It is no longer profitable to export gold from New York to London direct, the foreign exchange market being weaker at 4.89 for demand bills. The old plan of making triangular deals between London, the continent and New York; can, however, come into play once more, gold-being shipped from New York to Berlin or Paris.

Our commercial summary from New York, giving the condition of busin sa throughout the United States, does not report any improvement in trade. Unsettled weather has to a considerable extent depressed business in various districts, but there has been a fairly compensating increase in the movement in other directions. In the west and cast an increased demand for money has been experienced; there has also been an advance in the price of citton, as well as for wheat and well. In some parts of court renersaring.

Bickle's Anti-Consumptive Syrup stands at the head of the list for all diseases of the throat and lungs. It acts like magic in breaking up a cold. A cough is soon subdued, tightness of the chest is relieved, owher the worst case of consumption is relieved, while in recent cases it may be said never to fail. It is a medicine prepared from the active principles or virtues of soveral medicinal herbs, and can be depended upon for all pulmonary complaints.

the following essay on "Pants" last Friday:

"Pants are made for mon and not men for pants. When a man pants for a woman and a woman pants for a man they are a pair of pants, such pants don't last long. Pants at like molasses; they are thinner in hot weather and thicker in cold. The man in the moon changes his pants during the edipse. Don't go to the pantry for pants, you may be mistaken, men are often mistaken in pants; such mistakes make breches of promise. There has been much discussion as to whether pants is singular or plural. Seems to us when they don't wear any pants it is singular. Men go oh a tear in their pants and it is all right, but when the pants get on a little tear it is all wrong."
