THE MARKDALE STANDARD

THURSDAY, MAY 31, 1904

Week's Commercial Summary

Dun's review of last week states that the price for wheat was steady. The yield for the present season is expected to far exceed government predictions, which point to a short crop.

The mineral production of Canada for 1903, with comparisons, as issued by the Geological Survey at Ottawa, are: Metallic, \$1,322,175; non-metallic, \$1,813,291; estimate of mineral products, \$3,135,466.

In the Bay of Quinte district the prospects of a good fruit crop are excellent, and as canning is an important industry there this is most gratifying.

The Western Union Telegraph Company is advised that the telegraph route from Siberia to China, Japan and the Philippines, is being established.

At Bradford Wednesday George Aird was brought from a buggy and had one of his legs broken. The vehicle collided with a horse.

The C. P. R. is advised that the telegraph route from Siberia to China, Japan and the Philippines, is being established.
