In view of the approaching political campaign the following decision in a libel suit will be of interest. Roy P. Fitzinger brought action against a local paper for libelling him in a publication which charged him to be a rotten egg and held that it would be impossible to spell him for the same reason that a rotten egg could not be spiced. The judge held that the remark might be open to the criticism that it was impetuous but that the language was not libelous as it only intimated that the preacher smelt bad.

The Dolinger for May is called the "College Commencement Number," and contains three articles especially interesting to students. A Girls' life and work at Yassar is the title of the first of a series on Women's Colleges of the U. S. A. College Commencement is most attractively described by a graduate of Smith, and there is a fully illustrated paper on commencement and graduation notes. Under the head of "Employment for women in a sensitive article on Women in Journalism," by Edith Sessions; "Thinner and Eideran" Georgeon treats the subject of Plutonium in expression clearly and practically. A further installment of Some Uses of Crops and Tissue Papers introduces some pretty articles for decorating a Spring Lunch Table, the third paper on Wise Lying gives some good advice about eating, and the many ways in which daughters can help their mothers in laid in the second chapter of "Mother and daughter." A "Leather wedding and a Legomachy Party" are entertainingly described. Some New Decors are given, and in table talk many reasonable topics are discussed. The "College of Fashion" is the subject of the "Practical Hints," and there are many new designs in Knitting, Crocheting, Netting, and Tatting. The subscription price of the "Delicacies" is \$1 per year. Single copies, 25 cents. Address orders to the Dolinger Publishing Co. (Ltd.), 83 Bellingham Street, West, Toronto, Ont.

W. H. DRINKWATER, MARKDALE.

Sold for \$1,000.

The handsome and fast young man Alex. K. by Assonia, of the Sarnia Branch, was sold on Thursday last to Geo. Turner of Ujica for the respectable sum of one thousand dollars. There is no doubt the best money ever raised in this county and while she has no mark, yet she has shown her ability to go fast miles—stopping the last quarter at a 212 gate. Mr. Marsh has, and wisely so, results show, been keeping this good mare but until she was in the pink of condition either to sell or go out and measure her quality and speed with the best in the land in her own class. The carriage and judicious training of this mare, also others, has fitted her for all exceptionally good prices. It is conclusive evidence of the possibilities in this line of industry which Mr. Marsh has opened up in this section, and by which every farmer may profit by simply continuing to breed poor scrubby mares to cheap sires. Improve your stock, although it costs a trifle more in the start, and your receipts will be more than doubled. The market today for good horses is as good and active as it was five years ago.

Has your constitution been wrecked by an attack of Gripe? The Great Sarnia American Newspaper Tonic will quickly restore your shattered nerves, strengthen and cleanse your digestive organs, regulate your liver and purify your blood; and restores you to perfect health. The great benefit has been proved in the superior general of the Redemptive Order in New York, March 21.—Father A. Lambert, who has been one of the most active members of the Redemptive Order of the Catholic Church, has withdrawn from his former connections, and announced his conversion to Protestantism. His conversion is the result of long continued prostration. His resignation has been forwarded to the superior general of the Redemptive Order in New York.
