People short of fodder would do well to remember that they can buy thirty-four hundred pounds of oats for \$25 or less. It is good ground for about \$2, which contains more protein than a dollar than a poor quality of pressed hay at 10 or 19 dollars a ton, nine out of every ten men you meet want to buy.

This outfit is already too long with the wives of poor farmers and others so we wish the STANDARD and its many intelligent readers a merry Xmas and a prosperous New Year.

New is the time old "Santa Claus" is in search of stores hidden counters from which to swell his pack with gifts for girls and boys that he may fill their stockings with joy.

But, dear reader, think not he may be some oversight in him, look about you, think of those who may be without parents, others in humble homes, no home to go to, no food to eat, no gifts to give. Let us, then, aim at making some fine brighter and happier this joyous Christmas time.
