In the United States business has been in the tainted States misiness has been to a certain extent interfered, with by the election fever. At this time of year the trade movement has comparatively little significance in regard to the immediate future. There is a fair seasonable movement in the principal commercial center but low prices generally prevail. Still, the immediate outlook is encouraging and orders for Christmus and New Year specialties are assuming satisfactory pro-portions. Several woolfen mills have closed, though there is a by no means poor demand for seasonable dress goods; stocks of foreign wool are large. In the United States there have been 280 commercial failures, as compared with 261 in the cor-responding week of 1801.

Rayolution the vary cheapest editions of the Bible were valued as not less than \$9 a volume. Now an entire English Bible is sold for twenty cental and the Now Essammint can be bought for five cental.

The increase in the supply has been as wonderful as the decrease in the lost. Before the age of printing a popyist would wook for months to produce a single popy of the Bible that was almost process, to be secured to its place with a chain and handled by a fortunate few, only with the greatest of care. Then, though the introduction of printing increased the supply most maryellously, the high price yet held them beyond the reach of the average reader. It was only after organized so-cleites took charge of the printing and distribution that no one who wished a Bible need go without it. And the people have wished them with a desire that has increased with the advancement of general learning the autituation of the supply has been as wonderful as the following the first of the supply has been as wonderful as the following the first of the supply has been as wonderful as the following the first of the supply has been as wonderful as the following the first of the supply has been as wonderful as the following the first of the supply has been as wonderful as the following the first of the supply has been as wonderful as the following the first of the supply has been as wonderful as the following the first of the supply has been as wonderful as the first of the f increased with the advancement of gene al learning, the cultivation of though and the growth of the spirit of criticism.
