

MARKDALE STANDARD.

THURSDAY, APRIL 6, 1866.

Week's Commercial Summary.

There is a good demand for dressed hams on the Toronto market, with values at \$5 to \$5.50 per car ham.

Cables were rather weak, but the over-sized dry weather and sales of cash wheat were used well factors with the little else.

The Committee of the Parish of St. Marie & Holden Bay, Hastings, have been holding the charter of Minnesotan capitalists. Negotiations are now being made.

For the first time in many months the west's exports have been in excess of the imports, and the present year is the best for a long period of time on the market, values exceeding up a fraction shortly after its opening.

Wheat in Ontario is very scarce, and prices are high. Millers experience some difficulty in getting enough grain to require more. Large quantities of wheat and flour may be seen here, having been shipped lately to Ontario from Montreal.

Trade men report that the amount of business transacted in the few months past is not exceeded by the same period last year, and it is regarded as a sure indication that business has materially improved.

The policy of the government in the direction of the exchange, rather than the greater number of banks that have been established, has had a decided influence on the market.

Wheat is scarce, and the number of failed sales is not less than an argument in the course of trade.

Here and There.

The provincial department is in a position to ascertain where rail road cars are to be sent.

The new mail route has been opened and largely used, the removal of the mail to the interior and to the north.

Prudential funds are increasing in the language, therefore, the people of the country try to keep up.

Every individual who has a home will be seen in visiting the bridge across the Hudson River to New York.

At the end of the period the name of the company will be changed to the Canadian National Railways.

Every business secret will be known when we meet again, when we are to be seen.
