MANITOBA SCHOOL QUESTION:

The school question of Manitoba has been one of general interest—and much concern for some time, and the end is not yet. The Government of the prairie province having determined unmistakably that they will recognize or support none but one public school system out of the public funds, all will admit the importance and justice of making that system thoroughly sectarian. After reading the books and studying the curriculum laid down by the Greenway Government of Manitoba, a reliable authority declares that the schools are Protestant, and hence arrives at the reasonable conclusion that one of two courses should be adopted, viz: either make the schools absolutely secular, or grant remedial legislation. It is, in our humble judgement, to the best interests of our whole dominion, as well as the prairie provinces, that one, and only one, public school system be maintained, and that it should be absolutely non-sectarian.

We wish to congratulate our esteemed townsman, Mr. McFarland, upon his being elected as one of the directors of said company. To the old board of directors were added the names of Mr. McFarland and Thos. Long, Esq., of Collingwood. Such men add much to the business capacity of the directorate. The Noblest Work.

He who works on material things leaves results that will perish; the noblest buildings crumble. The finest pictures the artists put on canvas fade out. Nothing done in matter is immortal; but matter is perishable. But he who works on the unseen, the spirit leaves impressions that shall endure forever. The touch of beauty you put upon life yesterday, the earnest word you spoke to the new impulse you started in the heart of your friend, by the vision of heavenly purity you gave your own life to one who was, and you will be bright when the sun and stars shall have burned out to blackness. What men do immortal lives is immortal work. That of all work on human lives, the saving of souls is the most blessed. He who adds the least touch of beauty to a saved life does more than his master did; but he who brings a lost soul to the Savior, who redeems and finds a wandering sheep and bears it back to the fold, does the noblest greatest work possible on this earth.—J. R. Miller.
