OX-EYE DAISY.—A subscriber of Farming writes that magazine asking how to eradicate the ox-eye daisy, and wants to know if there is any means of exterminating it. Following is Prof. Shaw's answer:—Several methods of fighting it are given in "Weeds, and How to Eradicate Them." Of these, the following is probably the most effective: Grow two hoed or cultivated crops in succession. Give every care to make sure that these crops are kept perfectly clean. Follow with a crop of spring grain, sown with grass seed. If any stray plants appear in the meadow, remove them with the spud when they first come into blossom. When they are found growing very numerous in pastures and meadows, these should be broken up and managed as described above.

THERE is a superabundance of butchers in town.

OYSTER supper in the hall in which the prize list of Cheese Fall Show was [illegible] up [illegible] cheese entered unnoticed. Four hundred copies were printed and in the hands of the secretary in less than three days from the time the copy was received, and that during same time last week's issue of the STANDARD was issued. Too much rush tends to mistakes. The secretary wanted them in one day, ha! ha!

LAME cheese is more slowly. The C. P. R. walk leading from Main street to the depot has been for several months in a deplorable condition, in fact "a disgrace and broken up." The material for a new one is said to be ordered, but "to be landed safe" let us have it in position. As high as $200 in a day has been taken in by one ticket agent for passenger fare this season, and yet we are obliged to stumble along liable to break our necks getting to the station.

THRESHING ACCIDENT.—While threshing at Thos. Whitton's, Artemesia, on Saturday evening last, the large belt connecting the engine with the separator broke, and a portion of an iron used in joining the belt struck Jas. H. Lever, the engine driver, on the side making an ugly wound. Dr. Sproule was called in but could not at the time say to what extent his internal injuries were. We are pleased to learn, however, that he was able to be moved home the following day and is recovering.

REASON WHY.—Some people cannot understand how it is that J. Arthey the pump maker of Markdale puts in more wind mills than all the other agents combined. Of course if they did it would not be to them a matter of surprise. There is a reason for everything under the sun. One chief reason is that he is not an agent at all, but a dealer and gets a good discount off for paying cash which manufacturers will not give to agents who sell on commission. He is therefore able to sell cheaper, and can sell to suit the convenience of his customers. Another reason is, he is a practical mechanic and an expert at putting up wind mills, and of course any sensible person would prefer employing him than a greenhand. Any one thinking of buying a mill should call and see the one at the shop, thoroughly galvanized after it is made. 8-w

SEND 25 cents in a letter or hand it in and get the STANDARD the balance of 1895.

A STITCH IN TIME.—The floating bridge which was built some time ago over "Allen sink hole," 2½ miles north of Markdale, has done good service and proven entirely satisfactory, but the constant traffic is telling on it and the covering is wearing thin. The municipalities interested (Glenelg and Holland) would perform an act of commendable economy by re-covering it with plank before the old gets dangerous, as by so doing they would save the expense of re-bolting, and obviate the inconvenience to traffic which the tearing up process would cause.

W. C. T. U. Convention.

A convention of Grey County W. C. T. U. was held in Markdale on Tuesday last, and was well attended and enthusiastic throughout. Sessions were held in the Presbyterian church in the a. m. and p. m. and a large public meeting held in the Methodist church at night. The evening meeting was a most enjoyable and instructive one. Rev. J. Hunter ably filled the position of chairman, Mrs. Rogers, the Co. president, of Owen Sound gave a capital address on the rise and progress of the W. C. T. U., Mrs. Lediard a splendid paper on "The boys and how to help them," and Mrs. McKee of Barrie delivered a thrilling address on "Responsibility." The various speakers were enthusiastic in their work, and their addresses were pregnant with wisdom, logic, point and pathos. They were intensely practical in contending for moral purity, not only in high places, but in the domestic circle and in precept and example with the young which latter is the hope of the world. The united choirs of the three resident churches rendered excellent and appropriate music at intervals. Those who were not present certainly missed a treat

Irish Wit.

An Irish corporal, who now and then indulged in a noggin of right poteen, was thus accosted by his captain, while standing at ease: "Pat, what makes your nose so red?" "Plase, yer honour," said Pat, "I always blushes when I spakes to an officer."

Walters Falls Fair.

The management of the Central Agricultural Society of Walters Falls have been favored with elegant weather for their Fall Fair, and success has again crowned the enterprising efforts of its promoters. The first day's proceedings opened on Tuesday last and the attendance was good. The horse ring was the centre of attraction in the afternoon and some good races were witnessed, the following is the result:

IN THE HALL.

By kind permission of the Secretary, Mr. McLean, our reporter was privileged to take a run through the hall, and was informed by him that the exhibit here was far in advance of former years, with the exception of fruit and dairy, which latter was fair but lacked in quantity in comparison with other years. In ladies work and fine arts there was a grand display and some fine specimens of needle work is to be seen in this department. Among the exhibitors we notice a number of prize tickets on our exhibits from Markdale. The vegetable display is one of the finest we have seen in the hall for years, the quality good and a large exhibit in all classes. The exhibit of grain was scarcely up to that of former years in quantity but this was more than compensated by the superior quality in the different classes and kinds.

A match game of foot-ball was played between the Sydenham Clippers and the Woodford team in the evening resulting in a draw, neither having scored a goal.

ON WEDNESDAY.

The weather continued favorable but a stiff breeze from the south rendered it very dusty. Horses were on exhibition in large numbers and fully up to the high water mark in point of excellence. Judges were kept hustling in both the heavy and light classes, each having a separate ring. A large number of excellent cattle of various breeds were on the ground, but the horse ring drew the crowd. Sheep and pigs were also shown in creditable numbers.

The attendance was somewhat later in the day gathering, but was, we would judge, fully up to that of former years.

The want of a brass band or something of that character seemed to be a material blank on the fair grounds. There may not be much money in an investment for such a purpose; but it would certainly enliven the proceedings and add materially to the enjoyment of attendance generally and increase their desire to come back another year.

We expect to give a list of premiums awarded in next week's paper, in the mean time we congratulate the management on the grand success of their seventh annual exhibition.

H. H. Holmes was arraigned for the murder of Benjamin F. Pitezel in Philadelphia Tuesday, and upon the advice of his counsel pleaded not guilty. The trial was fixed for October 28th.

Karl's Clover Root, the great Blood purifier gives freshness and clearness to the complexion and cures constipation, 25c., 50c., $1. Sold by W. Turner & Co., Markdale, and Wm. T. Price, Berkeley.

The steam Alberta arrived at Port Arthur, Ont., at noon Tuesday. She encountered a terrific north-western storm about the middle of Lake Superior, and had to take shelter at Michipicoten Island.
