The citizens' band will be on hand and discourse excellent music and an enjoyable evening is anticipated. Refreshments from 4 to 6 o'clock. Come early and spend a sociable time. A large gathering is expected. Admission 15 cents. Only one price.

ELOCUTION.—Prof. Mounteer gave a lecture on Wednesday evening of last week in Hasken's hall, which was listened to by a good sized audience with great interest. The professor is master of his subject, and a most important one it is, and as neglected as it is important. A class has been formed consisting of 13 pupils. We wish them unbounded success.

"PENNY WISE, ETC."—A well-to-do farmer not a thousand miles from Thornbury discontinued his local paper giving as his reason for sodoing a necessity for economy. A short time after the local paper warned its readers against writing on the margin of a paper or enclosing a letter or anything which would serve the purpose of a letter in a paper when mailing it. This economical farmer was recently required to pay a fine of ten dollars for such an offense, enough to pay his subscription for ten years.

THE SEASON.—This spring is the most favorable, all things considered, which the oldest farmer can remember for agricultural interests. The season opened early. The soil has been in prime condition for plow, harrow and seed. The weather was all that could be desired, very little frost and sufficient rain for good growth, and now at the middle of May vegetation is fully two weeks in advance of the average year. While prices rule exceptionally low for farm produce in general this is offset at least in a measure by a favorable outlook now in view for a prosperous season's operations.

LECTURE.—The Rev. M. M. Goldberg delivered a lecture, as previously announced, in the rink hall, on Thursday evening last; subject, "What prevented the Jews embracing Christianity." There was a good sized audience considering the inclemency of the weather, and those who failed to be present certainly missed a treat. Rev. Mr. Goldberg is a man of learning and of large historical knowledge as well as personal experience, for his years. He is master of five languages, Hebrew, Russia, German, French and English. His address was full of instruction, interest and sound logic, and was listened to with wrapt attention throughout. Christ church choir rendered appropriate music at intervals, also solos by Miss McLeod, of Nova Scotia, and Miss Ford and Mr. Cesar of Markdale. Altogether a pleasant and profitable evening was enjoyed. Mr. R. D. Bigger occupied the chair.

ABOUT the only thing that Senators seem to be able to pass is the wink.

MR. T. F. BROWN, the dentist, will be in Markdale on Saturday, 19th, for two weeks. Jeweller Brown's store.

GLENELG township Court of Revision will be held on Saturday the 26th of May, at the town hall; Euphrasia 28th.

THE high winds and dusty streets of late strongly suggest the necessity of a watering cart on Main street.

THE new Catholic church at Glenelg Centre, is to be dedicated on the first Sunday in June by Bishop Dowling of Hamilton.

THE Thornbury Herald was a year old last week. It is a tastily gotten up, neatly printed and well edited paper and gives promise of continued life.

THE Royal Templars of Temperance will give a concert in the Oddfellows hall, Walkers Falls, next Monday evening, May 21, which promises to be a rich treat. Admission fifteen cents.

THE brass band is to commence operations at the garden party at Mr. Wm. Armstrong's at 6 o'clock the evening of the 24th. Those who desire to get home early can do so by coming out early—see?

MARKDALE Lodge, C. O. O. F. No. 78, will attend divine service on Sunday evening next, May 20, in the Methodist church. The members will meet at the lodge room at 6:30 sharp so as to march in a body to the church.

JACKSON the great implement man, has customers for 20 miles around. He buys for cash by the car load thereby securing three discounts, one for large purchases, one on freight for carload shipments and another for cash, so that it is not to be wondered that farmers come a long way to buy from him, and return more than satisfied.

STATISTICS.—The following figures we glean from the circuit report of the Methodist church, Markdale, for the conference year up to May 15:—Total membership, 272; increase over last year 16. "No more useful handbook "The history of 1893" for any reader can probably be found than the interesting volume which The Mail is now publishing. The review of the political events of last year is such alone as to commend it to notice, while the amount of information it contains on a variety of subjects is such as to make it an indispensible companion of those who would be abreast of the times. The gratifying reception it has met with is the best criterion of its quality. Among other contributions there is a spirited sketch of the World's Fair, by "Kit," the popular author of The Woman's Kingdom, while the illustrations are beautiful and numerous." 50 cents a copy. Ontario Dairy Farming.

Princess and Brewster may well (at least some say so) that the Earl of Rosebery, the Grand Old Man's successor, and Princess Maud the youngest daughter of the Prince of Wales are engaged. The Princess is by far the best looking one of the three sisters, and would be considered quite pretty, even did she not belong to the Royal Family. But, though only 24 years of age, thoroughly well educated, a good rider and, fewer her most estimable quality and useful accomplishment is that she is an excellent maker of butter as her mother. She comes honestly enough by that talent through her Danish mother—the little sea-girt kingdom in northern Europe being justly famed as the home of the best butter-makers in the world. What a splendid example as it prospective wife the Princess Maud sets the young women of this great among country.

It does not necessarily follow that every pretty girl who can make a loaf of butter—even as fair as her mother's—will catch a premier for a husband, though that would be none to ges if a thing to happen her, but her chances in the matrimonial market of getting a prize should and undoubtedly would be immeasurable increased.

Dairying—the making of butter and cheese—is the agricultural art above all others that modern science and invention, coupled with the distance-destroying steamship of today, have placed in the very fore-front as a profitable branch of farming in Ontario. Deep set mill pans, power cream separators, the Babcock Milk-tester, improved churns, new apparatus and processes for cheese-making, as well as a better system of packing butter for shipment to far away markets, not to mention minor details in which decided advancement has been made, have practically revolutionized the dairy business.

Then the slow but sure "breeding up" process going on in the average milch cow of the Province through judicious blendings with the best blood of well recognized milking strains of cattle, is an element of extraordinary value in estimating the present worth of this important branch of the greatest industry in the country.

The World's Columbian Exposition at Chicago, with its sweeping successes for Canadian Dairying, is of enormous benefit to us in Ontario who will profit by the lessons taught thereby, and follow up the tremendous advantage such an advertisement as that was of the Province's capabilities in the production of the finest butter and cheese.

It is not to be wondered at, therefore, that the 17th annual convention of the two Dairyman's Associations, those of Eastern and Western Ontario dealing with cheese-making, and that of the Creameries' Association of Ontario, covering the whole Province in its scope as a gathering of butter makers, should this year have been brighter and better than any ever held before.

This hopeful condition of things is evident to anyone who will look through the 240 clearly printed pages containing extended verbatim reports of the speeches made, the papers read and the interesting discussions thereon at these meetings, which has been published under authority of the Minister of Agriculture, Hon. John Dryden.
