The Week's Commercial Summary.

Speculation is very dull on the Toronto and Montreal exchanges. Money is still hard to get and curtails speculation to a considerable extent.

The commercial agencies report 89 failures during the week; ten less than the previous week and three less than corresponding week last year.

The carnings of Canadian Pacific for the third week of March were \$511,00), an increase of \$72,000 as compared with the corresponding week of last year. The cheese trade is dull with prices lower than for some years past, and cables concerning the cattle trade are

anything but encouraging, there being heavy supplies from the United States. Ontario wheats are lower than a week ago, while Manitoba grades have held their own pretty well. The batter trade, on the other hand, has improved, and prices are stimulated by better demand and limited supplies.

and limited supplies.

The stocks of spring wheat at Port. Arthur and Fort. William are 3.445,000 busnels as against 67847.9 busnels at the corresponding period of last year. There are sellers of this wheat at 61c. May delivery with 62 1-2c. hid. Several weeks ago it sold at 68c., May delivery.

The interest in wheat the state of This series is the second series of the series o Business in wholesale circles at Toron-to is quiet, but 'the spring-like' weather of the past few days is more encouraging. In some lines there is an increase in the orders received from travellers who are enabled to get about better by the im-proving state of country, roads and rail-way traffic.

Montreal advices are to the effect that the heavy storm of la tweek, the severest of the seas n. and widespread in its effects, together with the succeeding spell of zero weather. has had a tendency to retard the looked for improvement in trade. Traffic in the interior is much impeded, and collections are poor. There are now indications of warmer weather, and travellers in the dry goods line will-pretty much all be out on the sorting tringnest week.

## Here and There.

These who don't like the flour trust may find a way to paste it. Spring whisters in the air, says the As there is doubt about the tion of the cathode rays, why not turn

the rays on themselves; Measels has broken out, in Vassar co loge. We believe it will be a hard jol to knock the spots off those Vassar girls

GOES TO EUROPE FOR TREATMENT.

Suffering for Years from Insomnia and Nervous Debility. PROSTBATED, "EXHAUSTED, NO

> American Nervine Tonio Built up the Nervous Organism and Gave Back to the Wearled and Exhausted Nerve Centers Their Wonted Vigo

VITALITY, NO FEST

For four generations the remarkable amily of LaBodie have been prominently identified with the legal and processional life of Montreal. A long line of fessional life of Montreal. A long line of active, intellectual men, whose ambilion to risk to promitience meant a constant drain upon the nerve forces, and a tromendous demand for brain power. Adolphe LaBodie, B. C. L., J. P., etc., has for sevence years been actively engaged in the legal profession, living, as the duties of intellectual men of this fast age demand, beyond the reserve limit of natural nerve force, requiring more of the nerve centers at base of brain than they can possibly fulfil, which always results in hervous prestration, dyspepsia, hot flashes, insemnia, contipation and attendant evils.

hot flashes, insomnia, contination and attendant evils.

Mr. LaBodle spared nother time not money to obtain rollef, what to Europe for special treatment, all to no purpose. His attention being directed to South American Norvine Tonic, he concluded to try it. Result—immediate relief from insomnia, and a perfect and perimanent ours from all other disorders, with but flye bettles of the Nervine.

Mr. Adolphe LaBodie, under dute of

Mr. Adolphe LaBodie, under date of April 27th, writes from Montreal: April 27th, writes from Montreal: "I was suffering from insolonia and not averaged doublity, prestration and exhaustion rather than rest followed a night's experience. Took five bottles of South American Norvine, and an whelly recovered, and now enjoy restful nights. I have tried inear remodes, have been treated in Europe, and can say with truthful emphasis that the South American Norvine has cured me."

There is reason in all things; business roasons in business, truthful reasons in truth. Mr LaBodie's statement herewith is the truthful reason typy, if South

is the truthful rosson why, if South American Nervine curel him it will care you. It is the nerve builder for brain workers. Brain and istemach cannot both work at the same time with healthdigastion, because the brilin is consuming all the nerve power. South American Nervino Tonia holds nature to a happy poise, and life duties swing to fruitful success.

German children probably enjoy Easter more than those of other nations, because for them the element of mystery that adds so much zest to the pleasure of the Christmas stocking is brought into play. Nests of thusel, artificial, flowers or some other attractive material are filled with eggs, candles, cakes or other goodles and hidden away for the children to search for. These nests are generally surmounted by a rabbit made of candly, cake or any of a hundred materials dictated by the ingenuity of loving parents. The Easter rabbit is a very old German institution and probably a survival of the heathen days when the hare was sacred to Easter, the goddess of spring. . Easter Nests. Are you questioning what course in life you shall take? Let love tell you. Love is the only prophet, love is the only teacher. Love will answer all roblems, because love is God. We are in the world like a child who plays map, which she does not know how to ful against wrong, and here some love that is beautiful with suffering, and here some love that is merciful and

compassionate toward the sinful—love all broken up in fragments. Put them together, take your life for this task, and put them together, and when all the fragments of life are put together, you will find the map'is love, for life is God, and God is love. For life is for this task. It is none as popular than the style. It is none as popular than the style. It is none as popular than the style. all broken up in fragments. Put them together, take your life for this task, the fragments of life are put together, you will find the map'is love, for life is God, and God is love.—Lyman Abbott, D. D.

Sleeping on forther bods in seven-bynine bed-rooms without ventilation at
the tops of the vindews, and especially
with two or more persons in the same
small, unventilated bed-room.
Eating in a hurry, without half masticating your food, and enting heavily Eating infa hurry, without half masti-cating your food, and eating hartily before going to bed every night, when the mind and body has exhausted by the toils of the day and exectement of the eroling. Beginning in childhood on tea and coffee, and going from one step to another through chowing and smoking benefor and drinking intextigating liquors, and physical and mental excesses of every de-scription.

Marrying in laste, and getting an uti-congenial companion, and living the re-mainder of 146 th mental disantistaction. Allowing the love of gain to absorb our minds so as to leave be time to accord to our health. Following an unlicalthy occupation because money can be made by it. by it.
Tempting the appetite with hitters and

niceties, when the stomach says, No, and by forcing food when hature does not demand and even rejects it.

Contriving to keep in a continual worry. about something or nothing. Giving way being irregular in all our Halvis of sleeping and eating, going to bed at mid-night and getting up at noon. Eating to much, and that which is too highly sea:

The Last Hardest. "How many foreign languages com. your wife speak? "Three—French, Gorman, and the one she talks to the baby." Muchinery Quickly Stopped.

A Franchman has devised a contriv-ance for quickly stopping heavy machin-ery. Upon toughing a button the power is shut off and a powerful brake applied to the flywheel. A twenty-horse power angine working at ninety revolutions par second was stopped in two-thirds of s

Incorlety a Disease.

The doctrine is still preached by some that Drutkenness is simply a social (vice which a man chn overcome by force of will! It is a strational, from a medical point of view, to treat Drunkenness by expostulation, pledge signing, reproaches and legislation, as it formerly was to treat insanity by incantitions, and the laying on of hands. A fair enumeration of the signalares of total abstinence pledges and of the succeeding relapses into drunken ways, has always demonstrated the fallacy of attempting to deal with Incorrect other than as a disease. On the other hand, the records of lakenhurst Institute prave conclusively the soundness of the theory underlying their treatment and emphasize its superfority over all'other known methods of reclaiming alcohol's victims. The disease for such it is, is treated scientifically and always success ully. Lakehurst institute, Oakville, was the first, and is the only successful Institute in in Ontario employing the boath.
