The attention of postmasters has been called to the importance of a very careful stamping of registered letters. Every registered letter should be stamped with force three times by the dispatching officer, once on the face and twice on the back, the impressions on the back being placed across the edge of the flap. Much trouble is still occasioned by the imperfect stamping of ordinary letters, and postmasters are strongly urged to give the needful attention to this important duty. It has been decided by the post office department that the name and address of the sender of a private post card may appear on the face of address side of the card. The address may take the form of an ordinary business card, and may be either printed or written.

Central Eighth Annual.

Messrs. Murdoch and Dixon, two directors representing the Central Agricultural Society of Walter's Falls, were in town on Saturday soliciting patronage for that institution. We understand that they met with fair success notwithstanding the stringency of the times. The people of Walter's Falls deserve great credit for the enterprise and co-operation manifested from year to year in connection with their annual fall exhibition, which is equal, if not superior, to any district or township agricultural fall fair in the county. They have an excellent and well fenced fair ground and commodious hall, and are in excellent financial circumstances and all procured without any government grant. Their eighth annual fall fair is to be held on the 29th and 30th September and promises to equal any of its predecessors. The management is aiming high and the Standard bespeaks for them unbounded success.

Manitoba School Question.

The following resolutions were submitted and unanimously passed by the Presbyterian General Assembly and the Toronto Conference of the Methodist church respectively at their recent meetings Toronto: "The General Assembly, which in common with former assemblies, attaching great importance to the religious character of public education, is strongly opposed to the restoration of Seperate schools in Manitoba as involving the application of public funds to sectarian purposes, a thing deemed both inexpedient and wrong in principle; the assembly expresses disapproval of any legislation or Governmental action in the matter of education which is intended to confer privileges upon one section of the community that are not accorded to all; in particular, the Assembly disapproves of any attempt to remove alleged grievances connected with the establishment of National schools in Manitoba, by remedial action of the Dominion, and especially by remedial legislation, such as has been proposed. Legislation of this character, while competent according to the letter of the constitution, is not required and is almost certain to be followed by very hurtful consequences. The assembly cannot, indeed, regard the establishment of Seperate Schools, as in any case a satisfactory solution of the educational problem occasioned by diversity of religious belief. In the interest of civil and religious liberty the General Assembly deems it its duty at this time to lift up its testimony against all proceedings which confuses temporal and spiritual authority, thus inevitably imparing the functions of both. Whilst the fullest expression of opinion in educational and other public questions which involve moral elements is always competent to churches, and may become their distinct duty, the General Assembly would earnestly deprecate any attempt on the part of any Church to place itself above the State in the civil sphere or dictate to to its adherents (members) in their service of a public trust. The Assembly still hopes that the Conference between the commission and the provinces of Manitoba may remove existing difficulties in the subject of public education by such adjustment as, while preserving the principal of National school, may satisfy any reasonable claims of the minority."

(1) That while the Methodist church does not identify itself with any political party, or assume to dictate to its members how they shall vote in political elections, yet, as conference, composed of laymen and ministers, we deem it our duty at the present juncture to reaffirm and place on record our uncompromising opposition to every attempt of the Federal or any government, or any parliament, no matter, by what party it may be made, or by concession of force, to restore Seperate Schools in the young province of Manitoba, contrary to the repeatedly expressed judgement of an overwhelming majority of its people. (2) Furthermore, we desire to declare that in our judgement any public policy carried by means of coercive hierarchical influence would be a violation of the spirit and principles of the system of free representative government under which it is our privilege to live, and which it is the duty of all patriotic citizens to maintain and defend."

Delineator Summer Number.

And is remarkable on account of several new departures. First and foremost is the addition of two superb colored plates. One devoted to Ladies', Misses, and Children's Fashions, and one to Millinery and its accessories. The regular Millinery Department is also materially enlarged and improved. The magazine has been given a handsome new cover, its make-up is changed and it is printed on finer paper than hitherto. Another innovation is the first half of a love story by Julia Magruder. In addition to a complete illustrated résume of the season's fashions this number is one making special appeal to young mothers. Dr. A. E. Schroeder discussing the care of the Baby's health in summer, Eleanor Brown giving a delightful description of a baby's birthday reception party, and an illustrated article being devoted to infantile attire. Woman's opportunities are broadly considered by Mary Gadwalader Jones, while the pursuit of literature as a profession is given experienced exposition by Agness Repplier. Dr. T. J. FAIR TREATMENT!

Most reputable merchants aim to be honest. We try to be in fair condition. Fairness means something more than a mere jest and equitable selling so many goods for so much money. It means treating a customer like a friend, by selling them goods that look right, wear well, and have genuine merit. It means being polite, attentive, and trustworthy on all occasions. It means giving the patron the advantage of an odd cent, or a cut profit when he is entitled to it. Meaning all these things it means us, for our business principles are based upon keeping a store, not for one day or one seasons goods, but for years and it is the record of years that counts. So we think uniform fair treatment of our patrons has entitled us to the golden opinions "of selling just right" that we hear of every day.

Bring us your Butter, Eggs, Wool and all kinds produce. Always the highest price paid.
