## DOMINION PARLIAMENT

### OUR LAWMAKERS IN COUNCIL.

Proceedings of the Senate and House of Commons. New Bills Introduced and the Budget Debate Continued.

Sir John Thompson and Hon. Mr. Gosling introduced Mr. H. B. Blanchard, the new member for Gloucester, N. B. Mr. Mills (Bellevue) moved for copies of all correspondence since 1877 between the Government of Canada and the Imperial Government in reference to the fisheries of the coast of Newfoundland. He dwelt upon the importance of the subject. While it was true that the Treaty of 1877 had secured the sovereignty of Hudson Bay, the fisheries of that Great Britain, being a fishery were today resorting to the waters in the Bay, and the question was whether it was important that steps should be taken to secure Canadian jurisdiction, lest by the rule of acquiescence this right might lapse; for it was to be remembered that as well in national as in private relations the rule of acquiescence was held to apply.

Sir Charles F. Tupper fully acquiesced in what had been said about the importance of the fisheries, and he assured the hon. gentleman, in advance of the production of the papers asked for, that they would be ready in a few days. He had received attention at the hands of the Government. As to the fisheries of the territory rights by fishing and hunting by foreign vessels, and the fact that from time to time reached the Government of the fisheries, he said it was difficult to ascertain the actual facts.

Mr. Mills (Bellevue) moved that the Hon. Mr. Tupper should be asked to produce the papers in reference to the fisheries of the coast of Newfoundland. He dwelt upon the importance of the subject. While it was true that the Treaty of 1877 had secured the sovereignty of Hudson Bay, the fisheries of that Great Britain, being a fishery were today resorting to the waters in the Bay, and the question was whether it was important that steps should be taken to secure Canadian jurisdiction, lest by the rule of acquiescence this right might lapse; for it was to be remembered that as well in national as in private relations the rule of acquiescence was held to apply.
