See report in another column.

DIVISION COURT.—Court held in Hasketts hall March 20th and although the business of the court has largely increased as never before were so many cases entered up to the present date of the year yet the actual work before the judge was very small the greater number being settled out of court. Only a few cases of importance were tried. There were two jury cases, one of these was tried, the other being settled by consent of the parties concerned. One point settled by the judge it might be well to remember was that the owner of an animal is liable to any injury or damage it may do on the highway. There were some judgement summons disposed of and court arose at half past three to sit again on May 18th.

The Prevailing Cattle Disease.

Upon interviewing Dr. Cunnington, V. S., as to the disease now so prevalent among cattle, he makes the following statement:

The disease afflicting so many cattle in this vicinity is what is known as ergotism. It results from a poison known as ergot, which is taken into the system in sufficient quantities to affect the circulation of the same; the disease locating mostly in the legs, the blood congulates and the circulation below the point of caugulation stops, and the parts below the blood clot slowly decompose and die.

The disease is new to this part of Canada, and like all new diseases it was first important to find the cause; this accomplished, the treatment becomes simple and effectual. If taken in its early stages it may, almost without exception, be treated successfully.

Feeling the importance of obtaining all possible information regarding the disease, I have for some time been corresponding with Prof. Smith, of the Ontario Veterinary College, and finally, to make my position doubly sure, I went to Toronto to consult with Prof. Smith and other members of the College faculty. I also took with me a sample of the feed the diseased cattle had been eating, for the purpose of having the same analyzed, which was done. I also had Dr. Cowan, one of the College Examiners, come to Markdale for the purpose of examining some of the cattle treated by me. Dr. Cowan was selected by Prof. Smith to make this examination on account of his wide experience with this disease in the United States. He pronounced my treatment correct and that it would invariably prove successful if the disease was not too far advanced when treatment was commenced.

I have left no stone unturned, sparing neither money nor time, to fully inform myself as to all the latest, most successful and scientific methods of treating this troublesome and I may add most [illegible] disease.

To Be Hanged.

The trial of W. W. McWhirrell and John Walker at Brampton, Ont., for the murder of Mr. and Mrs. Williams, Port Credit, in December last, terminated on Saturday the jury acquitting Walker and finding McWhirrell guilty. Before sentence, the latter addressed the court and jury for two hours, protesting his innocence. Sentence of death was pronounced by Mr. Justice Ferguson, to take effect on June 1st.

The Cobbler.

Sam. Halbert is a shoemaker
Who lives in Markdale still
If you buy your boots and shoes off him
You seldom will be ill.

He uses good material,
And makes them watertight,
And if your feet are warm and dry,
Your sure to feel all right.

It's wearing factory boots and shoes,
With pasteboard heels and soles,
That gives you grip and makes you sick
With headaches and with colds.

So buy your boots of Halbert,
He makes them cheap and neat,
And also bring your cobbling,
And you'll have dry warm feet.

A Pioneer Gone.

William Cunningham of Artemesia, five miles south of Markdale, passed away from this life last Sunday morning at the age of three score years and ten. He was seized with inflammation of the bowels a week prior to his demise with above result. Mr. C. was one of the early settlers of this vicinity having located forty years ago when Grey county was largely an unbroken forest, and by industry and frugality sewed out for himself and family a comfortable home. On Sabbath morning he realized his near approach to the end and after singing "Jesus Lover of my Soul" passed peacefully to his reward at 6 o'clock. He leaves an estimable wife and large and respectable family, all grown up, to mourn the loss of a kind husband and affectionate father. The funeral took place on Tuesday p. m. to the Presbyterian cemetery and was largely attended, Rev. Mr. Forest conducting the service.

Markdale Council.

Council met on Wednesday evening as per adjournment from 28th February.

Present—G. M. Haskett, reeve in the chair; Councillors, Armstrong, Trelford and Sproule.

M. Dinnna having declined to act as poundkeeper John Noble was appointed in his stead and a by-law ordered to be prepared for same on motion of J. T. Trelford and J. W. Sproule.

The report of committee re sufficiency of treasurer's sureties was favorable.

The Auditors' report was gone through item by item by the council, as a committee of the whole and on motion of Armstrong and Sproule was received and adopted and ordered to be printed.

On motion of Sproule and Trelford the council adjourned until the regular meeting, the last Wednesday in March, usual hour.

C. E. Wright's Case.

HE WAS A HOBBLING THOMAS—DID NOT THINK DODD'S KIDNEY PILLS WOULD CURE HIS BACKACHE, BUT THEY DID.

PENETANGUISHENE, Mar. 19.—If any person in this neighborhood had any doubts as to the curative properties of Dodd's Kidney Pills, the case of Mr. C. E. Wright, the well-known butcher here, ought to dispel such doubts. Mr. Wright was troubled for some years with a severe pain in the back and kidney disease. He was reluctant to use the pills but was finally persuaded to do so. To-day he is cured of his kidney trouble and is loudly singing the praise of the remedy that did so much for him. Dodd's Kidney Pills are manufactured by Dr. L. A. Smith & Co. and are sold by all dealers, or will be mailed on receipt of price: 50c. per box or 6 boxes for $2.50.

The Cattle Ailment.

The following letter from the Government Inspector of Stock, at Montreal, under date of March 10, explains itself and will be read with interest by farmers:

DEAR DR. SPROULE:

I have just received yours of 8th inst. re foot disease in cattle in your district.

Judging from your description it would appear to be what is commonly called "Foul feet," which is often seen when cattle are allowed to go about on partially frozen mud and farm yard manure and urine.

The maceration in which produces irritation followed by ulcerative inflammation of the schaccous glands of the interdigited space, as well the horn secreting substance at the coronate.

I have not known it to assume in this country the aggravated form you describe, and would infer that they must be eating ergotized grasses or other ergots.

I have sent your letter to the Department with a recommendation that Professor Smith be sent from Toronto to make an investigation.

Should his report not prove satisfactory and you wish me to investigate it personally I will do so with pleasure—but Mr. Smith being our Inspector for Ontario it is proper that he be sent there in the first place.

I will be glad to hear from you further on the subject.

Yours very truly,
D. M. McEACHRAN.
