much slower than that of electricity. It is generally agreed that nervous force or what we are pleased to call nerve fluid, is a wonderful, mysterious force in which dwells life itself.

A very eminent specialist, who has studied profoundly the world of the nervous system for the last five years, has lately demonstrated that two-thirds of all our ailments, chronic diseases, are due to nerve centres within or at the base of the brain.

All know that an injury to the spinal cord will cause paralysis to the parts below the injured point. The reason for this is, that the nerve force generated by the brain is prevented by the injury from reaching the paralyzed portion.

When food is taken into the stomach it comes in contact with numerous nerve fibres in the walls of the stomach which at once send a nervous message to the nerve centres which control the digestive apparatus, supplying them of the necessary nerve force to digest the food, when upon the nerve centres receiving this message send down a supply of nervous force or nerve fluid, to assist in the proper digestion of digestion. But let the nerve centres which control the stomach become deranged and they will not be able to respond with a sufficient supply of nerve force, to properly digest the food, and, as a result, indigestion and dyspepsia make their appearance. So with the other organs of the body, the nerve centres which control them and supply them with nerve force, if become deranged, they are also deranged.

The wonderful success of the remedy known as the Great South American Nervine Tonic is due to the fact that it is prepared by one of the most eminent physicians and specialists of the day, and is based on the foregoing scientific discovery. It acts directly on the nerves, and possesses marvellous power for the cure of Nervousness, Nervous Prostration, Headache, Sleeplessness, Restlessness, St. Vitus's Dance, Nervous Despondency, Hysteria, Heart Disease, Nervousness of females, Hot Flashes, Sick Headache. It is also an unfailing specific for all stomach troubles. Sold by W. TURNER.
