Querie.

Miss Blodgett, of Rome, N. Y., asks: "Is it correct for a young gent to take the arm of a young lady, or should the young lady take hissen? Please answer and oblidge."

That depends a good deal on the circumstances, Miss Blodgett, and the prevailing customs where you live, for if you live in Rome you should do as the Romans do.

There are only two classes of males who take the arm of a lady while walking or promenading. One is the gent to whom God saw fit to deny that soft and subtle growth called brains, and the other is the gent who has overdone the wassail business and is being steered home by his unhappy wife. Do not Miss Blodgett, ever allow yourself to become a prop. It is not proper.

Mrs. Langley's Case.

DESPATCHES TO AMERICAN PAPERS FROM LONDON CAUSE A FUROR AMONG THE GOOD PEOPLE OF LANSING.

LANSING, Mich., July 23.—A despatch to a local paper from London, Ont., concerning a former resident of this city, has created a furore among our people. Mrs. Wm. Langley, of 21 Euclid Ave., London South, was during the latter years of her residence here, constantly subject to fits, which the doctors of this city and Detroit failed to cure. The despatch received here says that Mrs. Langley is now completely cured. Two months ago she began using Dodd's Kidney Pills. From the first she improved and now is perfectly well. The natural inference is that her fits were caused by diseased kidneys, for which there is no remedy equal to Dodd's Kidney Pills.

A Fire at Shallow Lake.

Owen Sound, July 22.—A most disastrous fire occurred at Shallow Lake this morning, when the works of the Owen Sounds Portland Cement Company were destroyed, together with the expensive plant imported from England, and the stock of manufactured cement on hand. The fire broke out between 3 and 3:30 a. m., and was discovered by the night watchman. There is no fire protection at the Lake, and nothing could be done to fight the flames. Some of the walls, which were of massive stone work, remain standing, but they will have to come down. The loss is at present unknown, but it will represent more than the capital investment, as the company were just beginning to get into good working order, after years of trouble and expense, and were to have begun work to-morrow morning on the season's output. They had a big contract on hand for cement from Hamilton. The works will be rebuilt, but in the meantime the loss is nothing short of a calamity for the thriving village which has sprung up since their location at the Lake. The origin of the fire is unknown and nothing definite can at present be learned as to the amount of insurance.

The Gospel of Work.

"Labor is the life of life," said Sir Andrew Clark, the famous physician, once to his clinic. "And especially is it the life of life to the delicate. And when any organ is sick it is then truer than in health that even in sickness and delicacy it is better for the organ to do what work of its own it can, provided it can do it without injury.

"Worry is killing." It is bad management that kills people. Nature will not let any man overwork himself unless he plays her false—takes stimulants at irregular times, smokes too much, or takes opium. If he is regular and obeys the laws of health and walks in the way of physiological righteousness nature will never allow him or any other person to work too much. I have never yet seen a case of breaking down from mere overwork alone, but I admit that it is necessary above all things to cultivate tranquility of mind.

"Try to help your patients to exercise their wills in regard to this—for will counts for something in securing tranquility—to accept things as they are and not bother about yesterday, which is gone forever; not to bother about tomorrow, which is not theirs; but to take the present day and make the best of it."

Condensed Gleanings.

WHAT OUR EXCHANGES FOR FIFTY MILES AROUND ARE SAYING.

Progress, Chilliwack, B. C.

We are informed that an impression is prevalent outside that Chilliwack still retains traces of the flood in stagnant ditches and muddy streets. Never was a more erroneous idea. Chilliwack's streets are dry, and to be exact, rather dusty at present, the young growth since the water subsided is green and pleasant, and the surrounding country, with the beautifully tinted mountains are a series of pictures that must delight all visitors.

Herald, Dundalk.

It would be both pleasant and profitable running a bicycle if every municipality would take the same trouble that the corporation of Dundalk takes in removing the stones from the road. A man has been employed to ditch every stone he can find.

News, Chatsworth.

Mr. David Goodwin's barns and sheds together with their contents, on the 10th line of Sydenham, were totally destroyed by fire early Monday morning. The contents consisted of vehicles, implements and hay, and nothing was saved as the buildings were in ashes before the fire was discovered. It is believed to be the work of an incendiary. We are informed there was a small insurance on the buildings, but the loss to Mr. Goodwin is heavy.

A young man named Allen, who worked for Mr. D. S. Craig, of Desboro, last winter, stole a horse from one man, near Paisley and a cart from another, last Sunday night and made across the country to Williamsford. Monday evening he went to Mr. Richard Holmes', on the 5th of Sullivan, about four miles from this place, where he offered the horse for sale at a low figure stating that he got it from a man he worked for, and who couldn't pay his wages. While in bed a constable who was searching for him called and arrested him and took him and the horse and rig off to Paisley.

Herald, Thornbury.

The cherry crop has been unusually heavy this season in this section and prices consequently have been low.

A motion to repeal the cattle Bylaw, recently passed by one vote on Monday last in our town council.

Echo, Plattsville.

LOST THEIR WIND.—Some bicycle riders of Guelph went out for a tour in the country the other night. While engaged in helping themselves to some milk from a farmer's milk can, the farmer was engaged in letting the wind out of their tires. The result was a walk of several miles to the city.

Immense Summer Sale

For next 30 Days at McF.'s.

We have just received several cases special novelties bought from different manufacturers at HALF THEIR PRICES. We have also gone through each Department and thrown out piles of goods for our Grand Midsummer Sale. We have inserted the knife right to the hilt and sliced away profits, many prices cut square in two.

Our reason for these Summer Sales is because past experience has taught us the wisdom of cleaning out everything in its season, rather than carry goods over from year to year and then make a greater sacrifice. Another reason for our Midsummer Sale is, that selling goods at such ridiculously low prices makes business hum during quiet months in summer.

We are determined to keep the wheels revolving. Trade for the past spring and summer has been extra good—away ahead of our most sanguine expectations. It is quite common to hear customers as well as travelling men and visitors remark that this is the busiest store they run across any place. We intend the prices quoted for our Summer Sale shall keep business booming for next 30 days.
