Week's Commercial Summary. The gold reserve of the United Stat Treasury now aggregates \$88,000,000. Forty-two cars of nickel matte left Su bury last week for Constable Hook, N.Y. They averaged 40,000 tons to the car.

Eggs are very scarce on the market with sales of case lots of limed at 20 cents. Fresh eggs are firm at 25 to 28 cents in a jobbing way. The Pall Mall Gazette says another at

tempt is being made to unite the petro f nobles and French Rothschild proces or nonces and French Mothachilds and thus create a monopoly. There will be a meeting of producers with this ob-ject some time within the present month. The project is favored by the Russian Ministry of Finance.

Trade in the rural districts is unusual-y dull just now, accounted for largely brough the state of the roads which in through the state of the roads which in many places are nearly impassible. Our travellers are in from revising tours through the counties of Huron, Bruce, Norfolk and Ontario. These are largely farming districts and there are few changes to record. No alarming features are noticable, and many of the smaller dull period continues. Notes and accept ances passing through local banks in these counties are very well met.

Our commercial advices from the united States are of a more encouraging nature this week. The improvement is due somewhat to better weather, but apparently more to the adjournment of Congress. There has been an increased department of the land and building and being the control of the control gress. There has been an increased mand for lumber and building materials generally, including larger orders for structural steel and iron. In the South cotton factories are more active, and staple dry goods are in improved demand. Foreign woolen goods are attracting more attention, and competing with American goods of similar grade. The London wool market is stronger. Bessemer pig iron is unchanged, and lumber is advanc-

Trade con titions at Toronto are un changed. The paper falling due this month is said to have been satisactorily met. There was the usual proportions of renewals asked, and the number of fail-ur s in the province is probably less than anticinated. Our merchants speak in a hopeful strain with regard to the future. Many have reduced their lines of discout, and owing to cautiousness in mak-ing purchases are better prepared for contingincies that may arise before there is any mark d increase in the volume of in many sections, which restrict the many sections, which restrict the mayement of produce but they will
